## Introduction and Summary Tables

## Introduction and Summary

The Governor's FY 2009 recommended budget finances personnel at $\$ 1.6$ billion. This includes $\$ 1.322$ billion for salary and benefits ( 84.7 percent), $\$ 201.3$ million for purchased services (12.9 percent), $\$ 3.0$ million for unemployment compensation costs associated with privatization initiatives ( 0.2 percent) and $\$ 31.2$ million ( 2.2 percent) for such statewide benefits as severance, unemployment and workers compensation that are funded by a statewide assessment. This total includes expenditures financed from general revenues, federal grants, restricted receipts, other funds, and internal service funds. After adjusting to reflect internal service fund personnel expenditures in the personnel category rather than as an operating expense, personnel expenditures constitute approximately 22.5 percent of the state budget, the second largest category of spending (after assistance, grants and benefits).

## FY 2009 Personnel Expenditures

Personnel expenditures recommended for FY 2009 include a net decrease of $\$ 83.4$ million, or 5.0 percent, from the FY 2008-revised budget. Direct salaries decreased by 2.4 percent. Overtime decreased by 20.9 percent. Fringe benefits fell at a rate of 7.5 percent overall, a steeper decline than salaries due to the declines in health benefits (14.8 percent) and retiree health (11..0 percent) versus a small reduction in retirement ( 0.3 percent).

## Personnel Initiatives

The Governor also recommends several measures to reform the personnel system so as to reduce costs both in the payment of benefits and in reductions of personnel. In the Personnel Supplement, privatizations and FTE reductions are depicted in each department and agency. For FY 2008, the amount of estimated savings from uncompensated leave days is withdrawn from the agency budgets. For FY 2009 the amount of savings targeted for personnel, in the form of compensation, medical plan design and co-share changes, and extraordinary retirements, are shown within the Department of Administration to be reallocated at a later date, in two separate sub-programs.

## Introduction and Summary

## Statewide Personnel Savings and Reduction in Force

The Governor recommends that State Government operate with fewer state employees and that several measures be taken to reduce the overall cost of the workforce. The Governor recommends targeted reductions and layoffs in personnel in certain agencies based upon specific programmatic reductions ( 629.7 FTE), reflected as "program reductions'. It is projected that this reduction will save \$618,473 from all funds in FY 2008 and $\$ 31.0$ million in FY 2009 in salaries alone. Savings including benefits are estimated to be $\$ 41.0$ million in FY 2009. These savings are budgeted in the various departments and agencies. These are reflected as program reductions in each agency, and can include both filled and vacant FTE positions. The recommendation also includes $\$ 60.6$ million in savings, of which $\$ 33.4$ million is general revenues, for personnel savings that are currently being discussed with union leadership. For display purposes, $\$ 33.6$ million is reflected in medical benefit savings and $\$ 27.0$ million in salary and benefit savings. Additionally, the Governor's recommendation assumes $\$ 30.5$ million in savings from all sources, $\$ 16.8$ million from general revenues, from permanent position eliminations as a result of retirements for FY 2009. There are currently over 3,100 employees eligible to retire, whether by age or years of service. The Governor's recommendation assumes that 300 non-critical positions will be eliminated upon the incumbent's retirement. Overall, the state employee full time equivalent positions will be reduced from the FY 2008 enacted level of $15,987.3$ to $14,796.6$ in FY 2009, a reduction of $1,190.8$ positions. Additionally, it is the Governor's goal to reduce contract employees by the 158.4 full time equivalent positions.

## Uncompensated Leave Days

The Governor recommendation includes six uncompensated leave days for all state employees in FY 2008 that will reduce salary and benefit expenditures by 2.3 percent. The budget assumes all state employees will receive less pay either for one day less pay per month (two days in May) or a lower paycheck for the remainder of the year. Employees will be credited one day of personnel leave in the pay period in which the salary reduction occurred. The personal leave must be discharged by December 31, 2008, and is not eligible for carry over to the next calendar year or for severance payments upon separation from state service. There are no exemptions for any class of full-time employee, although limited period or seasonal employees will not be affected. Implementation of this measure will save $\$ 14.8$ million in general revenues and $\$ 25.6$ million from all fund sources in FY 2008. These savings are depicted within each department or agency.

## Retiree Health Unfunded Liability and Recommended Changes in Eligibility and Co-Share

The Governor recommends that the State fund retiree health benefits on an actuarial basis and amortize the unfunded liability over a thirty year period. This funding mechanism will provide transparency with respect to the true cost of the benefit offered to state employees after employment. In compliance with GASB Statements 43 and 45, "Other Post Employment Benefits," in July 2007, the State obtained an actuarial estimate of the unfunded liability relating to retiree medical benefits. The unfunded liability as of June 30, 2005 was estimated to be approximately $\$ 479.8$ million, including $\$ 427.3$ million for State employees, $\$ 32.2$ million for State Police, $\$ 17.7$ million for the State's share for teachers, $\$ 2.6$ million for Legislators, and $\$ 68$ thousand for Judges. This was calculated using a long term investment rate of return of $8.25 \%$. The annual required contribution as a percentage of payroll would be $5.46 \%, 20.06 \%$,

## Introduction and Summary

$.015 \%, 14.61 \%$ and $.09 \%$ respectively. The enacted FY 2008 budget does not include funding on an actuarial basis, but continues to provide funding for the pay as you go costs. The actuarial analysis also included estimates utilizing alternative rates of return. This resulted in estimated unfunded liabilities totaling $\$ 549.7$ million using a $7.0 \%$ rate of return, and $\$ 696.2$ million using a $5.0 \%$ rate of return.

In order to address this unfunded liability and reduce the ongoing cost to the taxpayer, the Governor recommends modifying eligibility requirements and co-share percentages for retiree health. Employees retiring after June 30, 2008 would be eligible for retiree health coverage through the state if they are over age 59 or over with a minimum of 20 years of service. Currently an employee with over 10 years of service as of July 1, 2005 is eligible for retirement with at least 28 years of service at any age, or at least 10 years of service and at least age 60, and is therefore eligible for retiree heath. For those employees with less than 10 years of service prior to July 1, 2005, the employee must be age 59 with at least 29 years of service, age 65 with ten years of service, or age 55 with 20 years of service. The Governor's proposal also modifies the co-share percentage to require a 20 percent co-share on the full cost of the early retiree or post-65 plan in which the retiree is enrolled. Currently, early retirees pay a co-share based on years of service on the active employee rate. For employees over age 60 with at least 28 years of service, the state pays 100 percent of the cost of the plan. The rate of payroll would be reduced form the actuarial required rate of $5.46 \%$ without any changes, to $3.86 \%$ with the proposed changes. According to the actuary, the rate of payroll charge under the current pay as you go system would be $3.28 \%$. These changes are projected to save $\$ 6.1$ million from general revenues and \$9.8 from all funds in FY 2009.

## Savings in Employee Medical Benefits

The Governor's recommendation utilizes a surplus generated in the health insurance fund to offset the costs of FY 2008 medical benefits. State agencies will not be charged for the cost of employees medical benefits for the last three pay periods in FY 2008. This is estimated to save $\$ 11.0$ million from general revenues and $\$ 19.3$ million from all fund sources, net of corresponding percent of premium co-share reductions. For FY 2009, the Governor's recommendation lowers the cost of budgeted medical insurance based upon current employee claims data adjusted for inflationary increases of 9.9 percent. This is estimated to save $\$ 6.2$ million from general revenue sources and $\$ 11.2$ million from all fund sources as compared to current service levels, which is a reduction of 6.5 percent.

## Contract Employee Reductions

In FY 2008, the Governor began a comprehensive review of all contract employee positions in state government. A total of 657 positions were identified in the Executive Branch, and these positions were categorized to determine which positions should remain as contractors and which should be eliminated. Those positions that are either financed exclusively through a federal grant, highly technical, or on-call/intermittent were maintained as contract employees. A total of 193 positions, which comprised a full-time equivalent of 158.4 positions, were identified for elimination. This reduction is estimated to save $\$ 9.8$ million from all sources of funds in FY 2009. Through the end of December 2007, 58 positions, equating to 50.6 FTEs, have been eliminated resulting in $\$ 2.8$ million of savings.

## Introduction and Summary

## Privatization of Food and Housekeeping Services

The Governor recommends the privatization of Housekeeping and dietary services at the Eleanor Slater Hospital and dietary services at the Veterans' Home in FY 2009, saving an estimated $\$ 4.8$ million from all sources of funds, of which $\$ 2.5$ million is from general revenues.

1. The Governor's recommendation includes the privatization of dietary services at the Pastore and Zambarano campuses of the Eleanor Slater Hospital. Currently, these services are performed in-house. There are 88.0 FTE positions involved in providing dietary services to the patients at Eleanor Slater Hospital. The total personnel costs associated with these positions in FY 2009 are projected at $\$ 5.5$ million and the cost of food is $\$ 1.3$ million. The cost to privatize this function is estimated at $\$ 2.1$ million, which is derived by multiplying the industry estimate $(\$ 5.23)$ per meal by the total number of meals $(410,734)$. It is estimated that privatization of dietary services in FY 2009 will save $\$ 3.5$ million from all funds, of which $\$ 1.5$ million is general revenues, in FY 2009, net of unemployment benefits and medical severance costs.
2. The Governor recommends privatizing the housekeeping services at Eleanor Slater Hospital at the Pastore and Zambarano campuses of the Eleanor Slater Hospital. Currently, these services are performed in-house. There are currently 67.0 FTE positions involved in providing housekeeping services to the patients at Eleanor Slater Hospital. The total personnel costs associated with these positions in FY 2009 are projected at $\$ 3.9$ million. The cost to privatize this function is $\$ 2.4$ million ( $\$ 5.50$ per cleanable square foot), as determined by a response to a Request for Proposals. It is estimated that privatization of housekeeping services in FY 2009 will save $\$ 578,833$ from all funds, of which $\$ 260,475$ is general revenues, in FY 2009, net of unemployment benefits and medical severance costs.
3. The Governor recommends privatizing the dietary services at Rhode Island Veteran's Home. Currently, these services are performed in-house. Currently, these services are performed inhouse. There are 28.0 FTE positions involved in providing dietary services to the patients at the Veterans' Home. The total personnel costs associated with these positions in FY 2009 are projected at $\$ 1.8$ million and the cost of food is $\$ 812,000$. The cost to privatize this function is estimated at $\$ 1,539,000$ which is derived by multiplying the institution estimate ( $\$ 5.40$ ) per meal by the total number of meals $(285,138)$. It is estimated that privatization of dietary services in FY 2009 will save $\$ 686,911$ from general revenues.

## Privatization of Corrections Functions

The Governor recommends the privatization of the following activities in the Department of Corrections.

1. The Governor recommends the privatization of the counseling and case management function. Currently this unit is responsible for the initial classification of inmates (gathering information to assess the risk factors involved in facility assignment), counseling inmates during periodic reclassifications and discipline board actions, counseling concerning good time and other information, and providing information to the Parole Board that enters into the grant of parole. The privatization would change the focus of the unit efforts to initial reentry services by stressing case management and programming suited to individual inmates. The Department feels that there are several community-based agencies with specialized expertise in providing services, as well as providing a link in the community once the inmate is released. The Department proposes a staff reduction of 33.0 FTE's (27.0

## Introduction and Summary

adult counselors, 4.0 classification counselor, 1.0 counseling services coordinator, and 1.0 coordinator of education) with savings of $\$ 2,708,081$, as well as contract services for counseling and case management services of $\$ 2,256,734$, for a net savings of $\$ 451,247$. The budget recommendation also includes $\$ 551,370$ in unemployment and medical benefit severance costs, for a net additional cost of the proposal of $\$ 100,024$.
2. The Governor recommends the issuance of a statewide master contract for dental services, eliminating the need for state employees. Currently a majority of dental services are provided by contracted community based suppliers. Savings from elimination of state employees of $\$ 542,498$ would be offset by an estimated contract addition of $\$ 300,000$ for such services. The budget recommendation also includes $\$ 100,249$ in unemployment and medical benefit severance costs, for a net savings of the proposal of $\$ 142,249$. 4.0 FTE's and 10 contract employees ( 6.0 dentists, 2.0 dental assistants, and 2.0 dental hygienists) would be affected.
3. The Governor recommends privatization of the Central Distribution Center (CDC). Currently the CDC is responsible for purchasing food staples, janitorial items, and other items for warehousing, and delivery to state agencies, distributing USDA commodities under the Emergency Food Assistance Program to local community action agencies, the Food Bank, soup kitchens, etc., and distributing USDA commodities under the school lunch program to local school districts. Because of increasing salary and benefit costs, the surcharge charged to other state agencies as increased. Despite position eliminations, the program has operated at a deficit for the past two years. Sales have also decreased as agencies seek more economical means of obtaining supplies. Alternative models in such states as Connecticut, Colorado, Oklahoma, Maryland, North Dakota, and Mississippi use private companies and direct distribution, rather than centralized warehousing. The recommendation involves a reduction of 14.0 FTEs in the Internal Service Fund program, as well as a reduction in merchandise purchasing and warehousing expenditures, a total of $\$ 6,054,815$. The Governor's recommended budget includes $\$ 409,258$ in general revenue operating savings to be achieved by contracting with a private firm to perform the warehousing function, which would reduce the surcharge on purchased goods. It is expected that savings would occur by reducing the surcharge on food items from 25 percent to 10 percent, a 15 percent savings. The budget also includes $\$ 211,535$ was added to the Internal Service Fund budget for unemployment and medical benefit severance costs.

## Privatization of Davies and School for the Deaf Janitorial Services

The Governor recommends the privatization of all janitorial services at both the Davies Career and Technical School and the Rhode Island School for the Deaf. Currently there are 6.0 FTEs at Davies and 3.0 FTEs at Deaf that perform janitorial services, for a total personnel cost of $\$ 602,912$. The cost to privatize these services is estimated at $\$ 358,696$. Net of unemployment and medical severance costs, this proposal is estimated to save $\$ 122,839$ from general revenues in FY 2009.

## Consolidation of Agencies

The Fiscal Year 2008 Budget enacted by the General Assembly contained language which required the Governor to plan for two new major consolidations. This is in addition to the consolidation of certain Office of Health and Human Services functions which are reflected as FTE transfers from

## Introduction and Summary

the agencies within the Office of Health and Human Services for FY 2009. For ease in comparing data, the Governor's budget for FY 2009 reflects historical data associated with the Public Safety and Advocacy on a consolidated basis.

## Department of Elderly Affairs and Advocacy

Section 11 of Article 3 Relating to Reorganization provided for the following:
SECTION 11. The general assembly hereby requires the governor to submit, as part of his FY 2009 budget, necessary legislation to create a department of advocacy, with an effective date of no sooner than July 1, 2008, and no later than January 1, 2009.

The governor shall consult with the child advocate, mental health advocate, commission on the deaf and hard of hearing, developmental disabilities council, and the commission on disabilities in developing the department.

The department shall include the child advocate, mental health advocate, commission on the deaf and hard of hearing, developmental disabilities council, and the commission on disabilities.

The governor with advice and consent of the senate shall appoint the child advocate and the mental health advocate, as detailed in existing statutes. All agencies combined into this new department shall maintain existing duties as set forth in current law.

The Governor has reviewed the proposed composition of the department and recommended only three of the five agencies be merged into the existing Department of Elderly Affairs and be called the Department of Elderly Affairs and Advocacy. Under the leadership of an existing cabinet director, the functions of these agencies would be best integrated within the Health and Human Services Secretariat. It is recommended that the Office of the Child Advocate and Office of the Mental Health Advocate remain independent.

For purposes of budget presentation, the following agencies have been merged into the new Department of Elderly Affairs and Advocacy: Department of Elderly Affairs, Commission on the Deaf and Hard of Hearing, Developmental Disabilities Council, and the Governor's Commission on Disabilities.

## Department of Public Safety

Section 14 of Article 3 Relating to Reorganization provided for the following:
SECTION 14. The general assembly hereby requires the governor to submit, as part of his FY 2009 budget necessary recommended legislation to create a department of public safety, with an effective date of no sooner than July 1, 2008, and no later than January 1, 2009. The director of the department shall be the superintendent of the state police who shall be appointed by the governor with the advice and consent of the senate.

The governor shall include the state police, E-911, emergency telephone system division, the state fire marshal who shall be appointed by the governor

## Introduction and Summary

with the advice and consent of the senate, fire safety code board of appeal and review, justice commission, municipal police training academy, sheriffs and capitol police.

The department shall consolidate communications and overhead expenditures.

The Governor has reviewed the proposed composition of the department and recommends one modification. It is recommended that the Fire Safety Code Board of Appeal and Review remain independent due to opinion that it is not directly related to emergency response, law enforcement and security services, but might be better aligned to the Building Code Commission within the Department of Administration.

For purposes of budget presentation, the following agencies have been merged into the new Department of Public Safety: State Police, E-911 Emergency Telephone System, State Fire Marshal, Municipal Police Training Academy, Sheriffs, Capitol Police, and the Governor's Justice Commission.

## Department of Environmental Management Assumes all Environmental Functions

For FY 2009, the Governor also recommends merging the Coastal Resources Management Council and the Water Resources Board into the Department of Environmental Management in order to reduce overhead costs and duplication of efforts. The savings will be realized by eliminating 9.0 FTE positions and replacing contract legal services with a state employee, thereby reducing the number of FTEs required to perform the functions of the Council from 30.0 positions to 22.0 positions. The Water Resources Board will be merged into the Office of Water Resources, and savings will be realized by eliminating 5.0 FTE positions and adding an accountant position and a chairperson position, thereby reducing the number of FTEs required to perform the functions of the Board from 9.0 positions to 6.0 positions.

## Program Definition Changes

The FY 2008 Budget submission for the Department of Health reflects changes in the program structure which realigns appropriation line items. The tables that follow reflect the Health Department's budget in the enacted form and in the new form to aid the reader of the budget documents. The major changes include:

## Introduction and Summary

- Public Health Information: combines and merges certain activities and functions in prealigned Central Management, such as Vital Records
- Infectious Disease and Epidemiology: removes some, if not all, activities and functions related to infectious diseases and epidemiology

## Full-Time Equivalent Positions (FTE)

The FY 2008 enacted budget contained 15,987.3 full-time equivalent (FTE) positions, including 785.0 FTEs that are federal/sponsored research positions in Higher Education. In order to achieve significant personnel costs savings while maintaining the current level of critical services, the Governor recommends 15,688.7 FTE for FY 2008, a decrease of 298.6 FTEs from the enacted level. The majority of the decrease is due to holding a targeted ( 75 percent) vacancy level on the instructions of the Governor to cabinet level departments and other agencies. This 355.4 FTE decrease is offset by 47.0 additional FTE's in the Department of Administration for Information Technology, as well as the transfer of the accounts payable function to the Department. Other adjustments include an additional 7.0 FTE's in the Department of Corrections for probation and parole personnel to supervise the anticipated release of inmates due to the Governor's proposed Earned Good Time initiative, other additions and technical adjustments in the Office of Health and Human Services, the State Police, and the Office of the Governor, and various transfer in social service agencies.

In FY 2009, the Governor recommends a total FTE level of 14,796.6, including 785.0 Higher Education federal/sponsored research positions, a net decrease of 892.1 FTE's from the revised level. FTE reductions due to privatizations or other actions proposed by the cabinet-level departments in meetings with the Governor and his staff at the Alton Jones facility in the summer of 2007 are included in the recommendation. The Governor's FTE recommendation reflects the privatization of food service and housekeeping services at state institutions, the Central Distribution Center, Corrections dental services, and inmate counseling/case management, janitorial services at the state's Davies Vocational and School for the Deaf, as well as FTE's reductions for both program change and for unfunded vacancies.

The Governor has recommended an intense review of State organizational structures and business practices, as positions are vacated through retirements or attrition, with a view towards consolidating agencies to provide services in a more efficient manner. Specific consolidations include 1) the transfer of back office functions from various social service agencies to the Office of Health and Human Services involving 96.2 FTE's; 2) the creation of a new agency, the Department of Public Safety, through the merger of the State Police, the Municipal Policy Training Academy, the State Fire Marshal, E-911, the Sheriffs \& Capitol Police, and the Rhode Island Justice Commission; 3) the merger of three advocacy agencies (Deaf \& Hard of Hearting, Developmental Disabilities, and the Governor's Commission on Disabilities), into the renamed Department of Elderly Affairs and Advocacy; and 4) the FY 2009 merger of the Coastal Resources Management Council and the Water Resources Board within the Department of Environmental Management.

In General Government, the Governor recommends a net decrease of 640.3 in FY 2009 from the FY 2008 enacted budget, including 300 undesignated positions to be abolished as a result of vacancies form retirements. There is a 257.1 FTE reduction in Administration due to the transfer of the Security Services program to the Department of Public Safety (241) and the addition of 47.4

## Introduction and Summary

FTEs for the hiring of state employers in lieu of information technology contractors. There are reductions of 47.7 in Labor and Training and 15.0 in the Department of Revenue due to vacancy adjustments and Alton Jones initiatives. The remaining reductions are in the following agencies: Business Regulation, Governor, Secretary of State, General Treasurer, Public Utilities Commission, and the Lieutenant Governor.
In Human Services, the Governor recommends a net decrease of 566.8 FTE in FY 2009, from the FY 2008 enacted FTE cap. The Governor recommends the addition of 96.2 FTE's in the Office of Health and Human Services due the above-mention transfer of administrative functions from other social service agencies. Offsetting this increase are vacancy and program reductions due to the elimination of vacancies and targeted programs, as well as various privatizations in Human Services (31.0 FTE's in dietary services in the Veterans Affairs program), and Mental Health, Retardation and Hospitals ( 38.3 FTE's in Group home clients and for Hospital consolidations. 98.0 FTE's reflecting the proposed privatization of food services at Eleanor Slater and Zambarano Hospitals, and 85.0 FTE's reflecting the proposed privatization of housekeeping services at Eleanor Slater and Zambarano Hospitals).

In Education, the Governor recommends a decrease of 70.5 FTEs in FY 2009, 5.2 in Elementary and Secondary Education and 60.9 in Public Higher Education. In the former, the reduction reflects the elimination of 3.2 vacant FTE's ( 1.0 in the administration program, 2.2 in the School for the Deaf), as well as the net of privatization actions ( 9.0 FTEs) and the increase of 7.0 within the administration program to replace contract employees. In the latter, the reduction is in unspecified positions and functions, under the purview of the Board of Governors.

In Public Safety, the Governor recommends a net increase of 160.8 FTEs in FY 2009. In addition to the transfer of positions to the new Department of Public Safety referred to above, the increase reflects offsetting FTE reductions due to program and other changes resulting from the Alton Jones initiative, including FTE reductions in Corrections and Military Staff, special adjustments in the Attorney General and Judicial departments, and the privatization of Corrections programs (dental services, counseling/case management and Central Distribution Center) totaling 51.0 FTE's/.

In Natural Resources, the Governor recommends a reduction of 29.4 FTEs in FY 2009 from the enacted FY 2008 level. In addition to vacancy and program reductions in Environmental Management and Water Resources Board (offset by transfers from Transportation), there are additional FTE reductions arising from the merger of the Coastal Resources Management Council with the Department of Environmental Management.

In Transportation, the Governor recommends a reduction of 44.5 FTE's, both transfers to Administration and vacancy reductions as mandated by the Governor for all agencies in the FY 2008 revised budget.

As directed by the Governor, the overall filled FTE level must be constrained not only through careful management by cabinet directors of existing and upcoming vacancies, but also major initiatives to reduce or privatize program functions. Actual filled positions totaled $14,703.8$ as of January 18, 2008. This included 570.2 filled sponsored research positions. Actual filled positions excluding sponsored research positions as of January 19, 2008 were 14,133.6, 379.0 less than in July 2007. The current filled level reflects in part the hiring of Correctional Officers recruits from the training classes held during FY 2007. The filled level of $14,133.6$ FTE is $1,068.7$ FTEs ( 7.0 percent)

## Introduction and Summary

less than the enacted cap of 15,202.3. In the FY 2009 budget, turnover (all funds) is estimated to be 3.9 percent of salaries, comparable to FY 2008's level of 3.7 percent of salaries, and FY 2007's level of 3.8 percent (The FY 2008 revised rate is 4.77 percent). The turnover level reflects in part the centralization process in the Department of Administration, as well as the increased constraints on filling existing vacancies.

General revenue finances 50.9 percent of FY 2009 personnel expenditures. Federal funds finance 21.5 percent. Other Funds (primarily college tuition funds) and Internal Service Funds finance 24.0 percent. Restricted receipts finance the remaining 3.6 percent. This document contains all expenditures for personnel, including those of the internal service funds, as noted above. Since internal service positions are financed through charges to state agencies categorized as operating expenses, totals shown in this document will differ in some cases from personnel costs shown in complementary documents of the FY 2009 Budget.

## Salaries and Benefits

The largest category of personnel expenditures is for salaries and benefits. As adjusted for unallocated statewide personnel savings in the Department of Administration, salaries and benefits (including temporary and seasonal) represent $\$ 1,322.4$ billion or 85.7 percent of total personnel costs. Salaries, including payroll accrual, overtime, holiday, and other salary-related items, equal $\$ 933.8$ million and fringe benefits equal $\$ 388.6$ million. Fringe benefit payments include $\$ 153.8$ million for retirement costs, $\$ 138.7$ million for medical benefits (including $\$ 136.5$ million for benefit plans and $\$ 2.2$ million for medical benefits-salary disbursements), $\$ 26.3$ million for retiree health benefits, $\$ 64.7$ million for FICA, and $\$ 5.1$ million for other benefits, including group life insurance and other contract stipends. In addition, the statewide benefit assessment, consistent with federal OMB Circular A-87, is included to finance severance, unemployment, employee assistance, workers' compensation payments and administrative costs, and DLT employer assessments, and

totals $\$ 31.2$ million.

## FY 2009 Salaries and Benefits

Direct Salaries decrease by 0.3 percent in the FY 2008 Revised Budget over FY 2007 (unaudited expenditures), and decreases a further 2.4 percent in FY 2009 over FY 2008 revised. The decrease reflects $\$ 39.7$ million in unallocated salary reductions that are expected to result from future retirements. This is reinforced by the reduction in overtime of 4.2 percent in FY 2008 revised and 20.9 percent in FY 2009, so that total salaries decrease by 0.5 percent in FY 2008 revised and 3.7 in FY 2009. In the FY 2008 revised budget, a total of $\$ 16.2$ million in contract reserve funds are budgeted for unnegotiated COLA/Medical Co-Pay amounts (including retroactive payments for FY 2005 and FY 2006) with (primarily) correctional officers. In FY 2009, all but \$340,765 of this (the projected increase due to increased overtime use) is included in salaries and benefits, based on the expectation that an arbitrator decision will be available by January or February of 2008. All retroactive payments for RIBCO are reflected in FY2008. A 7.0 percent increase due to step, longevity COLA/medical co-pay adjustments (discussed below) are offset by changes in personnel benefits and other measures designed to reduce the impact of rising salary and benefit costs. These latter reductions are depicted in the Department of Administration as separate programs. The proposed distribution of these reductions among the state departments and agencies is shown in the accompanying table.

Fringe benefit adjustments increase by 8.8 percent in FY 2008 revised over FY 2007, and decrease by 7.5 percent in FY 2009 over FY 2008 revised. Retirement increases by 8.9 percent in FY 2008 but decreases by 0.3 percent in FY 2009. FICA decreases by 1.1 percent in FY 2008 and by 4.1 percent in FY 2009. Retiree health, on the other hand, has grown by 36.4 percent in FY 2008 over FY 2007, but decreases in FY 2009 by 11.0 percent. Within state agency budgets, state employer retirement contributions are budgeted at 20.77 and 21.13 percent of payroll for FY 2008 and FY 2009. Retiree health is budgeted at 3.91 percent in FY 2008 and 3.86 percent in FY 2009.

For medical benefits, the recommended budget for FY 2008 revised of $\$ 162.4$ million includes an overall increase of 10.2 percent over FY 2007 actual expenditure levels. Fiscal Year 2009 budget instructions were initially based on an estimated decrease of 11.5 percent from the FY 2007 revised

## Introduction and Summary

level. Medical benefit costs were revised in the final planning stages to reflect four pay period holidays in which state departments will not be charged for the costs of medical benefits. These holidays were possible due to an FY 2007 surplus, additional revenue in FY 2008, and the estimated excess of revenue of expenses in FY 2008. Medical benefits have also been reduced by centralized personnel reform initiatives and changing trends (see above), producing $\$ 7.0$ million in savings. For FY 2009, the recommendation of $\$ 138.7$ million in medical benefits is a decrease of 14.6 percent from the recommended revised budget amount for FY 2008, reflecting an estimated $\$ 37.7$ million in statewide personnel savings reflected in the Department of Administration under discussion with the unions. The Governor's recommendation includes a decrease of 6.4 percent from the initial estimate, based on lowering of the working rates due to the better trend experience in FY 2008.

The Governor recommends a retiree health budget of \$29.6 million in FY 2008 revised and $\$ 26.3$ million in FY 2009, a growth rate of 36.4 percent in FY 2008 from FY 2007, and an 11.0 percent decrease from FY 2008 revised to FY 2009. In FY 2008, the planning value rate increases from 3.1 percent to 3.91 percent. The initial planning value for FY 2009 was 5.46 percent, but was reduced by 70.7 percent to 3.86 percent due to changes in the retiree health benefit subsidies for all employees who retire after June 30, 2008 proposed by the Governor. The change provides that employees must be a minimum of age 59 and have a minimum of 20 years service to qualify for retiree health insurance. The recommendation is based on the Governor's medical care Cost Initiative discussed in more detail above. The reduction also includes $\$ 1.6$ million in unallocated statewide reductions.

Workers' compensation costs budgeted directly in the agencies in FY 2008 and FY 2009 are $\$ 143,412$ and $\$ 143,675$, respectively and are funded in the Departments of Corrections and Children, Youth and Families. These amounts reflect the continuation of wages in excess of those amounts received as a result of the Workers' Compensation statute (primarily as a result of assault cases). Since FY 2001, all workers' compensation costs, as well as unemployment insurance and unused leave severance payments, have been paid from a separate Assessed Fringe Benefits Administrative Fund. The fund is financed by a statewide benefit assessment of 3.8 percent of direct salaries that is charged to every department and agency in this document. The initial planning value of 3.2 percent was raised by 18.75 percent to 3.8 percent (and the exception rate was raised from 1.1 percent to 2.1 percent) to fund both current costs and the increased potential for layoffs due to the Governor's personnel reform initiatives. (See the Glossary section of the book for an explanation of the components of the Assessed Fringe Benefit Fund recommended in FY 2008). The FY 2009 budget includes $\$ 3.0$ million for severance costs (both unemployment and extended medical benefits) to fund the expected increases due to privatization.

## Introduction and Summary

## Purchased Services

Purchased Services costs in the FY 2009 Budget are $\$ 201.3$ million, and represent 12.2 percent of total personnel costs. Expenditures in this category are for services provided by outside contractors in cases where special expertise is needed or where it would be less efficient to hire full-time employees. Major categories of expenditure are management and consulting services (comprising 14.2 percent of the total), design and engineering services (comprising 22.9 percent), training and education services (comprising 13.4 percent), medical services (10.4 percent), and information technology services (comprising 18.4 percent).

## FY 2009 Purchased Services

Expenditures in FY 2008 revised are $\$ 23.4$ million more than FY 2007, a 9.2 percent increase in spending for these services. Expenditures in FY 2009 are $\$ 6.3$ million less than FY 2008. The greatest decreases are in management and consultant services ( $\$ 3.3$ million), training and education services ( $\$ 5.8$ million), information technology services ( $\$ 3.3$ million), and clerical and temporary services ( $\$ 1.2$ million). Building and grounds services increase by $\$ 3.3$ million, medical services increase by $\$ 2.4$ million, and other contract services increase by $\$ 3.3$ million. A major reason for the decline is the finalization of project work in FY 2008, as well a goal to reduce contract employee services. Offsetting this is the used of private service contracts for various privatizations.

The various sections of the Personnel Supplement contain the personnel costs for each agency and program in state government for FY 2008 and FY 2009. All positions and their respective costs are displayed. Footnotes will assist readers in understanding variances between the years. Footnotes are included in the back section of this document. Additionally, there are a number of terms used in the Personnel Supplement that are not part of every day usage. A Glossary with extended explanations is included in the back of the Personnel Supplement. For more information on the codes used to identify the pay scales, refer to the Glossary. Pay scales are also reflected on the State's Human Resources web site.

The Assessed Fringe Benefit Internal Service Fund is funded from the Statewide Benefit Assessment budgeted in each agency as part of personnel funding. This assessment is intended to cover costs associates with Worker's Compensation payments, staffing of the State Employees' Workers Compensation unit, Severance costs, Unemployment costs and the State Employee Assistance Program. In order to avoid double counting with the double counting with the funding reflected in the Statewide Benefit Assessment, the expenditures associated with the non-payroll portion of this fund are not reflected in the department or statewide totals Funding and FTE's associated with the staffing in this fund are still included in the department and statewide totals in order to capture all state positions and associated funding.

Glossary

## Glossary

## Benefits

Benefits paid to state employees include Retirement, the state's contribution to the Employee Retirement System (including payments to retirees for health insurance, and, for members of the Laborer's International Union, the portion of salary increases contributed to the union's national pension plan); FICA, the state's cost for social security and Medicare tax contributions; Medical, the annual cost of all medical (including dental and vision plans) plans; (which includes Medical Benefits Salary Disbursements, the bonus amount paid to employees who waive medical insurance); and Retiree Health, the portion of employee post-retirement medical costs paid by the state. Under Other Benefits are included certain special contract stipends, employer cost group TDI payments, and group life insurance.

## Classifications

The classification of state service is divided initially into four classes of employment: (1) statutory, (2) unclassified, (3) classified, and (4) non-classified. Statutory positions are those established by law with the salary determined by the legislature (or in the case of legislators, by the Constitution itself). Unclassified positions are those established by law and governed by the unclassified pay plan, and include generally the employees of elected officials, courts, boards and commissions, and various positions of a policy-making character. Classified positions are those covered by the merit system with salaries governed by the classified pay plan. Nonclassified positions are those administrative staff and faculty positions working under contract terms for the Board of Governors for Higher Education, the Board of Regents for Elementary and Secondary Education, and certain employees of the Rhode Island Public Telecommunications Authority. Within the above classes of employment there are also limited period positions which are established to meet emergencies, seasonal requirements or unusually heavy work loads during the year of which are limited to the time period established in specific federal grants.

## Cost Allocation Adjustments

Funding for cost allocated positions are now appropriated and displayed in the expending agency/program to record the true costs with its associated expenditures program.

## Distribution by Source of Funds

The Personnel Supplement depicts the distribution of each agency and program's personnel costs and FTE's by source of funds. Theses funds are: General Revenue (state tax and departmental receipts credited for discretionary appropriation), Federal Funds (categorical and block grants from the federal government), Restricted Receipts (receipts to be collected and expended for purposes confined to those specified in the R.I. General Laws), Other Funds (funds not included in the previous three categories, including university and college tuition fees, the dedicated gas tax, and R.I. Capital Plan funds), and Internal Service Funds (programs providing certain state
services that are provided centrally, which are shown for display purposes in the supplement since the costs are reflected in the budgets of the user agencies). A separate subcategory, Garvee/Motor Fuel Bond Funds, is also presented. These are positions involved in the accelerated highway construction program that are financed by funds borrowed against future pledges of Federal highway funds and two cents of the gasoline tax. The Personnel Supplement depicts personnel expenditures in all these fund sources, with the exception of the State Assessed Fringe Benefit Fund (see statewide benefit assessment entry below).

## Educational Incentives

Upon successful completion of a four-course curriculum incentive in-service training program approved by the personnel administrator, a state employee shall be granted a one-step pay increment next above the current base step (or if the employee is at the maximum of the grade the employee shall receive a pay increment equal in amount to the last step in the pay grade), the increment to be retained, separate and apart from any salary or longevity increase that the employee may at that time or thereafter receive (RIGL 36-4-14). The incentive program was amended in FY 2001. The above applies only to employees hired before July 1, 2001. Employees are limited to a single four-course incentive. Employees hired after July 1, 2001 are eligible for plan or plans provided for in the Personnel Rules.

## Full-Time Equivalent (FTE) Positions

This presentation is made on the basis of full-time equivalent positions (FTE). As specified in the FY 1998 Appropriation Act, positions whose employment does not exceed twenty-six consecutive weeks, or whose scheduled hours do not exceed nine hundred twenty-five hours in a one-year period, are not included as FTE positions. For all included positions with assigned hours, the FTE count of a position or positions is based upon the ratio of part-time to full-time hours for that class of position ( 35 or 40 hours); for limited period positions, it is the fraction equaling the number of planned pay periods divided by 26. The Appropriation Act for the current year establishes an FTE cap for each department and agency. The cap is not defined by program or funding source, but on a department-wide basis. Adjustments to the FTE cap can be made at the recommendation of the State Budget Office by agreement of the Governor, the Speaker of the House, and the Senate majority Leader. The Personnel Supplement depicts the current year and budget year request, including any requested increases or decreases. Certain positions that perform federal funded sponsored research in Public Higher Education are shown separately.

## Internal Service Funds

This fund category represents services provided by a designated agency to other departments and agencies under a vendor-buyer relationship. The cost of the service is a general fund appropriation to the buying agency in specific non-personnel codes, with the vendor agency itemizing the operational costs within the internal service fund.

## Longevities

Most classified and unclassified employees are granted longevity increases according to the following formula:

## Years of Service

5
11
15
20
25

Percentage Increase
on Base Rate
5\%
10\%
15\%
17.5\%

20\%

Nonclassified employees of the Board of Governors for Higher Education, Board of Regents for Elementary and Secondary Education, and the Rhode Island Public Telecommunications Authority are entitled to a longevity payments (RIGL 16-59-7.2, 16-60-7.2, 16-61-8.1, respectively) in the amount of five percent (5\%) of base salary after ten (10) years of service and increasing to a total of ten percent ( $10 \%$ ) of base salary after twenty (20) years of service. The longevity payments apply only to employees under the grade of nineteen (19).
Employees of the National Association of Government Employees (N.A.G.E) are entitled to a longevity payment in the amount of five percent ( $5 \%$ ) of base salary after fifteen (15) years of service, seven and one-half percent ( $7.5 \%$ ) of base salary after twenty (20) years of service and ten percent ( $10 \%$ ) of base salary after twenty-five (25) years of service.

## Pay Schedules

Listed with each classified and unclassified position in the supplement is a pay grade. The specific current base pay range for the grade can be found in the Appendix, under the classified or unclassified section. Letter designation to the right of the grade indicates the following:

A, B, C - (or no letter code) - a graduated annual salary
D - a per diem or per meeting pay
E - a per diem or per meeting pay
F - a flat annual pay
G - a graduated hourly wage
H - a flat hourly wage
J - Lottery Commission pay schedules
K - a flat annual pay
W - a per week pay

-     - no amounts scheduled currently

Letter designation to the left of the grade indicates the pay schedule for those positions in the Council 94 and Rhode Island Probation and Parole unions that were recently granted parity.

For example, the pay schedule for a senior clerk typist position is listed as 309A, classified, will be found in the table under the classified section next to grade 309 .

Non-classified positions listed in the supplement include the pay range (in thousands) or flat pay currently scheduled for the position.

## Payroll Accrual

Annually, at the end of the fiscal year, the State Controller's Office charges accrued payroll costs to all accounts that normally have payroll charges. The purpose of this accrual is to comply with basic principles of accounting by recognizing expenditures in the period incurred. Since the first pay period of each fiscal year does not always begin on July 1, some days of this pay period are worked in the old fiscal year, and some in the new fiscal year. In most years, in order to account for the additional cost associated with one net additional day each fiscal year, the state budgets a payroll accrual amount. The agencies budget 0.4 percent of certain payroll codes (direct salaries, overtime, Retirement, FICA) for payroll accrual, the equivalent of one-tenth of one pay period.

## Personnel Supplement

Section 35-3-7(a) of the Rhode Island General Laws require the Governor to submit "a personnel supplement detailing the number and titles of positions of each agency and the estimates of personnel costs for the next fiscal year." The supplement lists by Department/Agency and by program the FTE positions by job title, the number of FTE's for each title, and the total salary cost for each title. Sums are provided for Salaries, Salaries and Benefits, Payroll Costs (which includes the Statewide Benefit Assessment, Worker's Compensation, and Temporary and Seasonal employment), Total Personnel (which includes Purchased Services) and Distribution by Source of Funds.

## Purchased Services

In addition to payroll items, purchased services are also listed in this document. Purchased services are defined as contracts with private firms or individuals for personal services that would otherwise be performed by state employees.

## Salaries and Wages

The current year (FY 2008) and budget year (FY 2009) salary cost includes current educational incentives and prospective step and longevity increases. Also included are negotiated and estimated salary adjustments, retroactive payments, caseload settlements, and contract stipends under the various union contracts. Salaries also include overtime payments. Other salary categories depicted separately are holiday pay (included in salaries and benefits), uncompensated leave says (salary only) and temporary and seasonal wages (included in payroll costs).

## Statewide Benefit Assessment

A biweekly assessment is applied to the amount of salaries and wages paid from all accounts and funds, effective August 1999 (Office of Management and Budget Circular A-87). This assessment is to pay for the following employee fringe benefits: services provided by the Donley Center; services of the Workers' Compensation Court; and the Division of Workers' Compensation administrative costs related to workers' compensation activities. The assessment was applied to: the above employee benefits; payments to Workers' Compensation providers; Workers' Compensation benefit payments to employees; the cost of operating the internal service fund; Unemployment Compensation payments; the Employee Assistance program; and payments to employees for unused leave upon their termination from state service.

The biweekly assessment is deposited into a separate fund, entitled the Assessed Fringe Benefits Administrative Fund. It is estimated that the biweekly assessment will be 3.8 percent of salaries and wages in FY 2008 and FY 2009, except for Military Staff, State Police troopers, Marshalls, Sheriffs, Capitol Police, and Lottery employees, whose assessment is 2.1 percent. The amounts budgeted in FY 2009 in the internal service fund, which are funded by the amounts to be charged to the agencies, are as follows: Workers' Compensation ( $\$ 15.973$ million), Employee Assistance ( $\$ 175,000$ ), Unemployment $(\$ 846,061)$, and unused leave ( $\$ 8.176$ million). The total displayed in the Personnel Supplement is $\$ 25.172$ million.

## Turnover

This is the value of expected vacancies (salary only) budgeted for the current and budget years. There are two kinds of turnover expectancy. The first is normal savings which occur from employees leaving state service and new employees being hired, usually after a modest delay and at a lower cost than the departing employee. The second is managed turnover where the department or agency, by design, leaves positions vacant in order to achieve a certain level of savings.

## Severance/Unemployment Compensation

Severance costs (including both unemployment compensation and medical benefits) are depicted separately as a personnel cost in the individual agency programs only when they reflect estimated severance costs due to particular program reductions (such as privatization of certain government functions) in FY 2009. The cost of other position layoffs is reflected in the statewide benefit assessment.

## Workers' Compensation Costs

With the exception of the some costs in the Departments of Corrections, Administration, and Children, Youth, and Families (for assault cases), Workers' Compensation benefit costs are not depicted separately as a personnel cost in the individual agency programs. They are now reflected in the statewide benefit assessment.

[^0]:    *A total of 785.0 FTE positions in Higher Education in FY 2008 and FY 2009 represent FTE's supported by sponsored resear, funds. Commencing in FY2005, these positions were included in the overall FTE Cap. In addition, there are separate caps for each program and for sponsored/non-sponsored research FTE's.
