Command Building Readiness

The Army rates its facility conditions using a standardized assessment tool. Federal guidance suggests that 80 percent of facilities should meet or exceed the minimum standards. The goal of Rhode Island National Guard (RING) is to meet this 80 percent target each year. The RING uses the Installation Status Report, Infrastructure (ISR-I) system to track the percent of armories and readiness centers that meet or exceed Army-wide standards for quality and mission support capability. The figures below represent the percent of Rhode Island's eighteen armories and readiness centers that meet or exceed Army building code compliance standards.
