Regulatory Oversight

As part of the Office of Management and Budget, the mission of the Office of Regulatory Reform (ORR) is to review new and amended regulations with a focus on minimizing adverse impacts on Rhode Island businesses, large and small. Since February 2015, ORR has been operating under [Executive Order \(EO\) 15-07](#), which established a review process similar to the federal regulatory model, requiring all executive branch regulations to undergo ORR review. EO 15-07 outlines a process to ensure regulations are not imposing unnecessary burdens on businesses and citizens.

Prior to EO 15-07, the Director of Regulatory Reform had the authority to intervene on any individual regulatory or permitting issue. With the process established by Executive Order, agencies must submit all proposed regulatory actions to ORR, providing a systematic way to address regulatory issues. ORR reviews an agency's regulatory package and, if approved, those proposed rules and impact statements may proceed through a public comment process. Any input from that process goes directly back to ORR for final consideration. Below is an outline of the regulatory review process. While this is the official process outlined in EO 15-07, ORR frequently works with agencies early by reviewing draft regulations and assisting with the regulatory analysis.

Regular Rulemaking and ORR Review:

Small Business Impact Analysis

ORR collects data from agencies regarding the projected effect of regulatory amendments and rescissions on small businesses in Rhode Island. The chart below illustrates the estimated aggregate impact of such amendments.

Note: Emergency and post-comment regulations are not included in this summary chart; percentages may not sum to 100% due to rounding.

Agencies consider a number of factors when evaluating a regulation's impact on small business entities. These include whether the regulation may assist small businesses through actions such as targeted deregulation, adversely impact small businesses relative to their larger counterparts, or result in the absence of discernable effects. Several considerations inform these determinations, including the amount of discretion an agency has to reduce adverse impacts, the universe and diversity of the small businesses affected by the regulation, and exogenous factors impacting the small businesses' economic sector(s). These factors include economic climate, firms' expectations of future economic conditions (which may or may not align with signals from the broader market), national or global events or supply shocks, or technological advancements that transform businesses' cost functions.

Regulatory Submissions Reviewed By ORR

The following regulatory submissions were cleared by ORR during the fiscal year quarter covered by this report. Regulations cleared by ORR are not immediately effective. Regulations must go through the formal rulemaking process administered by the Secretary of State's Office (SoS). In some cases, regulations cleared by ORR are not filed with SoS.

The information in this table (except "Days Under Review" and "Clearance Date") is self-reported by regulatory agencies with their submissions, although ORR can suggest changes to agencies' submissions. In this report, minor, non-substantive revisions of agencies' regulatory summaries have been made for some of the information presented below for the sake of grammatical correctness, clarity, and brevity.

Review Stage	Agency	Regulation Title	Rulemaking Action	Days Under Review	Reason for Regulatory Action/Change	Clearance Date
Post-Comment Draft	Environmental Management	General Equipment Provisions	Amendment	3	Recreational marking of pots: Division proposal to remove reference to R.I. Gen. Laws § 20-4-7 to clarify that the rule also applies to recreational pots (section 6.4(B)(2)).	2026-01-05
Post-Comment Draft	Environmental Management	Definitions and General Provisions	Amendment	3	Deletes section 1.8(A) pertaining to the Administrative Adjudication Division (AAD) process, amends section 1.8(B)(1) to include statutory reference for this language, remove language for wild animals, wild birds, lobsters and fish, and add language “unless otherwise specifically provided,” add language in new section 1.8(B) that outlines when a non-compliance penalty shall be a \$100 fine through the Rhode Island Traffic Tribunal, and amends section 1.8(B)(2) to remove “person” and add “the owner and/or operator of the vessel and/or license/permit holder,” and to amend Part 6 reference. The language in section 1.8(A) is provided in statute (R.I. Gen. Laws Chapter 42-17.7) and regulation elsewhere (250-RICR-10-00-1) and deemed unnecessary. The wild animals, wild birds, lobsters and fish language in section 1.8(B)(1) is not necessary as these are marine fisheries regulations and therefore wild animals and birds do not apply, and lobsters and fish are covered under marine, freshwater and anadromous fisheries and shellfisheries. The other changes reflect the necessary consistencies with statute and additional clarity.	2026-01-05
Preliminary Draft	Executive Office of Health and Human Services	Medicaid Integrated Health Care Coverage, SSI Financial Eligibility Determinations	Amendment	7	Effective 1/1/26, the Medically Needy Standards by Family Size are increased in accordance with the yearly increase in CPI-U. Additionally, the regulation is being amended to reflect the State’s use of commercial data sources to support income verification.	2026-01-07
Preliminary Draft	Health	Processing and Distribution of Shellfish	Amendment	9	Updates the date of the “National Shellfish Sanitation Program’s Guide for Control of Molluscan Shellfish” from 2019 to 2023, referenced in the regulations. The amendments also update the references to the FDA Food Code from 2017 to 2022.	2026-01-07

Post-Comment Draft	Fire Safety Code Board	Rhode Island Fire Alarm Code	Amendment	0	The Board is amending this regulation to update from the 2019 edition of the National Fire Protection Association (NFPA) 72, National Fire Alarm and Signaling Code, to the 2022 edition, with annexes.	2026-01-08
Post-Comment Draft	Fire Safety Code Board	Rhode Island Life Safety Code	Amendment	0	The Board is amending this regulation to update from the 2018 edition of the National Fire Protection Association (NFPA) 101, Life Safety Code, to the 2021 edition, with annexes [hereinafter the model code].	2026-01-08
Post-Comment Draft	Fire Safety Code Board	RI Fire Code	Amendment	0	The Board is amending this regulation to update from the 2018 edition of the National Fire Protection Association (NFPA) 101, Life Safety Code, to the 2021 edition, with annexes.	2026-01-08
Post-Comment Draft	Fire Safety Code Board	Fire Safety Code Administrative Procedures and Appeal Process	Amendment	0	The Board is amending this regulation to reflect certain administrative and procedural changes made during the past code cycle and to add certain clarifying terms where needed.	2026-01-08
Direct Final	Business Regulation	Unfair Property/Casualty Claims Settlement Practices	Amendment	3	The Department proposes this direct final amendment to update the regulation to harmonize with the amendment per 2025 P.L. Chapters 472 & 473 amending R.I. Gen. Laws § 27-9.1-4(a)(29).	2026-01-16
Preliminary Draft	Health	Licensure and Discipline of Physicians	Amendment	10	While the recent medical spa statute expanded the scope of practice for Nurse Practitioners (NP) to allow them to perform ablative laser procedures, it did not expand the scope for Registered Nurses (RN). By carving out Botox, lip fillers, and other limited injections within the definition of surgery, the Department can expand the scope of practice for NPs and allow RNs to perform certain injections pursuant to a valid order by an NP or physician.	2026-01-23

Preliminary Draft	Children, Youth and Families	Mental Health Emergency Service Interventions for Children, Youth and Families Regulations for Licensure	Amendment	25	DCYF is revising the existing Emergency Service Intervention regulation to implement the provisions of R.I. Gen. Laws § 27-18-95 that require the Department to license providers of child and youth Mobile Response and Stabilization Services (MRSS). MRSS is a nationally recognized best practice for responding to children and youths in crisis and preventing psychiatric hospitalization. Overall, it has been shown to significantly reduce child psychiatric hospitalizations, improve child wellbeing, and save states considerable funding. Through the licensure process, DCYF intends to ensure that the national best practice model is followed by MRSS providers.	2026-01-23
Preliminary Draft	Children, Youth and Families	Rules and Regulations of the Rhode Island Training School	Amendment	12	The proposed amendments change the Rhode Island Training School division name from Division of Juvenile Corrections to Division of Youth Development.	2026-01-27
Preliminary Draft	Labor and Training	Examining and Licensing of Hoisting Engineers	Amendment	6	The Department proposes amendments to clarify the scope of exemptions under R.I. Gen. Laws § 28-26-14 by defining “Agriculturist,” “Horticulturist,” and “Tree Service Company,” and to confirm that tree service companies that use covered hoisting machinery are subject to the existing hoisting engineer licensing requirements. The amendments also add an operator fitness/impairment standard prohibiting operation of hoisting machinery while under the influence of alcohol or drugs and make minor technical edits for internal consistency. The rulemaking is intended to improve clarity, enforceability, and safety. The amendment does not change fee amounts or create new license categories.	2026-01-28

Post-Comment Draft	Business Regulation	Rules and Regulations for Home Inspectors and Associate Home Inspectors	Amendment	1	Sections 5.24.5(D)(4) and (5) are being amended to conform to clarifying statutory changes made to R.I. Gen. Laws § 5-6-2 of the electrician licensing law, 2024 Public Laws, ch. 209 & 210, effective 1/30/2025. The Department is not exercising any discretion in making these amendments. The changes are only to ensure that this regulation is consistent with the updated electrician licensing laws and related guidance issued by DLT. While preparing these amendments, it was discovered that cross references within § 5.24.5(D)(5) to §§ 5.22.5 and 5.22.6 (and which also appear throughout the regulation) were incorrect. Those subsections do not exist in the regulation. Upon further review, it was clear that those cross references are meant to point to the exclusions and prohibitions set forth in §§ 5.24.5 and 5.24.6 which contain the standards for the scope of the home inspection and general exclusions. All instances have been corrected. There is no change to status quo.	2026-02-03
Preliminary Draft	Human Services	Supplemental Nutrition Assistance Program	Amendment	6	The Department of Human Services is amending this rule in order to comply with the provisions set forth in the One Big Beautiful Bill Act of 2025 (OBBB) (Pub. Law 119-21), also known H.R.1., as well as updates to the Cost-of-Living Adjustments (COLA) for Federal Fiscal Year 2026.	2026-02-03
Post-Comment Draft	Cannabis Control Commission	Operational Requirements for Cannabis Establishments	Amendment	0	On November 7, 2025, the Commission received a petition for rulemaking pursuant to R.I. Gen. Laws § 42-35-6 and 560-RICR-10-05-1.31 of the Commission's regulations requesting that the Commission's regulations be amended to remove the requirement set forth in 560-RICR-10-10-2.7.2(E)(2) that all packaging containing retail ready cannabis products be clearly labeled with the business name and license number of the retail location selling the product. On November 14, 2025, the Commission voted to grant the petition and initiate rulemaking in accordance with R.I. Gen. Laws § 42-35-6 to remove this requirement. The Commission did so for a number of reasons, including that the information is largely duplicative, as cannabis product labels must already contain a unique seed-to-sale tracking number that allows the product to be tracked from initial cannabis growth to final, retail-ready form. The requirement that is being removed was originally from the DBR medical marijuana regulations, which were enacted prior to the current seed-to-sale tracking system being operationalized and required in the state.	2026-02-06

Preliminary Draft	Health	Licensing of Hospitals	Amendment	14	Adds a requirement that notification of a labor dispute or action be provided to RIDOH within 24 hours and that a strike plan be provided within 72 hours of such notification. Adds language to require hospitals to submit a strike contingency plan at least 60 days prior to the expiration of any existing collective bargaining agreement. Also updates the language to indicate that the requirements only apply to hospitals.	2026-02-13
Emergency	Environmental Management	Part 4 – Shellfish	Amendment	0	The next scheduled open day for shellfish harvest was anticipated to occur on February 23, 2026. However, the National Weather Service has issued a Winter Storm Watch for the region, as well as a Small Craft Advisory for the applicable marine area. These advisories indicate hazardous marine and weather conditions that present risks to vessel operators and crew safety, further limiting the ability of shell fishermen to safely access the resource on the scheduled open date. Because February 23, 2026 is the first legally designated open date currently available to these shell fishermen that week, requiring the fisheries to remain open on that date would effectively force harvesters to choose between risking their lives and vessels in hazardous storm conditions or foregoing their only lawful opportunity to harvest, thereby sustaining further economic harm. This creates an untenable situation that threatens both human health and safety and the economic viability of the affected businesses. The proposed amendment allows shellfish harvest to occur on Tuesday, February 24, 2026.	2026-02-20

Post-Comment Draft	Business Regulation	Rhode Island Industrial Hemp Program	Repeal	0	Pursuant to 2025 Public Law, Chapter 278, Art. 3, § 1, effective June 29, 2025, all powers, duties and responsibilities of the Department of Business Regulation ("DBR") with respect to regulation, administration and enforcement of the Hemp Growth Act, R.I. Gen. Laws Chapter 2-26, were transferred to the Cannabis Control Commission ("CCC"). The CCC's rules and regulations for the Rhode Island Industrial Hemp Program, 560-RICR-10-20-1, were first enacted as an emergency rule on July 21, 2025, and were adopted in full, effective December 8, 2025. Accordingly, the Department is proposing to repeal this regulation because the Hemp Growth Act is no longer under the Department's jurisdiction.	2026-03-12

Post-Comment Draft	Environmental Management	CO2 Budget Trading Program Allowance Distribution	Amendment	1	The Regional Greenhouse Gas Initiative (RGGI) participating states conduct periodic, comprehensive Program Reviews to evaluate RGGI's impacts, set future program goals, and consider updates to evolve the program. This review process is essential to RGGI's ongoing success driving emissions reductions and delivering benefits across the region. Each Program Review includes consideration of state-specific emission reduction requirements, public meetings to gather input on program design, and technical analysis and modeling of the region's economy and electricity sector. The First and Second Program Reviews, completed in 2013 and 2017, respectively, resulted in changes that have strengthened and improved RGGI's market-based system, providing emissions and health benefits to the region. The RGGI participating states launched their Third Program Review in Fall 2021 and was completed in Summer 2025. As a result of this review, the states will set the program on a track to help all participating states meet climate goals.	2026-03-13
