CHANGES IN BUDGETING PRACTICES AND PRESENTATION

CHANGES IN BUDGETING PRACTICES AND PRESENTATION

General Government

Office of Energy Resources

The Governor recommends a new state agency, entitled “Office of Energy Resources” as part of the Governor’s FY 2026 Budget proposal. Appropriations in this new agency have been relocated from the Department of Administration in both the FY 2025 revised and FY 2026 budget proposals.

Rhode Island Cannabis Control Commission

The Governor recommends a new state agency, entitled “Rhode Island Cannabis Control Commission” as part of the Governor’s FY 2026 Budget proposal. Appropriations in this new agency have been relocated from the Department of Business Regulation starting in FY 2026.

Health and Human Services

Behavioral Healthcare, Developmental Disabilities & Hospitals

Effective in FY 2026, the Governor recommends the transfer of appropriations in the former Hospital Community and System Support program to the Central Management program. Per agency request, these two programs are being reconciled as they are functionally similar. A line item has been added to the Central Management program budget for Restricted Receipt funding, which will contain the Indirect Cost Recovery revenue previously allocated to the Restricted Receipt funding of the former Hospital Community and System Support program. Furthermore, effective in FY 2026, the Governor recommends the transfer of appropriations in the former Outpatient Services subprogram of the Hospital and Community Rehabilitation Services program to instead become a subprogram of the Central Management program named “Forensic Services.” Unlike the rest of the Hospital and Community Rehabilitation Services program, the Outpatient Services subprogram consists of operations that are not eligible for federal Medicaid billing. Therefore, moving those operations out of the Hospital and Community Rehabilitation Services program will simplify the tabulation of Medicaid-eligible program costs.

Effective in FY 2026, the Caseload Estimating Conference in November 2024 adopted a modified categorization system for Private Community Developmentally Disabled Services caseload expenses. The Governor’s recommended budget aligns with the adopted system by adding accounts for the newly defined category of Community-Based Supports.

Executive Office of Health and Human Services

Effective in FY 2026, the Governor recommends a new subprogram in the Executive Office of Health and Human Services, entitled “UHIP” consisting of funding related to the operations of the RIBridges system, formerly known as the Unified Health Infrastructure Project (UHIP). Appropriations in this new subprogram have been relocated from the Central Management program of EOHHS, the Department of Administration, and the Department of Human Services. This consolidation of expenditures is meant to present the operating costs of RIBridges in a unified and transparent way and does not represent a change in the governance or management of RIBridges system. Personnel costs for eligibility staff traditionally included in the RIBridges budget and included in the Implementation Advanced Planning Document are not impacted by this change in budget presentation and remain in the Department of Human Services.

CHANGES IN BUDGETING PRACTICES AND PRESENTATION

Department of Health

Effective in FY 2026, the Governor recommends three new programs in the Department of Health, entitled:

“State Medical Examiner” consisting of appropriations related to the operations of the Office of State Medical Examiners (OSME). Appropriations in this new program have been relocated from the Health Laboratories program, previously entitled Health Laboratories and Medical Examiner;

“Healthcare Quality and Safety” consisting primarily of appropriations related to professional licensing, boards, and commissions, health facilities regulation, and emergency medical services. This new program will replace “Customer Services”; and

“Emergency Preparedness and Infectious Disease” consisting primarily of appropriations related to acute infectious disease epidemiology, HIV, hepatitis, STD, and TB Epidemiology, and emergency preparedness and response. This new program will replace “Preparedness, Response, Infectious Disease, and Emergency Medical Services.”

Effective in FY 2026, the Governor recommends three new subprograms in the Department of Health, entitled:

“Health Equity Institute” in the Community Health and Equity program consisting of general revenue and federal fund appropriations for progress towards more equitable health outcomes for all people in Rhode Island. Appropriations in this new subprogram have been relocated from the Central Management program;

“Opioid Overdose Prevention” in the Central Management program consisting primarily of restricted receipt appropriations for Rhode Island’s response to the opioid and substance abuse crisis. Appropriations in this new subprogram have been relocated from the Customer Services program; and

“Center for Vital Records” in the Policy, Information and Communications program consisting of general revenue and federal fund appropriations related to operations of the center for vital records. Appropriations in this new subprogram have been mainly relocated from the Customer Services program.

The changes to programs and subprograms align with the agency’s current operational structure.

As a result, some year-over-year comparisons by program or subprogram may be impacted. Full documentation is available from the Budget Office upon request.

TECHNICAL APPENDIX

APPENDIX C

INTERNAL SERVICE

FUND ACCOUNTS

Internal Service Fund Accounts

Internal Service Fund accounts are established to finance and account for the operations of certain state programs that provide services to other state agencies, institutions, and other governmental units on a cost reimbursement basis. The purpose of such accounts is to ensure that the activities of the respective programs are managed in a businesslike manner. They are intended to promote efficient use of services by making agencies pay the full costs associated with providing the service and allocate the costs of central administrative functions across all fund types, particularly so that federal and other non-general revenue funded programs share in the costs.

Each Internal Service Fund develops its own billing structure, which is reviewed on an annual basis prior to the start of each fiscal year. In most cases, direct charges associated with a service being provided to a user agency are billed to that agency, along with an overhead charge for the administrative costs of operating the respective fund.

On the following pages are descriptions of each of the Internal Service Fund accounts requested as part of the FY 2026 Budget, with explanations of their purpose and the rationale for utilizing this structure for funding the respective program.

Department of Administration

Internal Service Fund: Health Insurance Fund

Description:

This Health Insurance Fund is used to account for the cost of health insurance coverage for employees and retirees. Historically, the state has accounted for employee health insurance costs in a series of clearing accounts related to payroll, i.e., state and employee (if any) contributions would be posted as additions to a clearing account and payments to health insurance companies would be posted as deductions. However, sometimes there wasn't a direct correlation between the "premiums" or claims paid to health insurance companies and rates assessed to state agencies (employer share) and/or employees and determining the financial position of the state relative to provision of this benefit was time-consuming. Also, any retroactive settlements with health insurance companies required the direct allocation of the settlement back to several thousand agency budget accounts.

Purpose:

This internal service was created to account for employee and retiree health insurance transactions because the state's financial position associated with providing this employee/retiree benefit will be more readily determinable due to the sometimes indirect correlation between the amount of "premiums" or claims paid to health insurance companies and rates assessed to state agencies (employer share) and/or employees. Also, any retroactive settlements with health insurance companies can be incorporated into a future rate charged to agency budget accounts and employees.

Efficacy:

This Internal Service Fund is used to account for the cost of health insurance coverage for employees and retirees. The current rationale for utilizing this methodology is to gain greater accounting efficiency by (1) avoiding the prior practice of allocating retroactive settlements among several thousand agency accounts and (2) being able to quickly determine the State's financial position associated with providing this benefit to employees and retirees.

Internal Service Fund Accounts

Internal Service Fund: Central Utilities

Description:

The Central Utilities Internal Service Fund is responsible for the administration and fiscal management of electricity and natural gas services provided to the state.

Purpose:

The Office of Energy Resources processes monthly payments for approximately 1,930 electric accounts with the state's primary electricity suppliers, Rhode Island Energy and Constellation. It also manages payments for about 154 natural gas accounts with the State's primary natural gas supplier, Direct Energy. Additionally, the Office processes delivery charges for electricity and natural gas through Rhode Island Energy, the State's primary distribution provider. These expenditures are subsequently billed to the respective agencies based on the electricity usage recorded by the meters assigned to each agency.

Efficacy:

Without this Internal Service Fund, each state agency would be independently responsible for paying electric bills for the meters assigned to that agency. This would require an internal distribution of costs to all applicable accounts within the agency, a service that is now provided by the central unit. The State has an arrangement with National Grid and Direct Energy where the centralization of electricity and natural gas provided cost avoidance of late charges due to the efficiencies of a central billing model.

Internal Service Fund: Automotive Fleet

Description:

The State Automotive Fleet Internal Service Fund provides for the administration and fiscal management of state-owned vehicles and operates several fuel depots throughout the state.

Purpose:

This program oversees the procurement, maintenance and allocation of 2,900 vehicles, including heavy-duty vehicles, boats, trailers, and maintenance equipment. Agencies are billed biweekly for expenses including repairs, fuel, and a surcharge (per gallon) for the operation and maintenance of fuel depots. The administrative costs for the Office of State Fleet Operations (OSFO) are charged to agencies per vehicle on an annual basis. All agencies share these overhead costs in an equitable manner.

Efficacy:

Decentralization of automotive fleet functions would result in duplication of efforts, inconsistent policies and procedures between agencies, loss of control over new vehicle purchases, and the absence of a central comprehensive database, which would make it difficult to meet mandated federal reporting requirements on alternative fuel vehicles.

Internal Service Fund Accounts

Internal Service Fund: State Fleet Replacement Revolving Loan Fund

Description:

The State Fleet Replacement Revolving Loan Fund provides loans to state agencies for the acquisition of vehicles and related equipment. These loans are paid back by the respective agencies over a period of three to seven years depending on the value of the equipment acquired. The Fund also grants a portion of its allotment to the Rhode Island Public Transit Authority

Purpose:

This revolving loan fund replaces the use of debt issuances by the state to fund vehicle acquisitions. As funds are repaid annually, they are available to issue new loans.

Efficacy:

Use of a revolving loan fund enables the State to save on interest expense associated with the issuance of debt and provides cost-saving opportunities when multiple vehicles are purchased.

Internal Service Fund: Surplus Property

Description:

This internal service fund oversees the acquisition and distribution of federal surplus property, as well as the storage and disposal of state surplus property.

Purpose:

Section 42-56.2-1 of the RI General Laws requires the appointment of a Federal Surplus Property Officer by the Director of Administration. This position is authorized to acquire from the federal government surplus property that may be of benefit to the state, local governments or non-profit educational or charitable institutions. This position oversees the Surplus Property Internal Service Fund. Although the Fund will acquire federal surplus property on behalf of state agencies or other eligible recipients, they do not bill for this service. The program is not currently generating revenues.

Efficacy:

The staff responsible for overseeing the surplus property program is funded with General Revenues and thus these costs are not allocated to user agencies. As stated above, the only billings made by this internal service fund are currently for space rental at a state warehouse. Without the existence of an internal service funds, these costs could be billed to the user agencies using an alternative accounting method or the costs to operate the warehouse could be fully funded with general revenues, thereby eliminating the need to bill any agency for storage.

Internal Service Fund Accounts

Internal Service Fund: Central Mail

Description:

The Central Mail Internal Service Fund (ISF) provides for inter-agency mail delivery and processing of United States mail for most state agencies.

Purpose:

The responsibility of the Central Mail ISF, under the Division of Enterprise Technology Strategy and Service (ETSS) is to provide mail functions that constitute a major source of cost savings and cost avoidance for government operations statewide. Costs are allocated to agencies via a billing system that applies the internal and external costs to agency budgets.

Efficacy:

This Internal Service Fund is used to allocate the cost of mail processing to various agencies. The current rationale for utilizing this methodology is to gain greater efficiency from the central management of mail processing services.

Internal Service Fund: Telecommunications

Description:

The Telecommunications Internal Service Fund (ISF) supports all voice and data communications infrastructure throughout state government, as well as the public information operators. Voice services include planning, procurement, provision, installation and maintenance of all voice telephone devices, lines and extensions, billing and vendor liaison. Data services include planning, procurement, provision, installation, addressing, routing and maintenance of all WAN data lines and data connections, access to the Internet, security and filtering, billing, and vendor liaison throughout state government.

Purpose:

The responsibility of the Telecommunications ISF, under the Division of Enterprise Technology Strategy and Service (ETSS) is to process all payments for voice communication services to the providers of these services (primarily Verizon). Agencies are then billed monthly for their usage, as well as an overhead charge allocated based upon the number of phone lines in each agency.

Efficacy:

This Internal Service Fund is used to allocate the cost of telephone services to the various agencies. The current rationale for utilizing this methodology is to gain efficiencies from central management of direct and indirect telecom costs. Without the existence of this fund, each agency would be responsible for receiving and paying invoices for telecommunication services provided to their agency.

Internal Service Fund Accounts

Internal Service Fund: Assessed Fringe Benefit

Description:

The Assessed Fringe Benefit Internal Service Fund makes payments for various employee fringe benefits. The fund generates revenue by assessing a charge against the amount of salaries and wages paid to state employees.

Purpose:

The assessment charged by this fund pays for the following employee fringe benefits: services provided by the Donley Center; services of the Workers' Compensation Court and the Division of Workers' Compensation administrative costs related to workers' compensation activities; payments to Workers' Compensation providers; Workers' Compensation benefit payments to employees; Unemployment Compensation payments; and payments to employees for unused leave upon termination from state service.

Efficacy:

This fund was established in part to eliminate the fluctuations in agency budgets that result from workers' compensation claims, unemployment claims, and termination costs. The use of the statewide assessment also meets federal cost allocation requirements.

Internal Service Fund: Human Resources

Description:

The Division of Human Resources provides Human Resource services to Executive Branch departments in the State. The fund generates revenue by assessing a per FTE charge to each agency within the Executive Branch exclusive of Higher Education and the R.I. Department of Education who have their own Human Resource Departments.

Purpose:

The Division of Human Resources is led by a Director of Human Resources whose office is responsible for the overall management of the quality of the State's human resources functions and services, including strategic planning, directing, developing and implementing a statewide program of personnel administration, payroll, recruitment, and employee/labor relations, site operations, and training and development.

Efficacy:

This Internal Service Fund is used to allocate the cost of human resources services to the various agencies in the Executive Branch. The current rationale for utilizing this methodology is to gain efficiencies from central management of human resource management while maximizing the non-general revenue recovery of services received by the benefiting funding source. Without the existence of this fund, each agency would be responsible for human resource functions, which could lead to inconsistent interpretation of contracts, employee and handbooks and discipline. To fund this service in the agencies would require additional resources to fill all the functions this centralized organization is responsible for.

Internal Service Fund Accounts

Internal Service Fund: DCAMM-Facilities Management

Description:

The DCAMM-Facilities Management Internal Service Fund provides for the administration and facilities management oversight of state-owned properties.

Purpose:

The Office of Facilities Management & Maintenance (OFFM) (formerly Facilities Management) within the Division of Capital Asset Management and Maintenance is responsible for the management of all active campuses, buildings, and surplus property, and is led by the Associate Director of Facilities Management & Maintenance. OFMM has oversight for the following Property Management functions:

- Space Management: Expansion or modification of the State's portfolio
- Contracting: Extension, cancellation or execution of new/existing vendor contracts
- Deferred Maintenance Investments: Large projects focused on repair and replacement of deteriorating assets
- Capital Equipment replacement: Replacement of infrastructure and equipment as needed
- Leasing/New Construction: Execution of lease agreements on behalf of client state agencies.

OFMM is responsible for handling day to day operations at all state facilities where DCAMM has direct oversight including handling minor repairs (under \$2.5M), setting up and overseeing facility/campus security, ensuring appropriate ADA access at all facilities, responding to facility emergencies 24/7, managing traffic flows and wayfinding systems, maintaining an efficient and effective communication system with all building/facility/campus tenants, grounds keeping/landscaping, utilities management, snow removal, care/maintenance of artwork and historic artifacts, et al.

Efficacy:

This Internal Service Fund is used to allocate the cost of the Office of Facilities Management & Maintenance services to the various agencies in the Executive Branch. The current rationale for utilizing this methodology is to gain efficiencies from the centralization of facilities management and maintenance, and demonstrate the total cost of a Department's operations including their "lease space" of operations. This allows for maximum reimbursement of allowable costs from non-general revenue sources.

Internal Service Fund: Information Technology Fund

Description:

The Information Technology Internal Service Fund is created to bill for technology services provided throughout State Government, including the executive branch and elected officers, for enterprise services including CIO management, operations, application development, RIFANS, Enterprise Resource Planning costs, and project management functions.

Internal Service Fund Accounts

Purpose:

The responsibility of the Office of Information Technology, under the Division of Enterprise Technology Strategy and Service (ETSS) is to:

- Manage the secure implementation of all new and mission-critical technology projects and upgrades for state agencies. The Office of Information Technology shall manage and support all day-to-day operations of the State's technology infrastructure and associated applications.
- Operate the Project Management Office in order to ensure that large scale technology projects are delivered in a timely and secure manner in accordance with the strategic IT goals of the State and accepted industry practices.
- Coordinate efforts with the Director of Administration in order to plan, allocate and implement projects supported by the Information Technology Investment Fund.
- Supervise all intellectual property created as a result of work undertaken by employees of ETSS to ensure that ownership of this intellectual property remains with the state. Any patents applied for shall be in the name of the state.

Efficacy:

The current rationale for utilizing an internal service fund for information technology is to gain strategic efficiencies, identify opportunities to implement technology solutions across state agencies to prevent duplication of systems and effort, as well as effectively support these solutions in an efficient manner. In addition, billing agencies who receive the benefit of these services will allow for the maximization of non-general revenue cost recovery of services received by the benefiting funding source.

Department of Corrections

Internal Service Fund: Correctional Industries

Description:

Correctional Industries consists of the work programs in correctional facilities that provide real world work experience to inmates, teaching them transferable job skills and work ethic to help them prepare for post-release reentry and employment.

Purpose:

Correctional Industries employs over two hundred inmates who manufacture various products or provide services to state agencies, cities and towns and non-profit organizations. This is the only self-funded reentry support program in Corrections - no appropriated funds are required for its operation since it relies on revolving funds from the income generated by the sale of products and services produced through the program.

Efficacy:

Because Correctional Industries' customer base not only includes state agencies, but also municipal and non-profit agencies, an Internal Services Fund is the most appropriate mechanism for the program.

Internal Service Fund Accounts

Internal Service Fund: Corrections Warehouse / Central Distribution Center

Description:

The Central Distribution Center is responsible for the central purchase of food staples, janitorial items, and other supplies for warehousing and distribution/sale to state agencies and state school districts. The unit also administers the U.S. Department of Agriculture food distribution program.

Purpose:

This Internal Service Fund was created in order to provide for the most cost-effective procurement and delivery of goods to other state programs. The Fund also utilizes inmates working under the supervision of warehouse staff in order to increase the capacity to serve various customers and to provide work training experience for inmates.

Efficacy:

The current rationale for this Internal Service Fund is to improve efficiency by providing a centralized mechanism for the purchase and distribution of goods.

Secretary of State

Internal Service Fund: Record Center

Description:

The State Records Center stores and manages the nonpermanent records of state agencies and funds the Public Records Administration office. This program, a central storage facility for inactive state government records, serves all state agencies.

Purpose:

This Internal Service Fund ensures that state agencies pay only for actual records stored and services received. Most states and the federal government operate their programs through the same or similar means. A Master Price Agreement with a private records storage company governs overall records storage costs and services. Although the private vendor transports and stores the records, state agencies' service requests are channeled through the Public Records Administration office. On a monthly basis, the vendor provides the Public Records Administration Office with a master invoice for all charges to the state, and also individual agency accounts.

Efficacy:

The State Records Center could receive a direct appropriation of funds to cover the entire cost of record storage and other services for all agencies instead of each agency being allotted their own requested amount, but this method would not be as efficient as the current rotary account. A rotary account ensures that agencies pay for actual records stored and services received. A direct appropriation would be an estimate that would have to be revised at the end of the fiscal year.

Internal Service Fund Accounts

Department of Public Safety

Internal Service Fund: Capitol Police Rotary

Description:

The Capital Police Rotary account is for reimbursements from other departments within Rhode Island that the Capitol Police provides service for.

Purpose:

To supply security services to the Department of Human Services; Department of Children Youth & Families; Division of Motor Vehicles; Treasury; Operator Control on the Pastore Complex; and the Department of Transportation. Their mission is to protect property and ensure the safety of the employees with those buildings as well as protecting the public that enter these facilities daily to conduct business.

Efficacy:

This Internal Service Fund is used for the personnel funding for capitol police officers at various sites.

TECHNICAL APPENDIX

APPENDIX D

DEFINITION OF

CATEGORIES OF

EXPENDITURES

Definition of Categories of Expenditures

Generally, the amounts reflected in the categories of expenditures in the *FY 2026 Executive Summary* and in the *FY 2026 Budget* were derived by identifying amounts spent or budgeted in certain budget object codes. The transition from the Rhode Island State Automated Information Link system (RISAIL) to the Rhode Island Financial Accounting Network System (RIFANS) on July 1, 2006, provided opportunity to classify expenditures in hierarchical order of major categories. Each category is described in the following sections with the associated natural codes listed below.

Salary/Wages and Other Comp and Employee Benefit Programs:

Includes expenditures for salaries, wages, fringe benefits, and workers' Comp costs. The personnel category includes all payments for all individuals employed by the state.

611000 Regular Wages	624500 Disability Insurance (TIAA)
611001 Payment of Deferred Furlough Days	624600 Life Insurance
611999 Contract Reserve	624700 Health Insurance Fund
612000 Seasonal/Special Salaries/Wages	624710 Medical Claims/Premiums paid to Insurance Providers
614001 Overtime (Budget only)	624720 Prescription Claims/Premiums paid to Insurance Providers
614100 Overtime (1.5)	624721 Prescription Discounts/Medigap paid to Insurance Providers
614200 Overtime (2.0)	624730 Dental Claims/Premiums paid to Insurance Providers
614300 Overtime (Straight Time)	624740 Vision Claims/Premiums paid to Insurance Providers
614400 Holiday Pay	624750 Health Administration Expense paid to Insurance Providers
614500 Correctional Officers' Briefing Time	624760 Medicare Premiums paid to Insurance Providers
614600 Overtime: Other (Seasonal)	624765 ACA Reinsurance
616001 Stipend Payments	624770 Incurred But not Reported (IBNR)
616100 Cash Bonuses for HMO Participation	624780 Early Retiree Reimbursement Program costs
616200 Family Medical Insurance Coverage Waiver Bonus	624785 Employer Contributions to Health Savings Accounts
616300 Contractual Stipend Payments	624790 Cobra Administrative Service Fees
616400 Accrued Leave Severance Pay	625100 Workers' Comp Payments - Regular Cases (Leaves)
619000 Payroll & Employee Benefits Accrual	625200 Workers' Comp Payments - Assault Cases
619999 Payroll Encumbrance	625300 Workers' Comp Payments - Specific Injury
620100 Employees' Retirement - State Contribution	625301 Workers' Comp - Disfigurement
620110 Employees' Retirement - Defined Contribution Plan	625302 Workers' Comp - Loss of Use
620120 Retirement Contribution per RIGL 36-10-2 (e) (1)	625310 Workers' Comp Payments - Lump Sum
620200 Retirement: State Police Troopers (hired after 7-1-87)	625311 Workers' Comp - Commutations
620300 Retirement: Judges (hired after 12-31-89)	625312 Workers' Comp - Denial & Dismissal
620400 Retirement: Teachers	625315 Medicare Reimbursement - Home Care
620500 Retirement: Other	625320 Injured Workers' Incentive Payments
620600 Retirement: Federal Retirement System	625400 Workers' Comp Payments - Weekly Payments
620700 Retirement: Laborers' International Union of North America	625410 Workers' Comp Payments - Dependency Payments
620800 Pension Expense - GASB 68	625420 Workers' Comp Payments - Post Maximum Assistance

Definition of Categories of Expenditures

621110 Social Security (FICA) Old Age, Sickness & Disability Ins Tax	625500 Workers' Comp Payments - Hospital Charges/Nursing Homes/Medical Facilities
621120 Medicare (FICA) Hospital Insurance Tax	625510 Workers' Comp Payments - Medicine, Drugs, Braces & Medical Equipment
621130 FICA on Severance Pay	625511 Workers' Comp - Prescriptions
621600 Retirement: Federal Retirement System	625512 Workers' Comp - Medical Supplies

TECHNICAL APPENDIX

APPENDIX E

GLOSSARY OF

BUDGET TERMS

Glossary of Budget Terms

Appropriation: An act of the General Assembly authorizing expenditures of designated amounts of public funds for specific state budget programs within a state fiscal year. In recent appropriation acts, appropriations are equated with line items within the act.

Assessed Fringe Benefits: Payments made to an internal service fund for costs of worker's compensation claims and administration, unemployment claims, and severance costs of state employees.

Audited Expenditures: Amounts certified by the Division of Accounts and Control that have been spent in past fiscal periods. Prior fiscal year expenditures are based upon the State Controller's audited numbers.

Capital Budget: The capital improvement plan budget is a five-year plan for real property acquisitions, new construction, rehabilitation of existing facilities, and repairs and renovations to existing facilities.

COLA: A Cost of Living Adjustment (COLA) means a percentage increase in the amount of salary and/or wage compensation paid to state employees, often negotiated as part of a collective bargaining agreement.

Federal Funds: Amounts collected and made available to the state usually in the form of categorical or block grants and entitlements.

Fiscal Note: An estimate of the fiscal impact of legislative bills either drafted, introduced, or at a later stage of consideration.

Fiscal Year (FY): A twelve-month state accounting period, which varies from a calendar year and federal fiscal year. The fiscal year for Rhode Island State government begins on July 1 and ends on June 30. The federal fiscal year begins on October 1 and ends on September 30.

Five-Year Forecast: Financial projections of anticipated revenues and expenditures, including detail of principal revenue sources and expenditures by major program areas over five fiscal years. Such projections are required by state law to be included in the Governor's annual budget submitted to the General Assembly.

FTE Position Authorization: The number of full-time equivalent positions allowed to each agency and department as set forth in the Appropriation Act or the Supplemental Appropriation Act passed by the General Assembly. Departments and agencies are expected to keep within these FTE position caps. Should an adjustment to the full-time equivalent positions authorized for a department or agency be required for an urgent reason, a change in the FTE position cap may be authorized with the approval of the Governor, the Speaker of the House and Senate Majority Leader.

Full-Time Equivalent Positions (FTE): A numerical measurement of the workforce, which constitutes a common denominator between full and part-time employment. To illustrate, an employee working full-time is counted as 1.0 full time equivalent position while an employee working half-time would be counted as a 0.5 full time equivalent position. If a state agency hired these two employees only, the total number of full-time equivalent positions for that agency would be 1.5. For a technical description of the part-time positions included in the full-time equivalent position count, see the glossary in the Personnel Supplement.

General Fund: The operating fund of the State, to which all revenues not specifically directed by statute to another fund, are deposited. This includes state general revenue, federal, restricted, and other funds, which support state operations.

Glossary of Budget Terms

General Fund Free Surplus: The undesignated balance of available resources (sources) over expenditures (uses), which is available for appropriation and expenditures in subsequent fiscal years.

General Revenues: State tax and departmental receipts which are credited for discretionary appropriation as distinguished from receipts collected for restricted purposes and federal grants.

Internal Service Program: A program that aggregates certain services needed by state operated programs and activities, which are provided on a centralized basis. The costs of these services are borne by the user agencies through a charge system, which allocates the cost of delivery of the goods or services. The operations of this program are shown in the state budget for display purposes only, since the costs are reflected in the budgets of the user agencies both on an actual and budget basis.

Medical Assistance and Public Assistance Caseload Estimating Conference: Similar to the Revenue Estimating Conference, it adopts consensus welfare and medical assistance caseload estimates. It consists of the Budget Officer, the House Fiscal Advisor and the Senate Fiscal Advisor who meet in May and November of each year.

Modified Accrual: Basis of accounting that where obligations of the state are budgeted as expenditures if the goods or services are expected to be received during the fiscal year, regardless of whether a cash payment is expected to be made by the state by June 30th of that year. Revenues are estimated on the basis of when they are "earned" by the state.

Operating Budget: An annual plan for the revenues and expenditures necessary to support the administrative and service functions of state government.

Operating Deficit: The amount by which the state's current revenues from general revenue sources are less than its expenditures for a fiscal year. The operating deficit calculation excludes any beginning year surplus.

Operating Surplus: The amount by which the state's current revenues from general revenue sources exceed its expenditures for a fiscal year. The operating surplus calculation excludes any beginning year surplus which may be available to fund expenditures.

Other Funds: Resources that are expended in the budget, which are not considered general revenues, restricted receipts, or federal grants are identified as "Other Funds". This includes, for example, tuition and fees at the University and Colleges and the dedicated gas tax in the ISTEAFund.

Program Measure: A management tool that measures empirically the outcome of a budget program's efforts to achieve an objective. The outcome is measured against a standard established by each agency and department and should indicate not merely what a program does but how well it does it.

Purchased Services: Contracts with non-state entities providing services for state agencies consistent with their objectives. The contract could be established between a state agency and a private person, firm or non-profit agency or it could be established with another governmental entity such as a federal agency.

Reappropriation: The authority of the Governor, in accordance with Section 35-3-15 of the General Laws, to reappropriate funds for the same purpose which are unexpended at the close of the fiscal year. All changes are reflected in the supplemental appropriations act.

Restricted Receipts: A category of accounts in which funds collected, usually by a special fee are dedicated to a specific purpose or set of purposes.

Glossary of Budget Terms

Revenue Estimating Conference: A three-person forecasting committee whose objective is to reach consensus on state revenue projections that are used as a basis for the state budget. The Committee consists of the State Budget Officer, the House Fiscal Advisor and the Senate Fiscal Advisor. This Committee is required, by law, to meet in November and May of each year.

Quasi-Public Agency: An agency or entity considered to be a government body for purposes of the Access to Public Records Act and the Open Meetings Act but that have a degree of independence from state government in its governance and policy making. These Agencies manage or oversee finances for a wide range of public functions in a state, including sewage systems, airports, public transportation, student loan services, economic development policy, and clean water,

Subprogram: Two or more integral components of a budget program that can be separately analyzed for a better understanding of the program.

Supplemental Appropriation: An act of the General Assembly appropriating additional funds beyond the amounts allocated in the original appropriation act to state agencies that are expected to incur a deficiency. In practice, supplemental requests are expected to identify any proposed decreases to the original amounts appropriated as well as proposed increases. (See 35-3-8. of the Rhode General Laws). Supplemental appropriations provide additional budget authority beyond the original estimates for budget programs (including new programs authorized after the date of the original appropriation act) where the need for funds is too urgent to be postponed until enactment of the appropriation bill for the next fiscal year.
