Introduction

Overview
Rhode Island Capital Plan

RHODE ISLAND CAPITAL PLAN OVERVIEW

Introduction

Governor McKee’s FY 2025 – FY 2029 Capital Improvement Program and FY 2025 Capital Budget sustain capital investments initiated in recent years as well as make targeted new investments in areas of critical need. Governor McKee has overseen an unprecedented infusion of funds into capital projects since taking office. Since FY 2021 there has been \$940.4 million of general revenue surplus funds transferred into the Rhode Island Capital Plan Fund (RICAP) in excess of the statutory funding level. These infusions have enabled projects such as State House Renovations, Pastore Campus Infrastructure, various projects at the State’s institutions of higher education, and transportation infrastructure. A notable feature of the FY 2025 Capital Budget is that it includes the Governor’s request to authorize \$345.0 million in general obligation borrowing to address priorities such as housing, higher education, a state archives facility, and green economy investments. The capital plan includes \$9.162 billion from all sources of funding for projects across the State, including \$1.564 billion in Rhode Island Capital Plan funding.¹

Overview

HEALTH AND HUMAN SERVICES

The Governor recommends investments in the following areas for health and human services facilities:

- **Eleanor Slater Hospital Facilities:** The Governor recommends \$107.1 million in continued RICAP funding for the construction of a new Long-term Acute Care Hospital facility located on the Zambarano Campus in Burrillville. Additionally, the Capital Improvement Plan includes \$44.0 million in total funding, including both RICAP and previously issued bond proceeds, for the renovation of hospital facilities on the Pastore Campus in Cranston.
- **Group Homes:** The Governor recommends \$29.9 million in RICAP funds to keep group homes in safe and operating condition. In addition to increases in asset protection, the Governor recommends \$10.0 million for a program to replace failing group homes by acquisition or construction of new homes.
- **Continued IT Systems Investments:** Notable IT projects serving the health and human services functions include: \$55.0 million for the RI Comprehensive Child Welfare Information System (CCWIS), \$22.4 million for the Electronic Medical Records System at Eleanor Slater Hospital, and \$7.5 million for the Gateway to Government initiative.

GENERAL GOVERNMENT

The five-year capital plan for General Government includes funding for State-owned asset protection and infrastructure improvements, and Quonset Point improvements, including:

- **Pastore Campus:** The Governor recommends continued funding of \$123.0 million in RICAP funds to replace the failing water, heating, and electrical infrastructure at the Pastore Center in Cranston. These systems support the 35 buildings on the campus and were not designed to support today’s operations. The State will obtain cost savings, reduce emergency repairs and expenses, improve system safety, and increase reliability with this approach.
- **State House Renovation:** The Governor recommends continued funding of \$77.8 million in RICAP funds in FY 2025 – FY 2029 in RICAP for the rehabilitation of the building envelope and mechanical systems of the Rhode Island State House. In FY 2024, the Independent Man was removed from atop

¹ Unless otherwise noted, all figures are for the five fiscal years from 2025 through 2029.

RHODE ISLAND CAPITAL PLAN OVERVIEW

the State House dome for restoration. Governor McKee unveiled the Independent Man statute on display in the State House following its temporary removal from the dome for the first time in nearly 50 years and for only the second time in the state's history.

- **Enterprise Resource Planning IT System:** The Governor recommends a total of \$62.0 million in funding primarily from the Large Systems Initiatives Fund. The FY 2025 operating and capital budgets also anticipate the allocation of ongoing maintenance and operation costs via internal service funds charges as system components are placed in service.

NATURAL RESOURCES

The Governor's budget recommends funding for natural resource projects, directed to strengthen the state's water infrastructure, green economy, and recreational and outdoor resources.

- **Port of Galilee:** The Governor recommends \$55.7 million from RICAP in FY 2025 – FY 2029 to finance continued capital improvements to the Port of Galilee, one of the largest commercial fishing ports on the Atlantic Coast. In addition to routine asset protection and capital repairs, this project will rehabilitate and reconstruct several portions of the northern bulkhead at the Port of Galilee. This project will support the repair and/or replacement of numerous structural elements of this section, including electrical rehabilitation, dock work, steel repair, and repair of the landside ground that has been compromised by bulkhead failures.

EDUCATION

Governor McKee's FY 2025 – FY 2029 Capital Improvement Program makes large investments in existing state assets geared towards education facilities. The Governor recommends:

- **Davies Career and Technical School Wing Renovation:** The Governor recommends \$35.0 million for the wing renovation at the Davies Career and Technical School.
- **Institutions of Higher Education:** The Governor recommends total RICAP support over the five-year Capital Improvement Program for University of Rhode Island, Rhode Island College, and Community College of Rhode Island of \$389.3 million.

PUBLIC SAFETY

The Governor's capital budget includes funding for public safety-related projects, including:

- **Southern Barracks:** The Governor recommends total RICAP support of \$38.2 million in FY 2024 – FY 2026 to continue financing the construction of a new barracks in the southern part of the State. A new Southern Barracks will allow the Department to close the Wickford and Hope Valley barracks, consolidating three patrol areas to one southern location, creating a safe and efficient working environment for State Police personnel and citizens that pass through these facilities daily.
- **Correctional Facilities:** The Governor recommends total RICAP funding of \$79.1 million in FY 2024 – FY 2029, increasing the level of support for the construction of a Behavioral Management Unit (BMU) facility, continued asset protection, and HVAC replacement and renovations at the Intake Service Center (ISC) at the Department of Corrections.

TRANSPORTATION

The budget recommends significant funding for transportation projects. About \$3.739 billion is drawn from

RHODE ISLAND CAPITAL PLAN OVERVIEW

four primary sources: RICAP, Federal Highway Administration, various transportation bond proceeds, and licenses and fees finance the Department of Transportation’s Highway Improvement Plan (HIP).

- **State Match for Transportation Infrastructure:** The Governor prioritizes satisfying state match needs for transportation infrastructure financing by including \$393.3 million in RICAP support over the five-year Capital Improvement Program.

GENERAL OBLIGATION BOND REFERENDUM

General Obligation borrowing incurs a full faith and credit pledge of the State of Rhode Island and requires approval of both the General Assembly and a majority of the voters of the State. Such ballot questions are typically presented to voters in general elections every other year. In the FY 2025 Capital Budget Submission, the Governor requests consideration of the following new borrowing, totaling \$345.0 million, to appear before voters in November 2024.

Governor’s Recommended November 2024 General Obligation Bond Referendum
(\$ in millions)

- **Higher Education**
 - **University of Rhode Island Biomedical Sciences Building:** \$80.0 million for the construction of a biomedical sciences building to accelerate the education, research, and workforce development of life sciences for the state.
 - **Rhode Island College Cybersecurity Building:** \$55.0 million to fund the renovation of Whipple Hall and other improvements to support the Institute for Cybersecurity & Emerging Technologies.
- **State Archives and History Center:** \$60.0 million for the construction of a new Rhode Island State Archive and History Center.
- **Housing and Community Opportunity:** \$100.0 million to increase housing production, support community revitalization, and expand the availability of affordable and middle-income housing.

RHODE ISLAND CAPITAL PLAN OVERVIEW

- **Green Economy**

- **Port of Davisville Infrastructure at Quonset:** \$20.0 million for infrastructure projects that will support the continued growth and modernization at the Port of Davisville, accommodating offshore wind expansion and other existing businesses.
- **Climate Resiliency and Public Access Projects:** \$2.0 million for matching grants to public and nonprofit entities for restoring and/or improving resiliency of vulnerable coastal habitats and restoring rivers and stream floodplains.
- **Brownfields Remediation:** \$5.0 million for matching grants to public, private, and/or nonprofit entities for brownfield remediation projects.
- **Local Recreation Grants:** \$5.0 million for matching grants for municipalities to acquire, develop, or rehabilitate local recreational facilities to meet the growing needs for active outdoor recreational facilities.
- **Municipal Resiliency:** \$10.0 million for matching grants to municipalities for restoring and/or improving the resiliency of infrastructure and vulnerable coastal habitats, and restoring rivers and stream floodplains.
- **Newport Cliff Walk:** \$8.0 million for restoring and/or improving the resiliency of infrastructure of the public access walkway known as the Newport Cliff Walk located in Newport, Rhode Island.

Rhode Island Capital Plan

The Rhode Island Capital Plan Fund (RICAP) is the State’s primary source of pay-as-you-go (PAYGO) capital funding. RICAP is financed with an annual statutory transfer of three percent of available general revenues. From time to time, the General Assembly has appropriated additional surplus funds to supplement the statutory transfer.

Values in Millions of Dollars

RHODE ISLAND CAPITAL PLAN OVERVIEW

Five-Year Capital Improvement Program Overview

The five-year Capital Improvement Program presented in this volume contains requested funding levels by agency and by project for the time period of FY 2025 through FY 2029. Capital projects include the proposed acquisition, construction, or improvement of a capital asset. A capital project can be the construction of any new physical facility, structure, building, public improvement, or public purpose project, or the addition or major renovation to an existing structure with a life expectancy of 10 years or longer, for which the estimated cost including land, planning, design, construction, furnishings, and equipment exceeds \$100,000. Asset Protection projects involve major or minor renovations or improvements to existing facilities that will extend the useful life to the asset by at least five years, generally at a total cost in excess of \$50,000.

IT investments as well as the purchase and/or installation of durable equipment may be included in various circumstances: when they are incidental to the completion of a larger project (e.g. the furniture, fixtures, and equipment necessary for the commissioning of a newly constructed facility), when they make use of capital-specific funding sources (e.g. Large Systems Initiative Fund), or when the Budget Office deems that they are of a sufficient scale, complexity, and multi-year timeline to warrant tracking in the five-year capital plan.

While a variety of funding sources may be used for capital projects, the Budget Office accounts for all uses of the following capital-specific funding sources in the Capital Improvement Program: general obligation bonds, other borrowing, Rhode Island Capital Plan (RICAP) funds, Large Systems Initiative Fund (LSIF), capital-specific federal awards (e.g., American Rescue Plan Act Capital Projects Fund), federal transportation infrastructure funds, and the State Fleet Revolving Loan Fund.

Department of Administration

The Department of Administration manages capital projects coordinated by the Division of Capital Asset Management and Maintenance, the Division of Information Technology, the Water Resources Board, and through agreement with the Rhode Island Convention Center Authority.

Division of Enterprise Technology Strategy and Service (ETSS) The Division of Enterprise Technology Strategy and Service (ETSS) is comprised of the Office of Information Technology, Telecommunication, Mailroom and the Office of Library Services. The Office of Information Technology, under the ETSS manages the secure implementation of all new and mission-critical technology projects and upgrades for state agencies. The Office of Information Technology shall manage and support all day-to-day operations of the State's technology infrastructure and associated applications as well as the implementation of all new and mission critical technology infrastructure projects and upgrades for state agencies. ETSS oversees the Information Technology Investment Fund to determine the eligibility of expenditures from the fund. This includes hardware and software purchases and/or development, information technology consulting services, and ongoing maintenance contracts.

Division of Capital Asset Management and Maintenance (DCAMM) – This division is responsible for coordinated facilities management for state departments and agencies, including, but not limited to: operation, maintenance and repair of buildings, grounds, central HVAC, power plants and other facilities. In addition, the Division is responsible for planning, designing and constructing new state facilities and major renovations to existing buildings. Some of the facilities that DCAMM oversees include the State House, the William Powers Building

(Department of Administration), the Cannon Building (Department of Health), the State Office Building (Department of Transportation), and various other structures. This program also has responsibility for most of the facilities at the Pastore Government Center in Cranston and Zambarano Campus in Burrillville.

Water Resources Board – The Rhode Island Water Resources Board was established by R. I. General Laws § 46-15 and their capital projects are now organized under the Department of Administration. The Water Resources Board supports the proper development, protection, conservation, and use of the State's water resources while providing for economic development and protection for the environment. Rhode Island Convention Center Authority – The Rhode Island Convention Center Authority manages three Rhode Island Capital Fund projects in agreement with the Department of Administration. These projects are budgeted for under the Department of Administration. The projects include upgrades to the Convention Center, Amica Mutual Pavilion, and Veterans' Memorial Auditorium, all of which are located in Providence.

Accessibility

The Governor recommends financing \$1.3 million in FY 2024 – FY 2025 from the RI Capital Plan Fund for ADA and accessibility renovations at State of Rhode Island buildings. The FY 2024 - FY 2025 Capital Plan phases in a change in budget presentation which is being made to streamline project administration. Existing projects will continue to be budgeted within the Accessibility project until completed. Going forward, state agencies, in collaboration with the Governor's Commission on Disabilities, will be required to account for ADA-related aspects of projects in individual project requests.

Cranston Street Armory

The Governor recommends financing \$7.4 million in FY 2024 - FY 2029 from the RI Capital Plan Fund for the ongoing rehabilitation of the Cranston Street Armory. Military Staff vacated the early-1900s era building in 1996 and transferred ownership to the Department of Administration. Planned funding will allow asset protection work to continue while the Department of Administration refines ongoing plans for adaptive reuse of this facility.

Energy Efficiency

The Governor recommends total expenditures of \$13.3 million in FY 2024 – FY 2029 from the RI Capital Plan Fund (\$7.3 million) and Regional Greenhouse Gas Initiative funding (\$6.0 million) to support the implementation of comprehensive, cost-effective energy efficiency measures and renewable energy installations at state-owned properties. This initiative will reduce state facility operating and ongoing maintenance costs, reduce energy costs across state government, and shrink state government’s footprint by reducing overall energy demand and adopting renewable energy resources.

Project Spending by Year and Financing Source Energy Efficiency

Enterprise Resource Planning System

The Governor recommends total funding of \$62.0 million over FY 2024 to FY 2029 for the configuration and implementation of an Enterprise Resource Planning system that would support statewide payroll, HR management, and financial management functions. For transparency, both capital and operating expenses related to this project are presented. The Information Technology Investment Fund will provide all of the financing for this project, including capital expenditures. Beginning in FY 2026, the operating costs will shift to the Information Technology Internal Service Fund (IT ISF). As modules are fully implemented and put to use in agencies, the IT ISF will bill for ongoing license and maintenance costs.

Group Homes Consolidation

The Governor recommends financing \$22.9 million in FY 2025 - FY 2029 from the RI Capital Plan Fund be allocated to maintain and repair state-owned group homes and related facilities. This project represents the consolidation of all other BHDDH group home asset protection projects including Developmental Disability Regional Centers, Group Homes - Asset Protection, Group Homes - Fire Code, Mental Health Community Facilities Asset Protection, and Substance Abuse Group Homes Asset Protection. The funds may be used to maintain the physical structure, make emergency repairs, upgrade roofs, HVAC systems, emergency generators, individual sewage disposal systems, water wells, flooring, windows, siding, and fire alarm and sprinkler systems, complete kitchen and bathroom renovations, and to remodel for ADA compliance.

State House Renovations

The Governor recommends financing \$77.8 million in FY 2024 - FY 2029 from the RI Capital Plan Fund for the rehabilitation of the building envelope and mechanical systems of the Rhode Island State House. The plan includes HVAC system replacement and improvements to the Speaker of the House wing, Senate President wing, and the Joint Committee on Legislative Services space. Additional projects include improvements to grounds and walkways, replacement of the Kemper roof, and asset protection projects. In the November 2020 general election, Rhode Island voters approved a referendum to remove the words “and Providence Plantations” from the state name. The recommended Fiscal Year 2024 budget includes \$2.5 million to determine how to address occurrences of “and Providence Plantations” in the interior of the State House and fund their associated costs.

In FY 2024, the Independent Man was removed from the top of the State House dome for restoration purposes. In a historic ceremony, Governor McKee unveiled the Independent Man statute on display in the State House following its temporary removal from the dome for the first time in nearly 50 years and for only the second time in the state’s history. The statue is being temporarily moved to undergo much-needed repair and restoration. While documenting the State House cleaning and restoration project initiated by Governor McKee – a state employee captured drone footage that showed the marble base supporting the Independent Man was beginning to separate. Additionally, the crane will now be used to remove the four damaged marble pieces that form the base upon which the Independent Man is mounted. Once those pieces are removed, workers will cover the top of the State House cupola temporarily with a steel plate. A new marble base will be crafted before the statue is remounted.

Department of Business Regulation

The primary function of the Department of Business Regulation is to implement state laws mandating the regulation and licensing of designated businesses, professions, occupations and other specified activities. The Department is comprised of seven divisions and Central Management, which includes the budget, regulatory standards, compliance and enforcement. The Department also houses other commissions including the Real Estate Commission, Real Estate Appraisal Board, Rhode Island Board of Accountancy, the Certified Constables' Board, and the Racing and Athletics Hearing Board. The Office of the Fire Marshal oversees the Fire Training Academy. The Office of the Fire Marshal was moved to the Department in FY 2019.

ProvPort

The Governor recommends \$10.0 million in FY 2024 - FY 2026 from the 2016 general obligation bond authorization to increase terminal capacity at the Port of Providence, specifically by financing the acquisition of up to 25 acres of land located between Allens Avenue in the City of Providence and the Providence River. This complements the \$10.0 million of proceeds under P.L. 2016, Ch 142 prior to FY 2024. Once acquired and improved, the State of Rhode Island anticipates leasing the land to ProvPort, the City of Providence’s current port operator. ProvPort, in turn, will enter subleases with one or more private terminal operators. Those entities will make private investments in their terminal operations as well as pay fees to ProvPort for the land they lease. The State will share in the gross revenues, including sublease payments, generated from the expanded port area. The State will also realize additional income taxes from expanded employment.

Statewide Industrial Site Development

In March 2021, voters approved \$40.0 million of general obligation bonds to finance industrial site development. The Governor recommends \$2.5 million in FY 2024, \$10.0 million in FY 2025, \$10.0 million in FY 2026, \$6.9 million in FY 2027, and \$6.0 million in FY 2028. Funds will be allocated competitively for the purpose of preparing sites for the development of facilities related to manufacturing, assembly, distribution, and other job-producing commercial activities.

Department of Housing

The Department of Housing was established as a separate department within the Executive Branch effective January 1, 2023, by the General Assembly during the legislative session in 2022. The Department of Housing will allow the State of Rhode Island to better address the housing challenges facing Rhode Islanders with available state and federal resources.

The law creating the Department of Housing elevated the position of Deputy Secretary of Housing to Secretary of Housing, who is provided direct oversight over the Office of Housing and Community Development and is tasked with coordinating with all agencies directly related to housing initiatives, including the Rhode Island Housing and Mortgage Finance Corporation, Coastal Resources Management Council, Department of Environmental Management, Department of Business Regulation, Department of Transportation, and Housing Resources Commission.

Affordable Housing

The Governor recommends \$41.4 million in FY 2024, \$12.0 million in FY 2025 and \$4.0 million in FY 2026 in general obligation bonds to finance continued investment in affordable housing. The Governor also recommends \$100.0 million of general obligation bonds be placed on the November 2024 ballot for voter approval for the continuation of financing of affordable housing programs. The new resources will build upon \$10 million in proceeds from the 2016 authorization of general obligations bonds to be spent in FY 2024 for community revitalization projects. This is in addition to \$39.1 million of issued bond proceeds that have been spent prior to FY 2024, authorized in 2016. These investments support affordable housing opportunity programs through the redevelopment of existing structures and new construction.

Public Utilities Commission

Comprised of two distinct regulatory bodies, the Division of Public Utilities and Carriers and the Public Utilities Commission, the Public Utilities Commission serves as a quasi-judicial tribunal with jurisdiction, powers, and duties to implement and enforce the standards of conduct for all public utilities and common carriers of property and persons. Both divisions also hold hearings and investigations involving rates, tariffs, tolls, and charges.

Additionally, while the Commission exercises jurisdiction over the sites of potential energy facilities, the Division of Public Utilities and Carriers supervises and regulates Community Antenna Television Systems (CATV), transactions between public utilities and affiliates, as well as public utility debt and equity issuances.

Department of Children, Youth, and Families

The Department of Children, Youth and Families provides services to children and youth, both directly and in partnership with private sector agencies. A number of state and privately-owned facilities are used to provide these services. The Department is responsible for facilities at the Rhode Island Training School for Youth at the Pastore Center, the Groden School on Cowesett and Mt. Hope Avenues, and the building occupied by the North American Family Institute.

In the past, the Department’s Capital Improvement Plan has primarily focused on the construction and repair needs of the Rhode Island Training School for Youth. Projects at the Training School, many of which were mandated by court order, have included the renovation of the Youth Correctional Center, the construction of a new school building, and the installation of an air conditioning system and additional fencing. In FY 2009, the Thomas C. Slater Training School opened, and the old facility was vacated by the Department.

Comprehensive Child Welfare Information System

The Governor recommends a total of \$55.0 million to replace the Rhode Island Children's Information System (RICHIST) with a new comprehensive child welfare information system in FY 2024 - FY 2026. The existing RICHIST system is a 25-year-old client-server data system written in PowerBuilder, an obsolete system. The recommendation assumes about 50% of the financing will be available from federal resources, or \$28.4 million, approximately 6% of the financing, or \$3.4 million, will be financed from General Revenues, and about 42%, or \$23.2 million, will be financed by the Large Systems Initiatives Fund.

Psychiatric Residential Treatment Facility Modifications

The Governor recommends \$10.3 million in American Rescue Plan Act (ARPA) State Fiscal Recovery Funds from FY 2024 to FY 2025 to finance the renovation of a private facility that will increase capacity in the state for female residents in the Psychiatric Residential Treatment Facility (PRTF) program, which is operated in partnership with Saint Mary's Home for Children. PRTF capacity in the state has been a longstanding concern, and this project takes advantage of one-time federal funding from the American Rescue Plan Act State Fiscal Recovery Fund to address this need in the state. A total of \$11.0 million in ARPA funds were set aside for this purpose in the FY 2023 Enacted budget, and the timeline for this project will have that full allotment spent by the federally imposed ARPA spending deadline of December 31, 2026.

Department of Health

The Department of Health (DOH) operates several facilities. The Cannon Building on Capitol Hill houses administrative functions. The Chapin Building houses the Laboratory at 50 Orms Street in Providence. In 2020, the State purchased a new facility for the Office of the Medical Examiner, located at 900 Highland Corporate Drive in Cumberland. This office had also been located at the Chapin Building. Of these properties, most are managed by the Division of Capital Asset Management and Maintenance (DCAMM) under the Department of Administration (DOA), though DOH has responsibility for specialized equipment and vehicles that support the programs. The mission of the Laboratory is to provide accurate, timely, and effective laboratory services for public health, environmental protection, and forensic science purposes. Key program functions include early detection and identification of infectious diseases, identification and measurement of environmental contaminants, and the characterization of evidence collected at crime scenes. Services are provided to state municipal agencies, health care providers, and individuals in support of public health and safety goals.

Department of Health Laboratory Building

The Governor recommends \$93.5 million in financing in FY 2024 - FY 2026 to construct a new state health laboratory building. This project will provide the State with the ability to expand existing programs and the additional space required for biocontainment, office space separate from the laboratory testing areas, and consolidated central shipping and receipt facilities. Project costs have increased primarily due to electrical system, HVAC, and plumbing costs. Substantial completion of the construction and occupancy of the new lab is estimated for early FY26. The Governor recommends \$77.5 million in financing from federal funds awarded by the Centers for Disease Control (CDC), \$11.6 million from the RI Capital Plan Fund, and \$4.4 million from RI Department of Health indirect funds to finance this project.

Department of Human Services

The Department of Human Services continually rehabilitates fixed assets essential to providing basic and specialized services to needy individuals and families. The current Capital Improvement Plan focuses primarily on infrastructural improvements at the facilities operated by the Division of Veterans' Affairs. These include the Veterans' Home in Bristol and the Veterans' Memorial Cemetery in Exeter. Most of these projects are financed via the Veterans' Home restricted receipt account, established pursuant to R.I. General Law § 35-24-10.

Blind Vending Facilities

The Governor recommends financing of \$1.1 million from the RI Capital Plan Fund in FY 2024 - FY 2029 for the Business Enterprises Program of the Office of Rehabilitation Services. The program operates fifteen Blind Vending Facilities, which are managed exclusively by legally blind individuals. The facilities are located within state-, locally-, or federally-owned or occupied properties, and significant convenience to both governmental employees and the public-at-large. They also provide a source of meaningful employment to the client-entrepreneurs.

Early Childhood Care and Education Capital Fund

The Governor recommends \$7.3 million from the general obligation bonds approved by voters in March 2021, in FY 2024 to finance the Early Childhood Care and Education Capital Fund. The Fund enables physical improvements to and development of licensed early childhood care and education facilities. Quality early childhood education and childcare is necessary for a robust economy in support of parents in the workplace and as foundation to the academic success of Rhode Island’s children. In 2019, only 20% of the physical space licensed for the State’s four-year-old population meets the State definition of quality, and there are eighteen cities and towns that do not have any quality infant/toddler care options. These funds will support greater access to safe, high-quality early learning opportunities for Rhode Island children.

Veterans' Home New Construction

The Governor recommends \$1.8 million in financing from FY 2024 - FY 2028 for the completion of new construction at the Veterans' Home. This includes \$4.8 million to finance final new construction projects, including upgrades to the security system, kitchens, rooftop cooling and heating units and additional parking, which will bring the home into compliance with federal safety codes and health regulations. The manual heating and cooling units at the Vets' home are not suited to the New England climate, and in the first year of occupancy, a coil in the system snapped. Since then, the cooling coils have been manually emptied every winter and refilled every spring. The fresh air intake system of the units is also incompatible with snow, which led to several shutdowns in the winter of 2021. If this unfit system is left alone, it is likely to lead to costly repairs in the future due to internal water damage accumulating in the units. Additionally, this project will add a secured entrance with a guard to the building, add refrigerators in neighborhoods to the generator to avoid wasting perishables, and expand parking availability. This project is to be funded with \$1.4 million from FY 2024 - FY 2026 from 2012 general obligation bond proceeds and \$0.3 million from the State Fleet Replacement Fund in FY 2024.

Davies Career and Tech. School Asset Protection

The Governor recommends \$3.5 million in financing from the RI Capital Plan Fund in FY 2024-FY 2029 for continuation of asset protection at Davies Career and Technical School. This project represents a continuation of financing from 2008 onwards. The current asset protection recommendation includes financing for HVAC system upgrades, new doors and windows, and improved designs that account for lighting, energy efficiency and improved air quality throughout the school.

Davies Career and Tech. School Wing Renovation

The Governor recommends \$35.0 million financing from the RI Capital Plan Fund in FY 2024 -FY 2026 for the Davies school renovation. The new construction will replace a 1970s building, which a RIDE School Building Authority (SBA) facilities assessment from 2016 showed it would be more cost effective to replace rather than to renovate. Funding in the first year would be for procurement of design services and demolition of the existing structure, which would be built and furnished in the following two years. Cost estimates for this project are based on SBA current construction cost averages per square foot for similar school projects throughout the state.

Community College of Rhode Island

The Community College of Rhode Island is the state’s public comprehensive associate degree-granting institution. The Community College provides affordable access to higher education at locations throughout the state. The institution’s primary mission is to offer recent high school graduates and returning adults the opportunity to acquire the knowledge and skills necessary for intellectual, professional, and personal growth through an array of academic, career, and lifelong learning programs. CCRI meets the wide-ranging educational needs of its diverse student population, building on its rich tradition of excellence in teaching and its dedication to all students with the ability and motivation to succeed. CCRI sets high academic standards necessary for transfer and career success, champions diversity, responds to community needs, and contributes to the state’s economic development and workforce.

Historic Preservation Grants

The Governor recommends \$0.8 million in FY 2024 for the State Preservation Grants program. As part of the initiative to develop the creative cultural economy in Rhode Island, general obligation bonds of \$35.0 million were approved by voters in November 2014. Of the \$35.0 million, \$5.0 million capitalized the State Preservation Grants Program under HPHC. This program assists municipalities and non-profit organizations in renovating historic sites, museums, and cultural art centers in the State of Rhode Island. To date, this program has invested \$4.7 million of prior general obligation bond issuances, distributing funds through a competitive grant process. The matching grant program offers grants in two categories: small project grants which range from \$5,000 to \$30,000, and large project grants which award up to \$150,000. A further \$1.0 million in general obligation bonds were approved by voters in March 2021. This represents the final year of funding for this project as projects are due to be completed in FY 2024.

Renovation and Asset Protection

The Governor recommends \$7.0 million from the RI Capital Plan Fund for continued asset protection of the Attorney General office building located at 150 South Main Street in Providence in FY 2024 - FY 2029. The largest subproject is to replace the roof at the 150 South Main Street building. The roof was last replaced in 1997 and has reached the end of its useful life.

Department of Corrections

The Department of Corrections is responsible for the safe, secure, and humane control of offenders. The Department's facilities are located at the Pastore Center in Cranston and include administrative buildings (including Administration and Dix) and inmate institutions (High Security, Maximum Security, Moran Medium Security, Minimum Security, the Gloria McDonald Women's facility, and the Intake Services Center), collectively known as the Adult Correctional Institutions (ACI). All the facilities are maintained through the Department of Corrections' capital improvement program. Major capital projects include asset protection; expansion of existing facilities; the acquisition of new or replacement support systems, such as fencing, alarm systems, and security cameras; electrical and HVAC upgrades; roof and window replacements; interior and exterior renovations; and parking lot and road repairs.

Correctional Facilities-Renovations

The Governor recommends \$10.8 million in RI Capital Plan Funds from FY 2024 - FY 2026 for the construction of a Behavioral Management Unit (BMU) facility. The BMU would ensure a level of care for individuals with serious and persistent mental illness at a less restrictive level of housing than the existing Residential Treatment Unit (RTU). BMU residents would receive treatment for conditions that do not necessitate the extensive level of care of the RTU, and the proposed unit would house a greater number of inmates requiring treatment.

Judiciary

Rhode Island has a unified court system composed of six statewide courts. The Supreme Court is the court of review, the Superior Court is the general trial court, and the Family, District, Traffic Tribunal and Worker’s Compensation Courts are trial courts of special jurisdiction. The Traffic Tribunal was created in 1999 to replace the Administrative Adjudication Court.

The Rhode Island court system is state-operated, except for the probate courts, which are the responsibility of cities and towns, and the municipal courts, which are local courts of limited jurisdiction. The Chief Justice of the Supreme Court is the executive head of the Rhode Island court system. Each court has responsibility over its own operations and has a chief judge, who appoints an administrator to handle internal court management. The Chief Judge of the District Court serves as the Chief Judge of the Traffic Tribunal.

The Judicial Department has maintenance and repair responsibility for six court buildings located in various parts of Rhode Island. Prior to FY 2005, the Department of Administration had responsibility for the supervision and maintenance of all courthouse buildings. In FY 2005, the General Assembly transferred this responsibility to the Judiciary.

Department of Public Safety

The Department of Public Safety is responsible for providing the citizens of Rhode Island with an increased level of safety and security. In FY 2009, the State Police, E-911 Emergency Telephone System, Office of the State Fire Marshal, the Capitol Police, and the Municipal Police Training Academy were merged to create the Department of Public Safety. In FY 2012, the Sheriffs were integrated into the Department to consolidate all public safety personnel. In FY 2019, the Office of the State Fire Marshal transferred to the Department of Business Regulation.

DPS Asset Protection

The Governor recommends \$7.8 million from the RI Capital Plan Fund in FY 2024 - FY 2029 to finance the asset protection of 28 Public Safety buildings and seven broadcast radio towers located across the state. The asset protection financing is to be used for projects that maintain and extend the useful life of buildings under the control of the Department of Public Safety, including State Police Headquarters, E-911 Headquarters, and the Wickford and Hope Valley barracks, which specifically require significant repairs. Asset protection subprojects will include the towers at Dawley Park, Headquarters, Lincoln Barracks, and Portsmouth Barracks which must be maintained to industry standards. Furthermore, renovations are to be made to the historic Richard Rhodes Administrative building to bring the building into compliance with ADA. The renovations are to include the installation of new HVAC system, electrical, IT, and plumbing upgrades, exterior work on siding, trim and brick work upgrade security systems, repair, and replace windows, add fire suppression systems in all three garages which require fire code compliance remediation where equipment, evidence, and records are stored. Additionally, while the Southern Barracks is designed and constructed, asset protection funds will be allocated dispersed from FY 2024 to FY 2026 to address health and safety issues at the Wickford and Hope Valley barracks.

RISP RISCAN Microwave System Replacement

The Governor recommends \$735,144 in FY 2024 - FY 2026 from the RI Capital Plan Fund to finance an upgrade to the Rhode Island State Police (RISP) microwave loop network, a statewide 6 GHz digital network comprised of five microwave hops connecting key radio transmission sites and facilities throughout the State. This microwave loop network provides critical data links for the Rhode Island Statewide Communications Network (RISCAN) 800Mhz radio network. The RISCAN radio network, managed by the Rhode Island Emergency Management Agency (RIEMA), is the primary radio communications platform for over ten thousand first responders, the Rhode Island Department of Transportation (RIDOT), the Rhode Island Public Transit Authority (RIPTA), and numerous other state and local agencies that provide essential services throughout the state.

Training Academy Upgrades

The Governor recommends \$5.3 million from the RI Capital Plan Fund in FY 2024 - FY 2029 for upgrades to the State Police Training Academy. This financing will support a variety of projects at the Training Academy, including: environmental controls to extend the useful life of the Firearms Training Simulator delivered in 2022; environmental and safety renovations to the firing range, including construction of a new berm and lead projectile containment system; replacement of the security fencing around the property and installation of an electronic security gate; replacement of the main building's HVAC system, roof, windows, and electrical wiring system; renovation of classroom, bathrooms, and sleep bunks; installation of energy-efficient lighting and insulation; repaving of the roadways; and preparation of an Emergency Vehicle Operators Course feasibility study. The Training Academy was built in the 1950s as a US Air Force Nike missile base and requires significant renovations to continue to be usable for the State Police. The Governor's Recommended Budget includes additional asset protection funding for various improvements and capital maintenance throughout the facility but does not include funding to support the construction of a new fieldhouse.

Natural Resources

**Department of Environmental Management
Coastal Resources Management Council
Narragansett Bay Commission
Rhode Island Resource Recovery Corporation
Rhode Island Infrastructure Bank**

Department of Environmental Management

The Department of Environmental Management administers an extensive capital program to meet environmental and public safety requirements for state-owned facilities and management areas and for various municipal and non-profit beneficiaries. Major project categories are described below.

Narragansett Bay and Watershed Restoration Projects: Bond authorizations approved in November 2004 and 2012 provide matching grants for water quality protection efforts in Narragansett Bay, its tributaries and surrounding watershed. The program provides matching grants to governmental and nongovernmental agencies for projects that restore water quality, including non-point source pollution abatement and riparian restoration projects. The fund generally aids with projects that may not otherwise qualify for Rhode Island's other clean water financial assistance program. The Department has worked with municipalities and non-profits to complete over 30 projects across the State to improve water quality in Narragansett Bay and other watersheds.

Environmental Protection Programs: The department operates various programs for environmental protection and remediation. Activities including flood prevention, brownfields remediation, and storm water pollution prevention.

Open Space and Natural Land Protection: The department manages state acquisitions and grants to municipalities and non-profit agencies for the acquisition of title and development rights to critical natural resources. Open space is acquired to safeguard land from private development. Development rights purchases allow private ownership of land while protecting the existing level of use, generally as farmland or open space.

Municipal Recreation Projects: The department administers grant programs for municipal acquisition and development of recreational lands and facilities. Bond financing is provided on a 50 percent matching basis; distressed communities are eligible for 75 percent financing.

State Recreation and Infrastructure Facilities: The department operates natural management areas, commercial fishing piers, and recreational facilities, for which bond authorizations and the Rhode Island Capital Plan Fund provides financing for acquisition, development, and renovation. Additional funds from federal, restricted and private sources are also utilized. The department also undertakes restoration and repair of state-owned dams in need of structural improvements with Rhode Island Capital Plan Fund resources.

Department of Environmental Management

Brownfields Remediation

The Governor recommends financing \$7.1 million in FY 2024 - FY 2029 from the 2014, 2016, 2018, and 2022 general obligation bond authorizations for brownfield investigation and redevelopment projects across the state. The Governor also recommends placing \$5.0 million in general obligation bonds before voters on the November 2024 ballot for this project. Between 10,000 and 12,000 abandoned industrial sites lie idle in towns and cities across the state. These funds would provide matching grants to public, private, and/or nonprofit entities for the cleanup, reinvestment, and re-use of these sites to create and attract jobs, protect the urban environment, remove hazards, and reduce the cost of storm water flooding. The program funds will clean up blighted properties, create jobs, open valuable real estate, and promote public health. This grant program, which helps accelerate redevelopment and supports smart growth, provides critical resources to facilitate the return of these sites to productive use. Grants will provide for both site preparation and redevelopment projects and can be used to fill gaps that exist in supporting data and/or to develop and analyze potential remedial strategies necessary to clean up and develop the site.

Coastal Resiliency and Public Access Projects

The Governor recommends financing \$4.7 million in proceeds from general obligation bonds approved by the voters in 2018 from FY 2024 - FY 2026 and \$2.0 million in proceeds from a new 2024 ballot referendum from FY 2026 - FY 2027. This will finance efforts to reduce or eliminate flooding risk in coastal and inland areas and to promote green infrastructure and climate resilience. Work to be funded through this grant program, which provides up to 75% of project costs, would improve access and public safety in the face of increased flooding, major storm events and environmental degradation.

Project Spending by Year and Financing Source Coastal Resiliency and Public Access Projects

Funding Source Name (thousands of dollars)	Pre-FY 2024	FY 2024	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	Post- FY 2029	Total Capital

Dam Repair

The Governor recommends \$25.4 million from the RI Capital Plan Fund in FY 2024 - FY 2029 supplemented by \$0.1 million in federal funds in FY 2024 and FY 2025. The financing will be used for remediation of several significant and high hazard state-owned dams at various management and recreation areas. The dam repair is proposed over several years owing to time restrictions and seasonality which limit the ability of inspectors to determine what repairs are needed and for the assets to be physically repaired. After the repair of the high- and significant-hazard dams, funds will be shifted towards routine monitoring and dam maintenance. Rhode Island is statutorily mandated to maintain, repair, and rehabilitate state-owned dams. These repairs are necessary to prevent loss of life, economic loss, and damage to resource areas.

Project Spending by Year and Financing Source Dam Repair

Farmland Development Rights Acquisition

The Governor recommends \$1.1 million in general obligation bond proceeds authorized in 2012, 2014, and 2018 from FY 2025 - FY 2026 for continuation of the Farmland Development Rights Acquisition program. The objective of this program is to protect Rhode Island's farmland from development that would shift its use away from agriculture. It allows Rhode Island to acquire development rights for agricultural property and preserve that farmland as such. Project funds are used to purchase these rights. State ownership allows Rhode Island to resell the lands to potential farmers.

Local Land Acquisition Grants

The Governor recommends \$4.5 million in general obligation bond proceeds in FY 2024 - FY 2025 for continuation of the Local Land Acquisition Grants program. This program provides for localities, local land trusts, and nonprofits to acquire title, development rights, or conservation easements on open spaces and parklands.

Project Spending by Year and Financing Source Local Land Acquisition Grants

Local Recreation Development Grants

The Governor recommends \$14.8 million in general obligation bond proceeds in FY 2024 - FY 2029 for continuation of the Local Recreation Development Grants program, including \$5.0 million in proposed new bond proceeds to be placed before the voters on the November 2024 ballot. This program serves to support local efforts to develop, rehabilitate, and maintain universally accessible recreational facilities. The program provides matching funds to localities for the acquisition of land for recreational facilities and the development thereof. The grants provide up to 50% matching for the acquisition of land and up to 80% matching for development costs.

Marine Infrastructure/Pier Development

The Governor recommends \$6.5 million in FY 2024 - FY 2025 to create a new "Port Sakonnet" at the Chase Marina site in Tiverton. This includes \$1.3 million from the RI Capital Plan Fund and \$5.2 million in federal funding. This will provide economic infrastructure to commercial harvesters and shellfish farmers in the East Bay and support a partnership with the Roger Williams University aquaculture program.

Narragansett Bay and Watershed Restoration

The Governor recommends \$4.8 million in bond funding in FY 2024 - FY 2028 to finance water pollution abatement projects, including matching grants and incentive grants to state and local entities, non-profit organizations, and for-profit businesses for water quality restoration and protection projects. The bond funds may be used in conjunction with federal and local contributions. Examples of projects to be funded include point and non-point source pollution abatement, nutrient loading abatement, best management grants for farmers and businesses, and riparian buffer enhancements. The watershed approach to pollution identification and assessment, with the remediation responsibility assigned to the polluter wherever possible, is also part of the Department's community-based approach to improving the health of Narragansett Bay and its tributaries.

Port of Galilee

The Governor recommends \$55.7 million from the RI Capital Plan Fund in FY 2024 - FY 2029 to finance continued capital improvements to the Port of Galilee, one of the largest Atlantic coast commercial fishing ports in the country. In addition to routine asset protection and capital repairs, this project will rehabilitate and reconstruct several portions of the northern bulkhead at the Port of Galilee. This project will support the repair and/or replacement of numerous structural elements of this section, including electrical rehabilitation, dock work, steel repair, and repair of the landside ground that has been compromised by bulkhead failures.

Recreational Facility Improvements

The Governor recommends \$74.4 million in FY 2024 - FY 2029 to finance new facility development, major facility improvements, and feasibility studies for state parks and management areas. The Department maintains more than fifty buildings and over twenty-five miles of roadway in state parks and management areas across more than 8,200 acres of land. The Department prioritizes needs based on facility assessments, public safety, and user needs. Current projects include exterior preservation work at Colt State Park's historic stone dairy barn, safety improvements at Brenton Point, repairs to the Roger Wheeler State Beach bulkhead, and bathroom renovations. The Governor recommends \$22.1 million from the RI Capital Plan Fund, \$32.4 million from a 2020 general obligation bond authorization, and \$19.9 million in federal funds.

Stormwater Pollution Prevention

The Governor recommends financing \$1.4 million in FY 2024 - FY 2026 from the 2016 general obligation bond authorization to provide up to 75% matching grants for public, private and/or non-profit entities for projects that reduce stormwater pollution. Funds will be administered through the existing Narragansett Bay and Watershed Restoration Fund. Contaminants carried by stormwater result in waters unsafe for recreation, including beach closures, closed shellfish growing areas and other degraded conditions that impair the beneficial uses of our rivers, lakes, and coastal waters. Much of Rhode Island's existing developed landscape lacks proper stormwater controls. Techniques utilizing green infrastructure are now available to capture and reduce the stormwater pollution. Investment to integrate stormwater management techniques including installation of green infrastructure through retrofitting is necessary to restore most known degraded waters. The projects will yield long-term benefits in terms of supporting Rhode Island's water-based economy, including tourism, and strengthening the resiliency of stormwater infrastructure with respect to changing precipitation patterns and building public awareness and support for expanding local stormwater programs to continue needed restoration efforts.

Project Spending by Year and Financing Source Stormwater Pollution Prevention

Coastal Resources Management Council

The Rhode Island Coastal Resources Management Council is responsible for managing, preserving and restoring the coastal resources of Rhode Island through long-range planning that is embodied in the R.I. Coastal Resources Management Program, adopted in 1976, federally approved in 1978, and revised substantially in 1983 and 1996. The program defines the various types of shorelines and the activities and restrictions appropriate for each. For example, 70.0 percent of Rhode Island’s shoreline is designated as either conservation or low intensity use and is protected from commercial development through restrictions on the type of allowable water structures.

In addition to the permitting process and other regulatory activities, the Council acts as the lead agency for Rhode Island’s dealings with the U.S. Army Corps of Engineers. The latter has administered funds for various capital project activities, such as the dredging of the Providence shipping channel, habitat restoration and beach replenishment and restoration. The Agency also is the lead agency for certain projects funded by the Department of the Interior.

Confined Aquatic Dredged Material Disposal Cells

The Governor recommends \$109.0 million in FY 2026 as support for a new confined aquatic disposal cell (CAD cell) to store dredged contaminated sediment in depressions at the bottom of the bay. The Governor recommends \$20.6 million in financing from RI Capital Plan Funds as well as a \$20.0 million placeholder for Certificates of Participation. The CAD cell is required to contain material displaced during the Army Corps of Engineers' upcoming dredging of the Providence Harbor. The additional space in the CAD cell will generate revenue from the fees charged to other marinas and harbors to dispose their own material. The funding will be transferred to the Army Corps of Engineers, which will match state funding with \$68.4 million in federal funds and conduct the actual dredging work and creation of the CAD cells.

South Coast Restoration Project

The Governor recommends \$2.0 million from the RI Capital Plan Fund in FY 2027 to dredge Ninigret Breachway. Ninigret Pond is experiencing expected sedimentation into the pond, impacting recent restoration and resiliency efforts to protect the existing submerged aquatic habitat and marsh complexes. Without dredging, the sedimentation will continue to accumulate and the elevation project to provide resiliency to the wetland will be lost. Ninigret Pond is the first of the three salt ponds to be dredged, followed by securing the regulatory authorizations for Winnipaug and Quonochontaug Ponds. The Town of Charlestown has also contributed to a portion of the Ninigret Pond component of the project.

Narragansett Bay Commission

In 1991, legislation was enacted merging the Blackstone Valley District Commission (BVDC) into the Narragansett Bay Commission (NBC). The merger took effect in January 1992. As a result of the merger, NBC's service area was expanded to include the areas formerly served by the BVDC, including the cities of Pawtucket and Central Falls, and portions of the towns of Cumberland, Lincoln, Smithfield, and the City of East Providence.

The merger resulted in the consolidation of the two largest wastewater treatment facilities in Rhode Island. The Field's Point plant, which services NBC's original district, handles average dry weather flows of 50 million gallons per day (mgd) and the Bucklin Point facility, which services the area formally served by the BVDC, handles average dry weather flows of 23 mgd. Together, these two facilities serve 10 communities and 300,000 people or about one-third of Rhode Island's population. NBC owns, operates and maintains seven pump stations. Four of the seven are within the original NBC district, while three are within the former BVDC district. NBC is responsible for 86 of the 89 combined sewer overflows (CSOs) in Rhode Island (59 in the original NBC district and 27 in the old BVDC district), and over 89 miles of underground interceptors and 32 tide gates.

While BVDC ceased to exist as a legal entity in January 1992, the following discussion on each agency's bond authorization is provided to place the state's general obligation commitment to NBC and BVDC in a historical perspective. In November of 1980, the voters approved a bond issue of \$87.7 million to finance capital improvements to be undertaken by the Narragansett Bay Water Quality Management District Commission. In 1990, \$15.0 million of this authorization was reallocated by a referendum to the Blackstone Valley District (\$6.0 million) and the Pawtucket River District Commission (\$9.0 million). In November 1992, the voters approved a \$15.0 million bond referendum that restored to NBC the funds that had been reallocated to the Blackstone Valley District and the Pawtucket River District Commission. Although the \$93.7 million of bonds are general obligations of the State, user fees are required under the authorizing statute of the commission to support debt service costs for no more than \$14.1 million of such bonds and general operating expenses and other debt service requirements of the Commission.

While the size and timing of the 1980 bond authorization was based upon the anticipated termination of the federal Clean Water Act grant program, the federal program continued for several years to provide the Commission with additional resources. Since the Commission assumed full responsibility for the metropolitan Providence system on May 2, 1982, it has received grants from the United States Environmental Protection Agency under provisions of the Clean Water Act, and matching grants from the Rhode Island Department of Environmental Management. In addition, the Clean Water Finance Agency has provided the Commission with below-market rate State Revolving Fund loans. The Commission is also authorized to issue its own revenue bonds to finance system-wide improvements. The Commission has indicated that a substantial share of its new and existing projects will be funded from other fund sources that would include state revolving funds, revenue bonds, or other fund sources. All spending in FY 2020 through FY 2025 is described below.

Bucklin Point Resiliency Improvements

The Governor recommends financing of \$35.8 million in Commission funds in FY 2024 - FY 2027 for upgrades to the Bucklin Point facilities. The Operations & Maintenance Buildings construction project is expected to be completed in 2024. The UV Disinfection Improvements Project is currently in the Design phase and construction is expected to be completed in 2025. These resiliency improvement projects were identified as part of NBC's resiliency planning process for Bucklin Point.

Narragansett Bay Commission

Combined Sewer Overflow Phase III A Facilities

The Governor recommends \$468.7 million in Commission funds to finance the Combined Sewer Overflow (CSO) Phase III Facilities improvements in FY 2024 - FY 2029. The project represents the third and final phase of federally mandated CSO Abatement Program required as part of a consent agreement between the Commission and the RI Department of Environmental Management. Within Phase III, the Program is subdivided into four sub-phases, A, B, C, and D, which will be completed by 2041. Each sub-phase includes expenditures of \$10.0 million for the construction of Green Stormwater Infrastructure to reduce stormwater inflow by implementing stormwater infiltration projects. Phase A includes design and construction of a deep rock tunnel in Pawtucket approximately 12,000 feet in length along the Seekonk and Blackstone Rivers, a pump station, drop shafts and consolidation conduits. Phase A is expected to be completed in 2027. The design of Phase B is also included in the cost of Phase A.

Combined Sewer Overflow Phase III B-D Facilities

The Governor recommends \$5.4 million in Commission funds in FY 2029. The CSO Phase III B-D Facilities are part of the federally mandated CSO Abatement Program required as part of a Consent Agreement between the Commission and the RI Department of Environmental Management. Within Phase III, the Program is subdivided into four sub-phases, A, B, C, and D, which will be completed by 2041. Each sub-phase includes expenditures of \$10.0 million for the construction of Green Stormwater Infrastructure to reduce stormwater inflow by implementing stormwater infiltration projects. CSO Phase III B is expected to begin in 2028.

Narragansett Bay Commission

Field's Point Resiliency Improvements

The Governor recommends \$103.2 million in Commission funds in FY 2024 - FY 2028 to upgrade the Fields Point facilities to help improve operational efficiency and reliability while addressing aging infrastructure and ensuring resiliency. The NBC solar carport is expected to be completed in 2025; the Fields Point Maintenance and Storage Buildings, Fields Point Facilities Improvements and the Fields Point Electrical Improvements and Standby Power Projects are expected to be completed in 2026; and the Ernest Street Pump Station Improvements Project is expected to be completed in 2027. The Cybersecurity Improvements project is expected to be completed in 2024 and the Lincoln Septage Receiving Station Replacement project is expected to be completed in 2026.

Interceptor Repair and Construction

The Governor recommends \$12.0 million from Commission funds for the Interceptor Restoration and Construction project in FY 2024 - FY 2029. This is an ongoing project aimed at protecting NBC's infrastructure, maximizing flow and capacity, and supporting the health and safety of the public in accordance with regulatory requirements. Projects that will be undertaken with the recommended funding are determined based on inspection and cleaning projects and emergency status. Projects result from such issues as root intrusion, structural damage, odor control, aging infrastructure, inaccessible structures, pipe damage and emergency situations.

Rhode Island Resource Recovery Corporation

Rhode Island Resource Recovery Corporation’s mission is to provide safe, environmentally compliant, clean and affordable solid waste and recycling services for the State of Rhode Island. It aims to provide the utmost in protection of public health and environment while working towards having no impacts on the quality of life in the surrounding neighborhoods. The Corporation sets an example of being a good neighbor by minimizing the impacts of its operations on the surrounding community while setting high industry standards for recycling and waste disposal. The Corporation seeks the best mix of public and private processing, recycling and disposal systems, programs, and facilities for both commercial and municipal waste to meet Rhode Island’s needs.

Rhode Island Infrastructure Bank

The Rhode Island Infrastructure Bank (RIIB), formerly the Clean Water Finance Agency, functions as a body politic, a corporate and public instrumentality having a distinct legal existence from the State of Rhode Island. The mission of the agency is to provide low-cost financing to municipalities, suppliers of drinking water, sewer commissions and wastewater management districts by means of the State Revolving Fund (SRF) programs. The SRF programs are designed to leverage state bond funds, increasing the availability of money to borrowers by a ratio of ten to one. The SRF loan programs consist of a Clean Water SRF, a Safe Drinking Water SRF, and a Rhode Island Water Pollution Control Revolving Fund.

Beginning with the FY 2016 budget, the scope of the Clean Water Finance Agency was expanded, and the entity renamed. The new organization, RIIB, now provides energy efficiency and renewable energy financing for local businesses by allowing commercial properties to be eligible for the Property Assessed Clean Energy Program (PACE), for storm water management loans, and for federally-funded Brownfields projects. RIIB also provides new funding for energy efficiency retrofits and renewable energy projects to Rhode Island's municipalities and school districts, by accessing federal energy conservation funding. Finally, RIIB administers the Municipal Road and Bridge Revolving Fund.

Rhode Island Infrastructure Bank

Clean Energy Fund

The Governor recommends the Clean Energy Fund be financed with \$102.5 million over FY 2024 - FY 2029. Of this total, \$22.1 million is revenue bond proceeds, \$80.0 million is from other funds, and \$400,000 is from revolved capitalization grants. The other funds are predominantly principal repaid from the outstanding loan portfolio. The Clean Energy Fund was established in Rhode Island General Law in 2021 for the purpose of providing technical, administrative, and financial assistance to municipalities and businesses for energy efficient, renewable energy, and demand-side management projects.

Clean Water State Revolving Fund

The Governor recommends the Clean Water State Revolving Fund (CWSRF) be financed with \$367.5 million over FY 2024 through FY 2029. Of this total, \$151.9 million is revenue bond proceeds, \$123.3 million is federal funds through Environmental Protection Agency, and \$72.0 million is from revolved capitalization grants. \$20.3 million in general revenues serve as state match, unlocking the higher federal funding levels enacted in the Investment Infrastructure and Jobs Act (IIJA). The Fund provides low-interest subsidized loans for local governments and quasi-public agencies to finance approved water pollution abatement projects and has to date supported \$1.32 billion in low-interest loans to two dozen municipalities, Providence Water, the Rhode Island Airport Corporation, and the Narragansett Bay Commission.

Rhode Island Infrastructure Bank

Drinking Water State Revolving Fund

The Governor recommends the Drinking Water State Revolving Fund (DWSRF) be financed with \$396.5 million over FY 2024 through FY 2029. Of this total, \$60.7 million is revenue bond proceeds, \$293.6 million is federal funds through the Environmental Protection Agency, \$18.0 million is revolved capitalization grants, and \$24.2 million in general revenues satisfy state match requirements, unlocking the higher funding levels available through the Investment Infrastructure and Jobs Act (IIJA). These resources enable Rhode Island's largest and most important drinking water financing program. Through the program, jointly managed with the Rhode Island Department of Health, eligible borrowers have access to below-market interest rate loans to construct safe drinking water infrastructure projects. The current project priority list identifies approximately \$802.0 million of project need. Eligible projects include construction or rehabilitation of water mains, pipes, water meters and storage tanks by municipalities, quasi-public agencies, nonprofit, and private water suppliers.

Municipal Resiliency

The Budget Office recommends \$10.0 million in general obligation bonds to be placed on the November 2024 ballot to complement the \$16.0 million authorized by voters in November 2022. The proceeds would serve as matching grants to municipalities for restoring and improving resiliency of infrastructure, vulnerable coastal habitats, and restoring rivers and stream floodplains. These funds are expected to leverage significant matching funds to support local programs to improve community resiliency and public safety in the face of increased flooding, major storm events, and environmental degradation.

Project Spending by Year and Financing Source Municipal Resiliency

Rhode Island Infrastructure Bank

RI Efficient Buildings Fund

The Governor recommends expenditures of \$35.0 million in revenue bonds, \$9.0 million in capitalization funds and \$50.0 million in other funds from FY 2024 to FY 2029. The other funds are predominantly principal repaid from the outstanding loan portfolio. The Efficient Building Fund is a public building energy efficiency and renewable energy investment program that provides municipalities, school districts, and quasi-public state entities with access to capital to make renewable energy and energy efficient improvements to their facilities.

Project Spending by Year and Financing Source RI Efficient Buildings Fund

Small Business Green Energy Loan Program

The Governor recommends \$5.0 million in general obligation bonds authorized by voters in November 2022 to expand the existing green energy business loan programs at the RI Infrastructure Bank. The Commercial Property Assessed Clean Energy (C-PACE) program was authorized by the 2015 Assembly and has successfully helped mitigate upfront investment costs and performance risks for Rhode Island businesses making renewable energy or energy-efficiency improvements to their real property with an average loan size of \$6.5 million in 2020. The Bank receives inquiries on a regular basis from small businesses interested in implementing efficiency and renewable energy projects and this funding would open the door to an underserved segment of the market with a target average loan size of \$150,000.

Transportation

**Department of Transportation
Rhode Island Airport Corporation
Rhode Island Public Transit Authority
Rhode Island Turnpike and Bridge Authority**

Department of Transportation

The Department of Transportation is responsible for providing and maintaining the surface transportation (highway, mass transit, and rail) infrastructure that serves the needs of Rhode Island residents and visitors. Infrastructure-related capital projects are outlined in the Department's five-year Capital Improvement Program for inclusion in the Transportation Improvement Program (TIP), which is a ten-year plan updated once a year by the Department of Administration's Office of Statewide Planning and approved by the State Planning Council. The TIP addresses the goals of Rhode Island's transportation program and lists priority projects and activities. In recent years, the Department's capital improvement projects have focused on continued highway construction and reconstruction, bridge repair, and statewide road projects. The State of Rhode Island has relied in the past on the issuance of general obligation debt to both finance state projects and provide the majority of required state match for federal funds. Over the last few years and moving forward, Department of Motor Vehicle fees, along with Rhode Island Capital Plan Fund financing will be the primary funding streams for the local match as the State moves away from borrowing. Federal funds have come from three sources: the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), and the Federal Railroad Administration (FRA).

All projects within the Rhode Island TIP fall into the following categories:

Bridge Maintenance involves an asset management-based system of planning, with an emphasis on preservation and maintenance to keep assets in good condition. Activities include inspections, permits, joint sealing, and spot painting.

Pavement Maintenance covers the preservation of approximately 1,100 miles of roadway under the Department of Transportation's jurisdiction. Activities include crack sealing and surface treatments.

Traffic Safety Maintenance handles damaged safety equipment that must be repaired or replaced. Activities include signage and lighting repair, permits, and pavement striping.

Drainage Maintenance activities include cleaning and flushing, removing sediment and debris, inspections, and routine maintenance.

Maintenance Operations include programs covering winter operations, mowing, sweeping, roadside maintenance, and traffic operations.

Transit Operations covers both the Department of Transportation (including commuter rail service and seasonal bus and ferry services) and RIPTA (all bus transit and paratransit operations) funding.

Toll Facilities Operations authorized through RhodeWorks legislation is currently on hold. The infrastructure consists of cashless, All-Electronic Tolling with equipment mounted on overhead gantries.

Department of Transportation

Headquarters Operations encompasses all administrative functions at the Department of Transportation, including Legal, Human Resources, Communications, Information Technology, and Finance. These functions maintain a system of centralized program services.

Debt Service is mainly for General Obligation bonds that require annual payments through FY 2034. In addition, debt service is required for Grant Anticipation Revenue Vehicle (GARVEE) and Motor Fuel bonds.

The Bridge Capital Program is similar to Bridge Maintenance in that it is an asset management approach used to identify and develop the sequence of preservation, repair, rehabilitation, and repair actions for bridges.

The Pavement Capital Program also uses an asset management approach to maintain the Pavement Structural Health Index (PSHI) per mile traveled at an average of 80% over the life of the TIP. A proactive approach is taken to pavement management in order to extend the life of the road surfaces.

The Traffic Safety Capital Program covers activities including roadway departure mitigation, intersection and interchange improvements, pedestrian improvements, traffic signal optimization, bottleneck reduction, and sign and structure replacement.

The Railway Highway Crossing Program provides for the elimination of hazards at crossings between rail and highways.

The Drainage Capital Program includes a comprehensive plan to invest in the State's 25,000 stormwater catch basins, 2,000 outfalls, and 100 treatment systems.

The Transportation Alternatives Program provides funding for projects defined as transportation alternatives, including pedestrian and bicycle facilities, community improvement activities, environmental mitigation, recreational trail program projects, and safe routes to school projects.

Planning and Development refers to tasks performed by planning personnel including data collection, civil rights, transit and capital planning, the Local Technical Assistance Program (LTAP), permitting, and research.

The Transit Capital Program covers both the Department of Transportation (including in-state rail shuttles, new transit stations and hubs, Northeast Corridor capacity improvements, ferry terminals, and rapid bus transit) and the Rhode Island Public Transit Authority (RIPTA), including regular replacement of buses and paratransit vans, passenger facility upgrades, and intelligent transportation system equipment.

Fixed Guideway (Commuter Rail)

The Governor recommends \$34.7 million in federal funds during FY 2024 - FY 2029 to finance a capital program relating to the operations, planning, design, and construction of commuter rail facilities serving Rhode Island. This project includes construction of stations, tracks, and signals; right-of-way acquisition; track usage fees; purchase of locomotives and rail coaches (train sets); and other rail appurtenances to accommodate rail passenger service in Rhode Island. Commuter rail service is provided by the Massachusetts Bay Transportation Authority as an extension of its service to South Attleboro.

Department of Transportation

Highway Improvement Program

The Governor recommends \$4.6 billion to finance the Highway Improvement Program (HIP) during FY 2024 - FY 2029. HIP is the implementation of the Department of Transportation's federally funded capital program as identified in the ten-year Transportation Improvement Program (TIP). Of this total, \$3.4 billion from the Federal Highway Administration and \$132.3 million from Grant Anticipation Revenue Vehicle (GARVEE) bonds which will be matched with \$193.6 million in RI Highway Maintenance Account proceeds, \$393.3 million from the RI Capital Plan Fund, \$71.7 million in general obligation bond proceeds approved by voters in March 2021, and \$24.0 million in land sale revenue. The proposed HIP reflects federal highway aid fund levels pursuant to the Investment Infrastructure and Jobs Act (IIJA) enacted into law on November 15, 2021, including federal funds for the National Electric Vehicle Charging Station and Bridge Replacement and Rehabilitation programs.

The GARVEE values include amounts authorized by the 2019 Assembly. The monies from the Federal Highway Administration include \$70.4 million from the discretionary grant program Infrastructure For America (INFRA) for the Northbound I-95 Viaduct and Route 146, \$254.9 million from the federal Bridge Replacement and Rehabilitation program, and \$58.8 million from the Better Utilizing Investments to Leverage Development (BUILD) discretionary grant program for the Washington Bridge connecting East Providence to Providence, the Route 37 project, and ramps for the Newport Pell Bridge. The HIP also includes \$5.3 million from the Recreational Trails Program.

Due to the size and complexity of HIP, several notable projects are broken out in the RI Capital Improvement Program for separate consideration. To avoid double counting of resources, any amounts that are already captured in HIP have corresponding offset lines in the relevant project detail. In most cases this is RI Highway Maintenance Account proceeds, or the receipts of license and vehicle registration fees by the DMV. State-funded projects that are entirely financed exclusively by the Highway Maintenance Account and for non-matching purposes have been separated into a new project entitled "State-funded Capital Improvements."

Maintenance - Capital Equipment Replacement

The Governor recommends \$55.6 million in financing from FY 2024 - FY 2029, including \$42.0 million from gas tax revenues and \$13.6 million from the RI Capital Plan Fund, for the continued replacement of maintenance vehicles in the Department of Transportation fleet. This financing will support the replacement of heavy trucks, sweepers, loaders, backhoes, and tractors, all of which are used to maintain Rhode Island's 1,100 miles of highways and 1,200 bridges and to respond to adverse weather events. The success of the Department's maintenance efforts is premised upon the availability of safe and functional equipment.

Mass Transit Hub Infrastructure

In November 2014, Rhode Island voters approved a referendum for \$35.0 million in general obligation bonds that would "fund enhancements and renovations to mass transit hub infrastructure throughout the State of Rhode Island to improve access to multiple intermodal sites, key transportation, healthcare, and other locations." The Rhode Island Public Transit Authority, the Department of Transportation and the Division of Statewide Planning have worked cooperatively on project design and planning. The intent of this project is to provide citizens with fast and easy access to good jobs that offer opportunities for upward mobility in Rhode Island. The Rhode Island Public Transit Authority will lead the Dorrance Street Transit Center project, a public-private partnership that an intermodal transit center, parking, lot and administrative offices, along with adjacent mixed-use development. In addition, bond proceeds will be utilized to construct a parking lot for the Pawtucket/Central Falls Train Station. The Governor recommends financing this project with \$21.4 million of general obligation bonds issued in October 2021 and \$2.9 million in previously issued general obligation bond proceeds during FY 2024 - FY 2029.

Non-Maintenance - Capital Equipment

The Governor recommends \$4.2 million in gas tax financing during FY 2024 – FY 2029 for the ongoing capital replacement program for non-maintenance vehicles in the Department of Transportation fleet. The vehicles that will be replaced using this financing are basic fleet vehicles used for the activities of a variety of the Department’s sub-programs, including construction and materials.

Department of Transportation

Pawtucket-Central Falls Train Station

The Governor recommends \$3.5 million in FY 2024 of Vehicle Registration Fee's to finance the construction and completion of a new commuter rail station in Pawtucket near the Central Falls border, including two platforms, a pedestrian overpass, bus drop-off access, and enhanced bicycle and pedestrian access. The station will be served along the Providence MBTA line that connects to Boston and will relieve some of the capacity issues currently faced by Providence and South Attleboro stations. The area of the new station is mostly underutilized or vacant mill space and is well-suited for redevelopment. Project is substantially complete as of Fall 2023. Remaining expenditures will complete the Phase 2 parking lot.

Salt Storage Facilities

The Governor recommends \$7.0 million from the RI Capital Plan Fund in FY 2024 - FY 2029 to finance the construction of six new, covered salt storage facilities in Pawtucket, Newport, Gloucester, Coventry, Hope Valley, and Westerly, as a part of a planning effort to examine the consolidation of salt stockpiles to improve operational efficiencies, remedy environmental deficiencies, and reduce costs. This project will combat potential groundwater contamination and reduce environmental concerns over the storage of this chemical. Salt is purchased in bulk with tens of thousands of tons stored at 23 locations statewide. The Department has reviewed the existing salt storage facilities and developed a plan to replace/improve salt storage facilities to meet operational and environmental concerns. To date, five facilities have been closed; however, due to a continued need for strategically located material piles, uncovered locations continue to operate at four storage sites.

State Funded Capital Improvements

The Governor recommends \$169.0 million to finance state-funded capital improvements during FY 2024 – FY 2029. Financing for these improvements will come from vehicle registration fees and other fees collected from the DMV and held in the Highway Maintenance Account. Projects include road and bridge repairs highway drainage improvements. This project captures those transportation investments that do not qualify for federal match.

Train Station Asset Protection

The Governor recommends \$3.4 million from the RI Capital Plan Fund to finance asset protection work at three Rhode Island train stations during FY 2024 - FY 2029. The RI Department of Transportation is responsible for the oversight and maintenance of train stations located in Woonsocket, South Kingstown, and Westerly. The train stations serve as intermodal facilities for each of their communities. Major capital repairs at each location include HVAC, roofing, water leaks, as well as funding to support minor repairs and general maintenance.

Rhode Island Airport Corporation

The Rhode Island Airport Corporation was created by the Rhode Island Commerce Corporation (Commerce RI) on December 9, 1992, as a subsidiary public corporation, government agency, and public instrumentality, having a distinct legal existence from the State and Commerce RI, and having many of the same powers and purposes of Commerce RI. The Corporation is empowered to undertake the planning, development, management, acquisition, ownership, operation, repair, construction, renovation, sale, lease or other disposition of any airport facility, including the T.F. Green State Airport in Warwick, as well as the five general aviation airports: North Central, Quonset, Westerly, Newport, and Block Island Airports.

The Corporation leases the airports from the State of Rhode Island, through the Department of Transportation (DOT). Under the lease agreement, the State and DOT have assigned all rights to airport revenues, the proceeds of the State general obligation bonds issues for airport projects, federal grant agreements, insurance proceeds, all contracts including concession agreements with vendors and airlines, and all licenses and permits.

The Corporation is entitled to receive funds from the Federal Aviation Administration on a matching fund basis to improve the state's airport system and finance various airport operations and improvements. These funds typically range between 75-90% of eligible project costs.

Rhode Island Public Transit Authority

The Rhode Island Public Transit Authority (RIPTA) has primary responsibility for directing statewide fixed-route bus service and Americans with Disabilities Act paratransit service operations. RIPTA is managed under the direction of an eight-member Board of Directors. In addition to these core transit services, RIPTA operations also include program development implementation of the statewide carpool program. RIPTA is committed to protecting the environment and providing safe, reliable, quality transit service that is responsive to customer needs, with emphasis on Rhode Island’s families, children, transit dependent populations, and elderly and disabled residents. RIPTA operates a fixed-route fleet of 240 buses and trolleys. The authority’s main facility is located in the City of Providence with a satellite operation on Aquidneck Island.

Bus Purchases

The Governor recommends \$153.6 million from FY 2024 - FY 2029 finance the purchase of bus fleet replacement and other vehicles. Of this, the largest share of financing is \$125.1 million from the Federal Transit Administration. These federal funds require state matching funds for at least 20% of the project cost. State match is largely proceeds from the Vehicle Registration Fees at \$28.5 million.

Land and Buildings Enhancements

The Governor recommends \$284.8 million in financing for capital improvements to RIPTA Land and Buildings in FY 2024 - FY 2029. \$256.3 million of project funds are from the Federal Transit Administration (FTA) with a state match of \$27.8 million from the RI Capital Plan Fund. Most of the RI Capital Plan funding is the remaining prior year investment from FY 2021 general revenue as part of a \$100.0 million transfer to address transportation state match needs. FTA funding levels reflect the projected amounts available under the Investment Infrastructure and Jobs Act (IIJA) enacted in November 2021 and other anticipated discretionary grant awards. The project enables RIPTA to maintain facilities in a state of good repair as required under Federal Transit Administration asset management policies. Projected expenditures include security measures to comply with federal standards, enhancements to passenger facilities, and repairs to RIPTA's maintenance and administrative facilities.

RIPTA - Dorrance Street Transit Center

The Governor recommends \$21.4 million in general obligation bond proceeds authorized in 2014 for the development of a new intermodal facility known as the Dorrance Street Transit Center. The new transit center is envisioned to be a mixed-use development that will include an enclosed intermodal transit center, parking deck, potentially RIPTA offices, as well as an adjacent mixed-use transit-oriented development. The new Dorrance Street Transit Center will provide a single organized location and the new transit hub will be located in the blocks bounded by Dorrance Street, Friendship Street, Clifford Street, and Dyer Street. An offset to avoid double counting is included as the 2014 Mass Transit Hub Infrastructure bond authorization is included in the Department of Transportation's capital budget under the "Mass Transit Hub Infrastructure" project.

URI Mobility Hub

The Governor recommends \$8.7 million in financing for a new transit hub at the URI Kingston campus from FY 2024 - FY 2025. Of that total, \$7.4 million is federal funding from a Federal Transit Administration discretionary grant program. The RIPTA award was announced in November 2019. The RI Capital Plan Fund contributes \$850,000 million. The remaining \$500,000 from Vehicle Registration Fees.

Warwick Bus Hub

The Governor recommends \$1.1 million in FY 2023 to finance the construction of a new bus hub at the Knight Campus of the Community College of Rhode Island, including \$27,097 from the RI Capital Plan Fund and \$1.0 million in Federal Transit Administration funds. Currently, the campus is serviced by a super stop at the Warwick Mall as the campus undergoes roadway and landscaping improvements. A new bus hub will encourage the use of public transportation and provide a safer and less congested bus stop for students and employees.

Rhode Island Turnpike and Bridge Authority

The Rhode Island Turnpike and Bridge Authority was created in 1954 by the Rhode Island General Assembly as a body corporate and politic with powers to construct, acquire, maintain, and operate bridge projects as defined by law. The Authority was responsible for the construction of the Claiborne Pell Bridge, which was opened for traffic on June 28, 1969, and has been responsible for operation and maintenance of the Mount Hope Bridge between Portsmouth and Bristol, and the Claiborne Pell Bridge between Newport and Jamestown, since 1964 and 1969 respectively. On April 25, 2013, the State of Rhode Island transferred the custody, control and supervision of the land, and improvements for the Jamestown and the Sakonnet River Bridges and such portion of Route 138 remains within the State.

Rhode Island Turnpike and Bridge Authority

Administrative Facilities Asset Protection

The Governor recommends \$644,000 of revenue bond proceeds finance asset protection work at the administrative facilities of the RI Turnpike and Bridge Authority during FY 2024 - FY 2029. One component of this work, building a dock at the Jamestown facility, will reduce the recurring cost of bridge inspections.

Rhode Island Turnpike and Bridge Authority

Sakonnet River Bridge

The Governor recommends \$2.8 million of revenue bond proceeds finance asset protection work on the Sakonnet River Bridge during FY 2024 - FY 2029. Since the 2017 ten-year plan, outstanding work to address the site of the old bridge structure has been reassigned to the Department of Transportation. Accordingly, the Turnpike and Bridge Authority capital improvement program has lower project costs.

Section 4

Debt Overview

Classification of State Debt

The State of Rhode Island has traditionally classified its general obligation debt in the following four categories: direct debt, guaranteed debt, contingent debt and other obligations subject to appropriation. These fall into the broader category of tax-supported debt used by investment rating agencies. Within the category of obligations subject to annual appropriations, there are certain performance-based agreements associated with debt issued to promote economic development. The State's requirement to make appropriations on these obligations is based upon achievement of certain predetermined benchmarks that would increase state tax revenues.

RI Credit Rated by Three Major Credit Agencies

The State's general obligation debt is rated by the three major credit rating agencies. All three agencies have reviewed the State of Rhode Island on a regular basis since FY 2008, reflecting the concerns that the agencies had relating to economic and budgeting challenges facing Rhode Island. As of January 2024, Rhode Island's ratings for general obligations were:

Moody's Rating – Aa2 (stable)
Fitch Rating – AA (positive)
Standard & Poor's – AA (stable)

Debt Service Budgeted

Debt service and payments on long-term obligations from all fund sources, including the portion of the gas tax, and federal highway funds dedicated for debt service for FY 2025, is estimated to total \$309.7 million including: \$176.8 million for general obligation debt service, \$65.8 million from federal highway funds for GARVEE payments, \$24.5 million for the Convention Center Authority, \$0.9 million for Garrahy Garage, \$9.9 million for debt associated with the Historic Structures Tax Credit program, \$4.9 million for motor fuel debt service, \$19.9 million for certificates of participation, and \$7.2 million for debt associated with the City of Central Falls Public School Project.

Direct debt is authorized by the voters as general obligation bonds and notes. Current interest bonds require the State to make annual payments of principal and semi-annual payments of interest on bonds outstanding. As of January 1, 2024, the State had \$1.520 billion of general obligation tax-supported bonds outstanding. Authorized but unissued direct debt totaled \$471.5 million as of January 1, 2024. Those amounts are displayed in Appendix F, which displays authorized but unissued debt. The Governor prepares to issue \$195.3 million in FY 2025 and recommends that \$190.7 million be issued in FY 2026 and \$195.4 million in FY 2027 (see Appendix C for debt service payments).

Guaranteed debt includes bonds and notes issued by, or on behalf of, certain agencies, commissions and authorities created by the General Assembly and charged with enterprise undertakings, for the payment of which debt the full faith and credit of the State are pledged if the revenues of such entities may at any time be insufficient. As of January 1, 2024, there was no outstanding or authorized but unissued guaranteed debt.

Contingent debts are those debts or obligations of certain Rhode Island agencies for which the state has pledged its full faith and credit. Such debt includes mortgages insured by the Rhode Island Industrial-Recreational Building Authority. Voter approval enabled the Authority to pledge the State's full faith and credit up to \$80,000,000, reduced by the General Assembly in 2008 to \$20,000,000 and increased back to

Classification of State Debt

\$60,000,000 in 2010 for the following purposes: to insure eligible mortgages for new construction, acquisition, and rehabilitation or expansion of facilities used for manufacturing, processing, recreation, research, warehousing, retail, wholesale or office operations. New or used machinery, equipment, furniture, fixtures or pollution control equipment required in these facilities is also authorized for mortgage insurance. Mortgages insured by the Authority are limited to certain specified percentages of total project cost. The Authority is authorized to collect premiums for its insurance and to exercise rights of foreclosure and sale.

As of June 30, 2023, the Authority had outstanding mortgage agreements and other commitments for \$11,303,476 mainly relating to revenue bonds issued by the Rhode Island Industrial Facilities Corporation. In accordance with Rhode Island law, all premiums received by the Authority and all amounts realized upon foreclosure or other proceeds of defaulted mortgages are payable into the Industrial Recreational Building Mortgage Insurance Fund. All expenses of the Authority and all losses on insured mortgages are chargeable to this Fund. As of June 30, 2023, the Fund had an audited cash balance of \$78,767. The State has agreed to appropriate or borrow and pay to the Authority any amounts required to service insured loans that are in default should the Fund be insufficient. The Governor's FY 2025 recommended budget includes an appropriation of \$452,553 for FY 2025 obligations.

Other Obligations Subject to Appropriation

Rhode Island has entered into certain contractual agreements, which although of a long-term nature, are subject to annual appropriation by the General Assembly. A brief description of such commitments for which the state has or may appropriate funds for debt payments is provided below.

Kent County Courthouse

In 2005, Rhode Island entered into a lease agreement with a financial institution that issued \$58,910,000 in certificates of participation to construct a new Kent County Courthouse in Warwick. In April 2013, the State refunded the outstanding balances on these certificates to achieve debt service savings. As of June 30, 2023, there was \$4,500,000 outstanding (*see Appendix C for debt service payments*).

Traffic Tribunal

In 2005, Rhode Island entered into a lease agreement with a financial institution that issued \$21,565,000 in certificates of participation to construct a new Traffic Tribunal in Cranston. In April 2013, the State refunded the outstanding balances on these certificates to achieve debt service savings. As of June 30, 2023, there was \$3,200,000 outstanding (*see Appendix C for debt service payments*).

Juvenile Training School

In 2005, Rhode Island entered into a lease agreement with a financial institution that issued \$51,985,000 in certificates of participation to construct a new Juvenile Training School, including a Youth Assessment Facilities and a Juvenile Detention Center. In April 2013, the State refunded the outstanding balances on these certificates to achieve debt service savings. As of June 30, 2023, there was \$8,010,000 outstanding (*see Appendix C for debt service payments*).

Classification of State Debt

Eleanor Slater Hospital

In October 2018, the State entered into a lease agreement with a financial institution that issued \$20,100,000 in certificates of participation for renovations and improvements to the Eleanor Slater Hospital facilities at the Pastore Center in Cranston. As of June 30, 2023, there was \$16,110,000 outstanding (*see Appendix C for debt service payments*).

Garrahy Garage – Convention Center

In March 2018, the Convention Center Authority issued \$45,000,000 in taxable revenue bonds for the construction of a new parking garage adjacent to the Garrahy Courthouse in Providence. The State is responsible for any debt service that the facility is unable to cover from revenue generated at the garage. As of June 30, 2023, there was \$39,160,000 outstanding (*see Appendix C for debt service payments*).

Innovative Technology Projects

In 2007, the State entered into a lease agreement with a financial institution that issued \$23,490,000 in certificates of participation for technology improvement projects. These projects were undertaken in the Judicial branch, as well as the Executive branch, including Higher Education, Department of Administration, and Department of Elementary and Secondary Education. In 2009, an additional \$12,380,000 was issued. In April 2013, \$10,000,000 was issued for two new information technology projects approved by the General Assembly in the 2012 Session, including funds for a new Integrated Tax System and for technology infrastructure at local education agencies. In 2014, \$30,380,000 was issued for new information technology projects approved by the General Assembly in the 2013 Session. As of June 30, 2023, there was \$7,335,000 of certificates outstanding (*see Appendix C for debt service payments*).

Energy Conservation Projects

In 2007, the State entered into a lease agreement with a financial institution that issued certificates of participation for energy conservation projects which will result in cost savings. There was \$6.0 million issued for Department of Administration energy projects, and \$6.75 million for the University of Rhode Island. In 2009, an additional \$11,805,000 was issued for the University of Rhode Island projects. In July 2011, the State issued an additional \$31,980,000 for energy conservation projects at the Pastore/Zambarano Campuses, and for additional projects at the University of Rhode Island and new projects at the Community College of Rhode Island. In April 2013, the State issued an additional \$17,520,000 for continuation of projects at Pastore Center Campus. In 2014, the State issued an additional \$19,115,000 for continuation of projects at Pastore Center Campus and new projects at Rhode Island College. In June 2017, the State issued \$6,910,000 for additional projects at the University of Rhode Island. In October 2018, the State issued \$10,195,000 for additional projects at the University of Rhode Island. As of June 30, 2023, there was \$23,475,000 in certificates outstanding. The total also reflects refunding of COPS in June 2017 for Department of Administration and University of Rhode Island certificates (*see Appendix C for debt service payments*).

Classification of State Debt

School for the Deaf

In June 2009, the State entered into a lease agreement with a financial institution that issued \$30,425,000 of certificates of participation for the construction of a new School for the Deaf. In June 2017, the State refunded the outstanding balances on these certificates to achieve debt service savings. As of June 30, 2023, there was \$12,590,000 outstanding (*see Appendix C for debt service payments*).

Rhode Island Convention Center Authority

Rhode Island has entered into a lease agreement with the Rhode Island Convention Center Authority, a public corporation that was created for constructing, managing and operating a convention center.

Pursuant to the lease agreement, the State will be obligated to pay lease payments to the Authority sufficient to pay for the net operating expenditures and debt service on the Authority's bonds relating to the project being financed. The Authority issued bonds for project expenditures totaling \$323,000,000. Including refunding bonds that were issued to save interest costs, and the issuance in June 2006 of \$92.5 million of bonds to finance acquisition and renovation costs of the Dunkin Donuts Center, defeasance of \$90.085 million in May 2005. In March 2009, the Authority refunded its 2001 Series A bonds with the issuance of \$71.2 million of bonds. In March 2013, the Authority undertook a new refunding to achieve additional debt service savings. In FY 2022 and FY 2023, the Governor recommends a general revenue appropriation of \$22.9 million and \$24.7 million, respectively. This includes debt service relating to the Dunkin Donuts Center Improvements and includes debt service savings from refunding transactions completed in November 2017. Outstanding debt totaled \$121.6 million as of June 30, 2023 (*see Appendix C for debt service payments*).

Nursing Education Center Equipment

In May 2017, the State entered into a lease agreement with a financial institution that issued \$9,050,000 of certificates of participation for furnishings for the new Rhode Island Nursing Education Center, located on the South Street Landing property in Providence. The new facility is a shared education institute between the University's nursing school and the nursing program at Rhode Island College. Furnishings include laboratory and lecture spaces, and simulation labs for training of students. As of June 30, 2023, \$4,145,000 in certificates were outstanding (*see Appendix C for debt service payments*).

GARVEE/Motor Fuel Tax Revenue Bonds

In November 2003, Rhode Island entered into a payment agreement with the Rhode Island Economic Development Corporation relating to the issuance of \$53,030,000 of Motor Fuel Tax Revenue Bonds to provide funds for the State match for certain major Transportation projects funded by Grant Anticipation Revenue Vehicle (GARVEE) bonds also issued by the Corporation. The Motor Fuel Tax Revenue Bonds are secured by two cents of the motor fuel tax dedicated to the Department of Transportation, subject to annual appropriation. In March 2006, a second series of bonds totaling \$42,815,000 was sold. In April 2009, a third series was issued totaling \$12,410,000. As of June 30, 2023, \$15,075,000 was outstanding. This reflects the refunding of bonds in November 2017 (*see Appendix C for debt service payments*).

Classification of State Debt

The GARVEE bonds, which are secured by federal funds made available to the Department of Transportation, are not considered part of the State's net tax-supported debt. The most recent issuance of GARVEE bonds closed in May 2020 with a par value of \$165,555,000. As of June 30, 2023, there was \$473,640,000 outstanding which are supported by federal revenues (*see Appendix D for debt service payments*).

Performance Based Obligations of the Rhode Island Commerce Corporation (formerly Economic Development Corporation)

Fidelity

In May 1996, the Economic Development Corporation issued \$25,000,000 of bonds to finance infrastructure for Fidelity Investments. These bonds carry a moral obligation of the state. If at any time, certain reserve funds of the Economic Development Corporation pledged for this bond issue fall below their funding requirements, a request will be made to the General Assembly to appropriate the amount of the deficiency. In addition, pursuant to the lease the Economic Development Corporation entered into with FMR Rhode Island, Inc. to secure the bonds, credits are provided for lease payments if certain targeted new job goals are met for the financed project. Currently, it is projected that these job goals will be met. If the job goals are met, the Economic Development Corporation will credit FMR Rhode Island, Inc.'s lease payments and make annual requests to the General Assembly for appropriations, which will be used to pay the debt service on this bond issue. In May 2002, an additional \$10.0 million of bonds with similar provisions were issued. As of June 30, 2023, \$3,262,702 of Fidelity bonds were outstanding (*see Appendix C for obligations*).

Bank of America (Fleet)

In November 1997, the Economic Development Corporation entered into a similar agreement with Fleet Bank (subsequently acquired by Bank of America); bonds issued for that transaction totaled \$11.0 million. As of June 30, 2023, \$3,205,000 of Fleet bonds were outstanding. Under the lease agreement with Fleet, job rent credits are applied against lease payments if certain targeted new job goals are met for the financed project. The company has never reported jobs levels more than the base number of jobs (approx. 3,900). Job rent credits, if maximized, are estimated to result in a State obligation of approximately \$945,000 per year.

Rhode Island Commerce Corporation (formerly Economic Development Corporation) – Historical Structure Tax Credit

In June 2009, the State entered into a payment agreement with the Rhode Island Economic Development Corporation relating to the issuance of Economic Development Corporation Revenue Bonds in the amount of \$150,000,000 to provide funds to reimburse the State for Historic Structures Tax Credits presented by taxpayers. In March 2015, the State entered into a new payment agreement with the Rhode Island Commerce Corporation relating to the bank loan entered by the Corporation in the amount of \$75,000,000. In March 2019, the State entered into a new payment agreement with the Rhode Island Commerce Corporation in the amount of \$76,925,000. As of June 30, 2023, \$54,370,000 of such debt was outstanding.

Classification of State Debt

***Rhode Island Commerce Corporation (formerly Economic Development Corporation)
I-195 Redevelopment District***

In April 2013, the Economic Development Corporation entered two loans with Sovereign Bank in the amounts of \$37,440,000 (tax-exempt) and \$960,000 (taxable) to provide funds for the purchase of land from the Department of Transportation made available from the relocation of I-195 in Providence. Interest only will be due on this loan for the first five years. Principal is amortized over a twenty-year schedule beginning in year six (6), with a balloon payment in year ten (10). The initial loan is for ten (10) years, with an option to extend for an additional ten (10) years. The taxable loan was fully paid in FY 2019. As of June 30, 2023, there was \$30,055,000 in tax-exempt debt outstanding. During FY 2024, all remaining outstanding debt was pre-paid in December 2023 utilizing \$35.0 million in FY 2022 available General Revenue surplus included in the FY 2024 Enacted Budget.

***Rhode Island Health and Building Corporation
City of Central Falls Public School Projects***

In August 2023, the State entered into a payment agreement with the Rhode Island Health and Educational Building Corporation relating to the issuance of state-backed appropriation revenue bonds in the amount of \$93,520,000 to provide funds to finance the construction of a new high school in the City of Central Falls. (*see Appendix C for debt service payments*).

Tax-Supported Debt Burden

In evaluating the debt burden of the State of Rhode Island, the rating agencies consider all tax-supported debts which are or could be a future liability of the state. Therefore, the definition of "tax-supported debt" is more expansive than the strict "voter-approved" general obligation category. In Rhode Island's case, the State has indirectly extended its credit to quasi-public agencies and authorities, such as the Rhode Island Convention Center Authority, through lease arrangements.

Net Tax-Supported Outstanding Principal

The gross amount of debt reflected is that which is defined by *Moody's Investors' Service* in their credit report as the debt outstanding that could potentially be a liability of the State. It, therefore, does not reflect offsets that will reduce the State's payments on these debts, such as debt service reserve funds, interest earnings, and other revenue that could reduce the State's liability. Rhode Island's net tax-supported debt totaled \$1.953 billion as of June 30, 2023.

To assess Rhode Island's credit, the rating agencies review the State's ability to repay the debt and all factors that could affect the issuer's ability to make debt service payments (i.e., economy, budgetary issues, management team, debt structure, etc.).

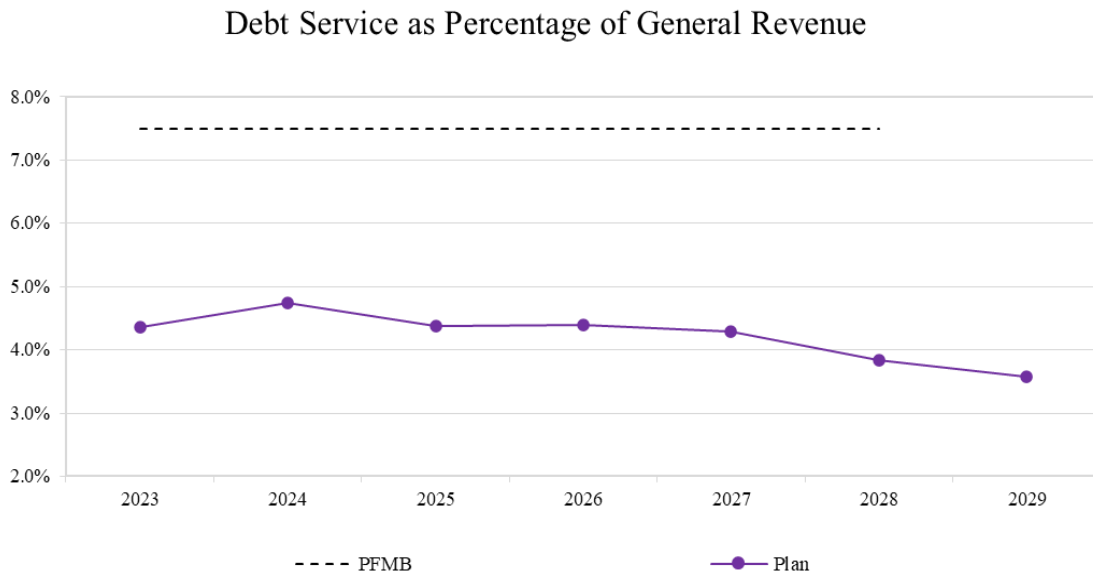

The projection of capital project disbursements and debt service costs reflect updated debt service projections as included in the FY 2025 – FY 2029 Capital Improvement Program. General revenue funded debt service on all tax-supported obligations is projected to decline from \$245.0 million in FY 2025 to \$221.2 million in FY 2029. Including obligations supported by gas tax and other specific revenues, the debt service is projected to decline from \$252.9 million in FY 2025 to \$224.3 million in FY 2029. The five-year forecast is based upon outstanding debt and projected new debt contained in the Governor's recommended FY 2025 - 2029 Capital Improvement Program.

Executive Order 95-4, relating to state debt, requires all issuances of state debt requiring the approval of the Governor to be reviewed by the State Budget Office. The Budget Office provides guidance as to the direct and potential impact of such debt issuance on the state's tax-supported debt and its credit rating. An examination of Rhode Island's projection of net tax-supported debt shows evidence that this businesslike approach to capital planning and management has reaped results.

Tax-Supported Debt Burden

The Governor’s Capital Budget is within the recommended debt guidelines set by the Public Finance Management Board with regards to debt ratios. The projected ratio of debt service to general revenues is below the recommended guideline of 7.5 percent. The FY 2024 ratio is 4.74 percent, which is projected to decrease to 4.37 percent for FY 2025. In FY 2029, the projected ratio of debt service to general revenues is projected to be 3.58 percent.

Tax-Supported Debt Burden

Debt service and payments on long-term obligations from all fund sources, including the portion of the gas tax, and federal highway funds dedicated for debt service for FY 2024, is estimated to total \$309.7 million including: \$176.7 million for general obligation debt service, \$65.8 million from federal highway funds for GARVEE payments, \$24.5 million for the Convention Center Authority, \$0.9 million for Garrahy Garage, \$9.9 million for debt associated with the Historic Tax Credit program, \$4.9 million for motor fuel debt service, \$19.9 million for certificates of participation, and \$7.2 million for debt associated with the City of Central Falls Public School Project.. A detailed listing of these obligations can be found in Appendix C, and the long-term projections are shown in the included chart.

Debt as Percentage of Personal Income

The ratio of debt to personal income is below the recommended Public Finance Management Board guideline of 4.0 percent. The ratio of debt as a percentage of personal income decline from 2.38 percent in FY 2025 to 2.23 percent in FY 2029.

General Obligation Debt Authorization

The State of Rhode Island has \$471.5 million of authorized but unissued general obligation debt. These authorizations have been approved by the voters at various referenda, including most recently on November 8, 2022. Under the Constitution of Rhode Island, the General Assembly has no power to incur debts more than \$50,000 without consent of the people, except in the case of war, insurrection or invasion or to pledge the faith of the state to the payment of obligations of others without such consent. By judicial interpretation, the limitation stated above has been judged to include all debts of the state for which its full faith and credit are pledged, including general obligation bonds and notes, bonds and notes guaranteed by the state and debts or loans insured by agencies of the state such as the Industrial-Recreational Building Authority.

Since 1979, the voters have authorized \$4.550 billion of general obligation bonds. Of this authorization, 33.8 percent or \$1.538 billion has been for Education purposes; 24.8 percent or \$1.130 billion was for Transportation purposes. Natural Resources reflected 22.0 percent of the total amount authorized or \$1.001 billion. Of the total \$471.5 million of unissued debt, 76.5 percent or \$360.8 million remains unissued for Education purposes, 11.0 percent or \$52.1 million remains unissued for General Government purposes, 11.4 percent or \$54.0 million remains unissued for Natural Resources, and 1.0 percent or \$4.7 million remains unissued for Transportation purposes.

Due to concern about the increasing level of authorized but unissued debt, the General Assembly enacted a sunset provision relating to general obligation bond authorizations. Chapter 438 of the Public Laws of 1988, which took effect on December 31, 1991, provides that any special act of the State that authorizes the issuance of general obligation bonds or notes of the State, which has a balance that remains unissued, and is seven years or older is invalid as to that portion which remains unissued.

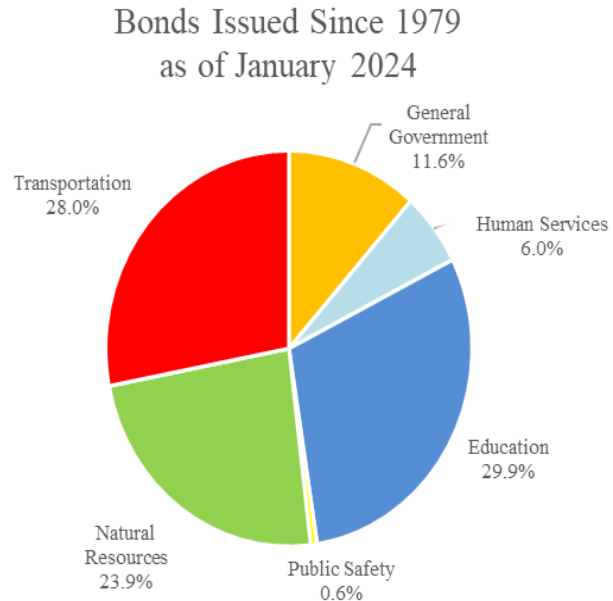

Debt Authorized Since 1979
as of November 2022

General Obligation Debt Authorization

Notwithstanding, the General Assembly may, by special act, extend any authorization for a period of one to five years upon a petition of the Department of Administration. Such extension may be granted more than once time. Upon a certification of the General Treasurer to the Governor as to debt authorizations described above and no longer extended, the authorization shall not be deemed or counted toward the authorized but unissued debt of the state. As of November 8, 2022, \$142.6 million of authorized debt has been extinguished or reallocated by law.

The included graphs exhibit a historical perspective of Rhode Island's debt by functional category including the amount of bond authorizations and amount of general obligation bonds issued since 1979 by functional category for the various functions of state government. Education, Transportation, and Natural Resources projects benefited by the highest percentage of issued bond proceeds, reflecting 30.0 percent of the total amount issued for Education, 28.0 percent for Transportation, and 23.9 percent for Natural Resources. Issued proceeds received for Education projects totaled \$1.169 billion while Transportation projects received \$1.094 billion and Natural Resources projects received \$931.6 million. The final graph displays the amounts that remain authorized but unissued as of January 2024.

Public Finance Management Board

The FY 2017 budget as enacted expanded the responsibilities of the Public Finance Management Board (PFMB) and created an Office of Debt Management within Treasury that aims to improve the issuance, oversight, and management of public debt in Rhode Island. The PFMB new requirements are intended to improve the fiscal stability of Rhode Island and its many public debt issuers.

Since January 1, 2017, the PFMB has been required to annually report the total amount of public state, regional, municipal, public and quasi-public corporation, and fire district and other special district debt authorized, sold and unsold. The PFMB is also required to undertake a debt affordability study, which must include recommended limits for debt capacity at least every two (2) years for each public issuer.

Also, the law requires issuers of public debt, by the end of each fiscal year, to provide to the PFMB the following information for each outstanding debt incurred:

- the principal amount of the outstanding issue;
- the amount of proceeds of the issue that remains unspent;
- the amount of debt authorized by the bond act or other appropriate authorization relevant to the issue that remains authorized but unissued; and
- a list of purposes for which the debt has been issued and the amounts expended for each purpose in the prior fiscal year.

Lastly, to support these new PFMB functions, the PFMB has amended its Rules and Regulations to assess the statutory fee of 1/40th of 1% to the lead underwriter or purchaser of any taxable or tax-exempt debt issue of the state, all state departments, any city or town, any state, municipal and regional authorities, agencies, boards, commissions, public or quasi-public corporations, and fire districts and other special districts¹. This fee will now also be assessed on refunding issuances as well.

Taken together, these recent legislative changes empower the Public Finance Management Board, staffed by the office of the General Treasurer, to create systemic reform of public debt management and oversight in Rhode Island.

Historically, the Public Finance Management Board released an annual report on Rhode Island debt. First issued in December 1998, this study provided a historical perspective of the State of Rhode Island's tax-supported and other debt and recommended certain credit guidelines to monitor state debt. The board adopted several guidelines, which were later amended in March 2000. As part of the newly enacted PFMB requirement to produce a debt affordability study, the following guidelines are being reviewed for potential revision. The McKee Administration is committed to limiting total annual debt issuances to levels that will enable the State to remain within the PFMB recommended guidelines.

¹ However, if a governmental entity is the purchaser of another governmental debt obligation which serves as underlying security for a related debt issuance, the governmental entity shall be exempt from the assessment.

Public Finance Management Board

Credit Guideline 1:

Tax-Supported Debt should not exceed 4.0 percent of personal income, and annual debt service for Tax-Supported Debt should not exceed 7.0 percent of state general revenues.

Explanation: Tax-Supported Debt is a state's core debt. General revenues and taxes secure this debt. The credit rating of the largest component of Tax-Supported Debt, general obligation bonds, is the benchmark for the credit rating for several other state debt issuers. The recommended limits on the total amount of debt and the burden on the state's budget are based on a combination of factors including historical trends in Rhode Island and ratios of peer states.

Credit Guideline 2:

The Board should monitor the total amount of Tax-Supported Debt, State-Supported Revenue Debt, and Agency Revenue Debt in relation to Rhode Island's personal income levels.

Explanation: These three types of debt are directly payable from or represent a contingent obligation/relationship on the state's financial resources. Overall levels should be monitored so that trends in the total amount and the relative levels of each are understood.

Credit Guideline 3:

If a Guideline is exceeded due to economic or financial circumstances or if the Governor and the Legislature determine that extraordinary infrastructure needs exist, the Board should request that the Governor and the Legislature recommend a plan to return debt levels to the Guideline within 5 years.

Explanation: The Credit Guidelines may be exceeded temporarily under certain extraordinary conditions. If exceeded, the state should take steps to return debt levels to recommended levels within a manageable period.

The Capital Budget presents these guidelines and the projected debt ratios resulting from the Governor's recommended Capital Budget. As can be seen in the section entitled "Tax-Supported Debt Burden", the recommended Capital Budget projects a ratio of debt to personal income which is below the recommended 4.0 percent guideline at 2.38 percent in FY 2025 declining to 2.23 percent in FY 2029.

As described in the overview, the Governor's recommended capital improvement plan assumes the issuance of \$195.3 million of general obligation bonds in FY 2025 and \$190.7 million in FY 2026. These issuances would be combined with the outstanding authorization for the Central Falls School Project. Overall, the Governor's recommended capital plan, as reflected in the schedules herein, would result in new debt issuances of \$195.3 million in FY 2025 and \$241.2 million in FY 2026. Under these debt issuance amounts, the State would remain well under the debt ratio guidelines established by the Public Finance Management Board throughout the forecast period.

Section 5

Technical Appendices

Appendices Overview

The Appendices contain information relating to the Rhode Island's outstanding debt and projected debt service.

Appendix A – Projected Net Tax Supported Debt

This analysis is performed to identify all debt that is considered "tax supported" debt and provide insight on the future course of the Rhode Island's tax supported debt. This summary is supported in later appendices, which provide debt service schedules for all outstanding and projected debt issues. Debt outstanding by issuer is also provided in separate schedules.

In both the debt service schedules and the summary of net tax supported debt outstanding, an attempt has been made to project those revenues which would offset the state's obligation.

The following assumptions were made in projecting the State of Rhode Island's net tax supported debt outstanding:

Items Included in Calculation - All debts included in Moody's Investors' Service tax supported debt calculation have been included.

Certain revenue bonds of the Economic Development Corporation and certificates of participation lease obligations are or will be long term in nature and may result in financial commitments that would be funded in part by general revenues.

Appendix B – Outstanding and Projected Debt by Issuer and Debt Ratios

This appendix includes the outstanding balances of the state's obligations as well as the proposed issuance of new debt and the anticipated reduction in debt due to prepayment or defeasance.

Proposed Issues - Interest rates for fixed rate general obligation bonds to be issued to fund FY

2025 projects are projected at 5.0 percent. Projected amortization schedules are found in the exhibits contained in Appendix C of the Capital Budget document.

2) **Debt Ratios** - Personal income data are derived from the November 2023 Revenue Estimating Conference consensus economic forecast. General revenue receipts projections are consistent with the Governor's FY 2025 recommended budget, as well as the out-year projections contained in the Five-Year Forecast.

Appendix C – Debt Service Payable by Issuer

The gross debt service payable on all outstanding and proposed debts of the state is adjusted to reflect the estimated disbursement for debt service. A table of contents is provided at the beginning of this appendix to assist the reader in locating specific schedules.

1. Debt Service on obligations that have debt service reserve funds available will be offset in the year in which cash reserve funds are available. It is assumed that reserve funds will be invested, and interest earnings will offset the state's lease payment.
2. Assumes the state appropriates debt service and operating requirements under lease for the Convention Center Authority and the Amica Mutual Pavilion.
3. The obligations arising from the performance-based contracts between the Rhode Island Commerce Corporation and private entities are anticipated to result in state appropriations due to the projected achievement of performance targets. In FY 2024, it assumes the Fidelity net lease payment is \$954,054 for Phase I and \$0 for Phase II. The forecast assumes no net lease payments for the Bank of America (Fleet) obligation transaction, which is worth about \$940,000 in each of FY 2024 and FY 2025.

Appendices Overview

Appendix D – Transportation GARVEE Bonds

The state utilized the Economic Development Corporation as a financing vehicle to issue bonds for transportation projects that are secured by federal grants. The debt service on the bonds issued, which will be funded by future federal grants, is reflected in this appendix for information purposes.

Appendix E – State of Rhode Island Bond Referenda

Appendix E provides information relating to general obligation bond referenda. It provides a historical perspective on all bond referenda presented to the voters at each election since 1972, identifying the amounts presented, the amounts approved by the voters, and the actual vote count for each question.

Appendix F – Analysis of Bond Authorizations

Appendix F contains information relating to the state's debt by providing a historical perspective by functional purpose of the debt. This appendix shows the amount of debt approved by functional category since 1979, the amount of bonds actually issued from that authorization, the amount of authorization extinguished or unissued debt as of January 2024. The table also reflects the specific authorizations that are budgeted.

Appendix G - Glossary

Appendix H is a glossary of terms relevant to capital budgeting and debt issuance.

¹ Tax-exempt bank loan totaling \$37.4 million with interest rate at SOFR plus 1.0% and taxable bank loan totaling \$960,000 with interest rate at LIBOR plus 1.15%; semi-annual interest payments, with no principal payments for the first five years. Principal will be amortized over a twenty year schedule beginning in year 6, with a balloon payment in year 10. Initial agreement is for ten (10) years with an option to extend for an additional ten (10) years. The taxable issuance was paid off in FY 2019. The State has exercised its right to extend the loan for an additional five years, with new debt issued in 2023 in the amount of \$30,055,000.

² Interest displayed is based on interest rate of 5.00% .

³ Offsets are based on anticipated actual interest payments due to current SOFR rates plus adjustments, including some land sale proceeds.

⁴ Remaining principal from FY 2025 - FY 2033 of \$27,970,000 fully defeased on November 30, 2023.

¹ Budget reflects dedication of two cent of gas tax to trustee for motor fuel bonds. Amount shown is the amount payable on the bonds, but bond documents covenant that a full two cents of gas tax proceeds flow to the trustee for coverage purposes.

² Reflects amounts payable on net tax supported debt, including projected issuance and performance-based obligations.

FY 2018 ⁽⁸⁾	149,375,000	-	-	-	149,375,000
FY 2017 ⁽⁹⁾	91,000,000	15,960,000	-	-	106,960,000
FY 2016 ⁽¹⁰⁾	72,000,000	-	-	-	72,000,000
FY 2015 ⁽¹¹⁾	46,125,000	49,495,000	-	75,000,000	170,620,000
FY 2014 ⁽¹²⁾	53,150,000	-	-	-	53,150,000
FY 2013 ⁽¹³⁾	81,400,000	26,690,000	-	38,400,000	146,490,000
FY 2012 ⁽¹⁴⁾	145,035,000	31,980,000	-	5,500,000	182,515,000
FY 2011 ⁽¹⁵⁾	-	-	-	75,000,000	75,000,000
FY 2010 ⁽¹⁶⁾	144,665,000	11,000,000	-	-	155,665,000
Total	2,508,555,000	165,420,000	-	414,825,000	3,088,800,000

(1) FY 2025 and thereafter includes projected GO bond issuance based on the five year capital budget;

Other includes \$50.5 million for the City of Central Falls School Project.

(2) FY 2024 includes GO issuance of \$146.7 million for FY 2024 projects.

Other includes \$93.5 million for the City of Central Falls Public School Project.

(3) FY 2023 includes GO issuance of \$222.8 million for FY 2023 projects.

(4) FY 2022 includes GO issuance of \$135.0 million for FY 2022 projects.

(5) FY 2021 includes GO issuance of \$135.9 million for FY 2021 projects.

(6) FY 2020 includes \$153.0 million for FY 2020 projects.

(7) FY 2019 includes GO Issuance of \$148.6 million for FY 2019 projects; COPS includes \$10.1 million for URI energy and \$21.1 million for Eleanor Slater Hospital renovations; Other includes \$76.925 for Historic Structures Tax Credit.

(8) FY 2018 includes GO issuance of \$149.4 million for FY 2018 projects.

(9) FY 2017 includes GO Issuance of \$91.0 million for FY 2017 projects and \$9.1 million for Nursing Education Center \$6.9 million for URI energy conservation COPS.

(10) FY 2016 includes GO Issuance of \$72.0 million for FY 2016 projects.

(11) FY 2015 includes GO Issuance of \$46.1 million for FY 2015 projects and \$49.5 million for energy conservation and IT COPS.

(12) FY 2014 includes GO Issuance of \$53.2 million for FY 2014 projects.

(13) FY 2013 includes GO Issuance of \$81.4 million for FY 2013 projects and \$26.7 million for energy conservation and IT COPS.

(14) FY 2012 includes GO Issuance of \$145.035 million for FY 2012 projects, and COPS includes \$20.0 million for Energy Conservation, \$12.19 million for URI/CCRI Energy Conservation.

(15) FY 2011 includes \$75.0 million for the EDC Job Guaranty Program.

(16) FY 2010 includes GO Issuance of \$144.7 million for FY 2010 and FY 2011 projects, and COPS includes \$11.0 million for thr DMV System.

Appendix H
Capital Budget
Glossary

Glossary

Derived primarily from the "Glossy of Municipal Securities Terms." Municipal Securities Rulemaking Board, 1985.

Amortization of Debt - The process of paying the principal amount of an issue of securities by periodic payments either directly to security holders or to a sinking fund for the benefit of security holders. **See: Debt Service; Debt Service Schedule.**

Amortization Schedule - A table showing the gradual repayment of an amount of indebtedness, such as a mortgage or bond, over a period of time. This table is often set up to show interest payments in addition to principal repayments. **See: Debt Service Schedule.**

Arbitrage - With respect to the issuance of municipal securities, arbitrage usually refers to the difference between the interest paid on the tax-exempt securities and the interest earned by investing the security proceeds in higher-yielding taxable securities. Internal Revenue Service regulations govern arbitrage on the proceeds from issuance of governmental securities.

Authority - A unit or agency of government established to perform specialized functions, usually financed by service charges, fees or tolls, although it may also have taxing powers. In many cases authorities have the power to issue debt which is secured by the lease rental payments made by a governmental unit using the facilities constructed with bond proceeds. An authority may function independently of other governmental units, or it may depend upon other units for its creation, funding or administrative oversight. Examples of authorities include health facilities authorities, industrial development authorities and housing authorities.

Authorization - The legal or statutory basis to issue debt, usually with a specific dollar limit.

Average Life or Average Maturity - The number of years to the point at which half of an issue will have been redeemed. The average life is a reflection of the rapidity with which the principal of an issue is expected to be paid. Under one commonly used calculation method, it is equal to the total bond years divided by the total number of bonds (1 bond equals \$1,000 par amount, regardless of actual certificate denomination); note that this computation method does not take into account the time value of the principal amounts. The formula for this computation is:

$$\text{Average Life} = \frac{\text{Total Bond Years}}{\text{Number of Bonds}}$$

Example:

Issue size:	\$10,000,000
Interest rate:	7 percent
Maturity of issue:	5 years
1 bond	= \$1,000

Glossary

(1) Years	(2) Principal	(3) Number of Bonds	(4) Bond Years (1 x 3)
1	1,740	\$1,740,000	1,740
2	3,720	1,860,000	1,860
3	5,970	1,990,000	1,990
4	8,520	2,130,000	2,130
5	<u>11,400</u>	<u>2,280,000</u>	<u>2,280</u>
Total	<u>31,350</u>	<u>\$10,000,000</u>	<u>10,000</u>

$$\frac{31,350}{10,000} = 3.135 \text{ years average life}$$

Bond - Evidence of the issuer's obligation to repay a specified principal amount on a date certain (maturity date), together with interest at a stated rate, or according to a formula for determining that rate. Bonds are distinguishable from notes, which usually mature in a much shorter period of time. Bonds may be classified according to maturity structure (serial vs. term), source of payment (general obligation vs. revenue), method of transfer (bearer vs. registered), issuer (state vs. municipality vs. special district) or price (discount vs. premium). **Compare: Note.**

Bond Anticipation Note - See: Note.

Bond Counsel - An attorney (or firm of attorneys) retained by the issuer to give a legal opinion that the issuer is authorized to issue proposed securities, the issuer has met all legal requirements necessary for issuance, and interest on the proposed securities will be exempt from federal income taxation and, or review and advise the issuer regard applicable, from state and local taxation. Typically, bond counsel may prepare, or review and advise the issuer regarding authorizing resolutions or ordinances, trust indentures, official statements, validation proceedings and litigation. The bond counsel may also be referred to as the "bond attorney," the "bond approving attorney" or the "bond approving counsel."

Bonded Debt - The portion of an issuer's total indebtedness represented by outstanding bonds:

Direct Debt or Gross Bonded Debt - The sum of the total bonded debt and any short-term debt of the issuer. Direct debt may be incurred in the issuer's own name or assumed through the annexation of territory or consolidation with another governmental unit.

Net Direct Debt or Net Bonded Debt - Direct debt less sinking fund accumulations and all self-supporting debt.

See: Debt Ratios.

Glossary

Bond Election or Bond Referendum - A process whereby the voters of a governmental unit are given the opportunity to approve or disapprove a proposed issue of municipal securities. An election is most commonly required in connection with general obligation bonds. Requirements for voter approval may be imposed by constitution, statute or local ordinance.

Bond Proceeds - The money paid to the issuer by the purchaser or underwriter of a new issue of municipal securities. These moneys are used to finance the project or purpose for which the securities were issued and to pay certain costs of issuance as may be provided in the bond contract.

Capital Appreciation Bond or CAB - A long-term municipal security on which the investment return on an initial principal amount is assumed to be reinvested at a stated compounded rate until maturity, at which time the investor receives a single payment (the "maturity value") representing both the initial principal amount and the total investment return. Several different types of capital appreciation bonds are issued, including compound interest bonds and multiplier bonds. Capital appreciation bonds are distinct from traditional zero coupon bonds because the investment return is considered to be in the form of compounded interest, rather than accreted original issue discount; for this reason only the initial principal amount of a capital appreciation bond would be counted against a municipal issuer's statutory debt limit, rather than the total par value, as in the case of a traditional zero coupon bond.

Costs of Issuance - The expenses associated with the sale of a new issue of municipal securities, including such items as printing, legal and rating agency fees, and others. In certain cases, the underwriter's spread may be considered one of the costs of issuance.

Coupon - (1) A detachable part of a bond which evidences interest due. The coupon specifies the date, place and dollar amount of interest payable, among other matters. Coupons may be redeemed (usually semi-annually) by detaching them from bonds and presenting them to the issuer's paying agent for payment or to a bank for collection.
(2) The term is also used colloquially to refer to a security's interest rate.

Coupon Rate - The annual rate of interest payable on a coupon security expressed as a percentage of the principal amount.

Debt Limit - The maximum amount of debt which an issuer of municipal securities is permitted to incur under constitutional, statutory or charter provisions. The debt limit is usually expressed as a percentage of assessed valuation.

Debt Ratios - Comparative statistics showing the relationship between the issuer's outstanding debt and such factors as its tax base, income or population. Such ratios are often used in the process of determining credit quality of an issue, primarily on general obligation bonds. Some of the more commonly used ratios are (a) net overall debt to assessed valuation, (b) net overall debt to estimated full valuation, and (c) net overall debt per capita. **See: Bonded Debt.**

Debt Service - The amount of money necessary to pay interest on an outstanding debt, the principal of maturing serial bonds and the required contributions to a sinking fund for term bonds. Debt service on bonds may be calculated on a calendar year, fiscal year, or bond fiscal year basis.

Glossary

Debt Service Reserve Fund - The fund in which moneys are placed which may be used to pay debt service if pledged revenues are insufficient to satisfy the debt service requirements. The debt service reserve fund may be entirely funded with bond proceeds, or it may only be partly funded at the time of issuance and allowed to reach its full funding requirement over time, due to the accumulation of pledged revenues. If the debt service reserve fund is used in whole or part to pay debt service, the issuer usually is required to replenish the funds from the first available funds or revenues. A typical reserve requirement might be the maximum aggregate annual debt service requirement for any year remaining until the bonds reach maturity. The size and investment of the reserve may be subject to arbitrage regulations. Under a typical revenue pledge this fund is the third to be funded out of the revenue fund.

Debt Service Schedule - A table listing the periodic payments necessary to meet debt service requirements over the period of time the securities are to be outstanding.

See: Amortization Schedule.

Direct Debt - See: Bonded Debt.

Fitch's Investor Services – An independent service which provides ratings for municipal securities and other financial information to investors.

General Obligation Bond or G.O. Bond - A bond which is secured by the full faith and credit of an issuer with taxing power. General obligation bonds issued by local units of government are typically secured by a pledge of the issuer's ad valorem taxing power; general obligation bonds issued by states are generally based upon appropriations made by the state legislature for the purposes specified. Ad valorem taxes necessary to pay debt service on general obligation bonds are often not subject to the constitutional property tax millage limits. Such bonds constitute debts of the issuer and normally require approval by election prior to issuance. In the event of default, the holders of general obligation bonds have the right to compel a tax levy or legislative appropriation, by mandamus or injunction, in order to satisfy the issuer's obligation on the defaulted bonds.

Interest - The amount paid by a borrower as compensation for the use of borrowed money. This amount is generally an annual percentage of the principal amount.

Issuing Bonds - To "issue" bonds means to sell, deliver, and receive payment for bonds. The State generally issues bonds once a year upon determining the amount of cash necessary to implement projects during that year.

Issue of Bonds or Issue of Securities - Bonds or securities sold in one or more series which are authorized under the same resolution or indenture and have the same dated date.

Issuer - A state, political subdivision, agency or authority that borrows money through the sale of bonds or notes.

Glossary

Lease Rental Bond - A bond from an issue which is secured by lease payments made by the party leasing the facilities financed by the issue. Typically, lease rental bonds are used to finance construction of facilities (e.g., schools or office buildings) used by a state or municipality, which leases the facilities from a financing authority. Often the leasing state or municipality is legally obligated to appropriate moneys from its general tax revenues to make lease payments: in some cases, however, lease payments will be made only from revenues associated with the facility financed (e.g., school tuition payments).

Legal Opinion or Legal or Approving Opinion - The written conclusions of bond counsel that the issuance of municipal securities and the proceedings taken in connection therewith comply with applicable laws, and that interest on the securities will be exempt from federal income taxation and, where applicable, from state and local taxation. The legal opinion is generally printed on the securities.
See: Bond Counsel.

Level Debt Service - A maturity schedule in which the combined annual amount of principal and interest payments remains relatively constant over the life of the issue.

Example:

Level Debt Service Assumptions:

Size of issue: \$10,000,000

Interest rate: 7 percent

Maturity of issue: 5 years

Debt Schedule

Years	Principal	Interest	Total*
1	\$1,740,000	\$700,000	\$ 2,440,000
2	1,860,000	578,200	2,438,200
3	1,990,000	448,000	2,438,000
4	2,130,000	308,700	2,438,700
5	<u>2,280,000</u>	<u>159,600</u>	<u>2,439,600</u>
Total	<u>\$10,000,000</u>	<u>\$2,194,500</u>	<u>\$12,194,500</u>

* Total of principal and interest remains substantially level throughout life of issue.

Maturity or Maturity Date - The date upon which the principal of a municipal security becomes due and payable to the security holder.

Moral Obligation Bond - A bond, typically issued by a state agency or authority, which is secured by the revenues from the financed project and, additionally, by a non-binding undertaking that any deficiency in pledged revenues will be reported to the state legislature which may apportion state moneys to make up the shortfall. Legislation authorizing the issuance of moral obligation securities typically grants the state legislature the authority to apportion money to support the debt service payments on any such securities, but does not legally oblige the legislature to do so.

Glossary

Note - A written, short-term promise of an issuer to repay a specified principal amount on a date certain, together with interest at a stated rate, payable from a defined source of anticipated revenue. Notes usually mature in one year or less, although notes of longer maturities are also issued. The following types of notes are common in the municipal market:

Bond Anticipation Notes (BANs) - Notes issued by a governmental unit, usually for capital projects, which are paid from the proceeds of the issuance of long term bonds.

Tax Anticipation Notes (TANs) - Notes issued in anticipation of future tax receipts, such as receipts of ad valorem taxes which are due and payable at a set time of the year.

Notes may be issued to finance capital projects or to alleviate cash flow problems of the issuer.
Compare: Bond.

Per Capita Debt - The amount of an issuing municipality's debt outstanding divided by the population residing in the municipality. This is often used as an indication of the issuer's credit position since it can be used to compare the proportion of debt borne per resident with that borne by the residents of other municipalities. **See: Debt Ratios.**

Premium - A bond that is trading above its par value. A bond will trade at a premium when it offers a coupon rate that is higher than prevailing interest rates. This is because investors want a higher yield, and will pay more for it.

Principal - The face amount or par value of a security payable on the maturity date.
Compare: Interest.

Rating Agencies - The organizations which provide publicly available ratings of the credit quality of securities issuers. The term is most often used to refer to the nationally recognized agencies, Moody's Investors Service, Inc., Standard & Poor's Corporation, and Fitch Investors.

Ratings - Evaluation of the credit quality of notes and bonds usually made by independent rating services. Ratings are intended to measure the probability of the timely repayment of principal of and interest on municipal securities. Ratings are initially made before issuance and are periodically reviewed and may be amended to reflect changes in the issuer's credit position. The information required by the rating agencies varies with each issue, but generally includes information regarding the issuer's demographics, debt burden, economic base, finances and management structure. Many financial institutions also assign their own individual ratings to securities.

Referendum - A referendum is a means by which a legislative body requests the electorate to approve or reject proposals such as constitutional amendments, long-term borrowing, and special laws affecting some cities and towns.

The Rhode Island Constitution prohibits the legislature from making an amendment to the Constitution or from entering into a debt for over a one-year period without the consent of the electorate. When the General Assembly wishes to incur debt beyond a one-year period, it authorizes an election at which voters can approve or reject incurring long-term debt.

Glossary

Such a legislative request is always phrased as a question. The question is substantially in the following form: "Shall an act, passed at the January, 1990 Session of the General Assembly, entitled...be approved?"

Therefore, a referendum is called a question. Referenda is the plural form of the word.

Refunding - A procedure whereby an issuer refinances an outstanding bond issue by issuing new bonds. There are generally two major reasons for refunding: to reduce the issuer's interest costs or to remove a burdensome or restrictive covenant imposed by the terms of the bonds being refinanced. The proceeds of the new bonds are either deposited in escrow to pay the debt service on the outstanding obligations, when due (in which case the financing is known as an "advance refunding"), or used to immediately retire the outstanding obligations. The new obligations are referred to as the "refunding bonds," and the outstanding obligations being refinanced are referred to as the "refunded bonds" or the "prior issue." For accounting purposes, refunded obligations are not considered a part of the issuer's debt because the lien of the holders of the refunded bonds, in the first instance, is on the escrowed funds, not on the originally pledged source of revenues. The refunded bonds, however, will continue to hold a lien on the originally pledged source of revenues unless provisions have been made in the bond contract on the refunded bonds for defeasance of the bonds prior to redemption.

Revenue Bond - A bond which is payable from a specific source of revenue and to which the full faith and credit of an issuer with taxing power is not pledged. Revenue bonds are payable from identified sources of revenue, and do not permit the bondholders to compel taxation or legislative appropriation of funds not pledged for payment of debt service. Pledged revenues may be derived from operation of the financed project, grants and excise or other specified not-ad-valorem taxes. Generally, no voter approval is required prior to issuance of such obligations. **Compare: General Obligation Bond.**

Serial Bonds - Bonds of an issue in which some bonds mature in successive years without interruption. **Compare: Term Bonds.**

Tax Anticipation Note - See: Note.

Term Bonds - Bonds comprising a large part or all of a particular issue which come due in a single maturity. The issuer usually agrees to make periodic payments into a sinking fund for mandatory redemption of term bonds before maturity or for payment at maturity. **Compare: Serial Bonds.**

Unissued Bond Authorization (Unissued Bonds) - The balance remaining from a legal or statutory authorization, after taking into account the amount of bonds already issued.
