Secretary of State State Archives

Program Operations

The State Archives is the Division of the Department of State charged with preserving and maintaining the permanent records of state government. The “State Archives and historical records Act” created the State Archives as the “official custodian and trustee for the state of all public records of permanent historical, legal or other value”. The collection of historical records, dating from 1638 to the present, is available to the public for research. The division operates a public reading room for the research, inspection and duplication of public records. Archives staff provides reference assistance to researchers at the Archives facility, by mail, phone and e-mail. Publications, guides and finding aids to the holdings are available onsite and through the Internet. The State Archives also features exhibits and displays that are free and open to the public.

The Division operates the Local Government Records Program, which was established in 1992 with federal grant funding from the National Historical Publications and Records Commission. The program was designed to initiate a series of advisory and technical services for local governments in the state. The 1993 session of the General Assembly passed legislation establishing the Historical Records Trust, a restricted receipt account, which now provides funding for this program. Currently, the program provides records management advice, assistance and consultation to all departments of municipal government, as well as developing records control schedules that govern the retention and disposition of municipal records. The program actively works with Town and City Clerks to better preserve and administer the historical records in their care. Workshops and talks are provided to municipal personnel about records management functions and archival records administration and preservation. In conjunction with the Public Records Administration, the program also publishes guidelines about records and records issues.

Program Objectives

To provide comprehensive archives and records management services for all public records in the State, to provide information on the preservation of historical records and to provide information from and access to the State government archives.

Statutory History

The authority of the State Archives is granted from R.I.G.L. sections 42-8.1 and 38-3. Functions of the State Archives are also outlined in the Public Law 1989, Chapter 341, Public Law 1992, Chapter 241, and Public Law 1993, Chapters 385 and 417, and Public Law 2007, Chapter 73, Article 36.

Secretary of State Internal Service Programs

Program Operations

There are services needed by state operated programs and activities which are provided on a centralized basis. The costs of these operations are borne by the user agencies through a charge system, which allocates the costs of delivery of the goods or services. The operations of these programs are shown for display purposes only, since the costs are reflected in the budget of the user agency both on an actual and budget basis.

The Internal Service Program operated by the Secretary of State is the records center administered Public Records Administration program, which is charged with overseeing records management functions within state government. The record center provides central storage for non-permanent inactive government records and serves all state agencies. Inactive records are those records that agencies no longer require immediate access to, by that are not yet eligible for disposal because of administrative, fiscal or legal requirements. Public Records Administration personnel provide records management advice, assistance and consultation to all state agencies. They also work with agencies to develop records retention and disposition schedules-enabling timely disposal or retention as permanent records of the state. Comprehensive records management services encompass all records, regardless of format or media. Workshops are available to state agency personnel on records management topics. In addition, the program promulgates regulations and publishes guidelines about records and records management functions. The program also oversees Administrative Records functions.

Program Objective

The program provides cost-effective delivery of goods and services to other state programs.

Statutory History

The Director of Administration is authorized by R.I.G.L. 35-5 to establish a system of rotating funds in any state department or agency. The authority of the Public Records Administration is granted by R.I.G.L. 38-1,3.
