Hazard Mitigation Plan Completion Rate

RIEMA will track all 39 cities and towns to ensure they have completed their local mitigation plan. Every local city and town is required to have a current mitigation plan which provides a plan that guides risk-informed decision-making at the local level. Local governments, including special districts, can use the mitigation plan to guide planning for climate adaptation, resilience, land use and economic development. The figures below represent the percent of Rhode Island municipalities with a current mitigation plan. [Note: This performance measure was established in FY 2024 and historical targets and actuals are not available.]

Critical Infrastructure Plan Completion Rate

RIEMA strives to create and maintain a policy with a comprehensive strategy that protects and enhances the resiliency of the State's Critical Infrastructure/Key Resources (CI/KR). CIKR is defined as critical systems and assets, whether physical or virtual, so vital that the incapacity or destruction of such systems and assets would have a debilitating impact on security, economic security, public health or safety, or any combination of those matters. The figures below represent the percent of the Critical Infrastructure Plan that has been completed. [Note: This performance measure was established in FY 2024 and historical targets and actuals are not available.]
