## Small Business Impact Analysis

## Regulatory Oversight

As part of the Office of Management and Budget, the Office of Regulatory Reform’s (ORR) mission is to review new and amended regulations with a focus on minimizing adverse impacts on Rhode Island businesses, large and small. Since February 2015, ORR has been operating under [Executive Order 15-07](#), which requires all Executive Branch regulations to be reviewed by ORR using a model similar to the federal regulatory model. EO 15-07 outlines a process to ensure regulations are not imposing unnecessary burdens on businesses and citizens.

Prior to EO 15-07 the Director of Regulatory Reform had the authority to intervene on any individual regulatory or permitting issue. With the new process dictated by Executive Order agencies must submit all of their proposed regulatory actions to ORR providing a systematic way to address regulatory issues. ORR reviews an agency’s regulatory package, and if approved, those proposed rules and impact statements go through a public comment process. Any input from that process goes directly back to ORR for final consideration. Below is an outline of the ORR’s role in the regulatory review process. The second round of review is primarily to ensure the agencies take into consideration public comments and amend the regulation as necessary.

## Regular Rulemaking and ORR Review

While this is the official process outlined in Executive Order 15-07, ORR frequently works with agencies early by reviewing draft regulations and assisting with the development of regulatory analysis.

## Regulatory Submissions Reviewed By ORR

The following regulatory submissions were cleared by ORR during the fiscal year quarter covered by this report. Regulations cleared by ORR are not immediately effective, regulations must go through the formal rulemaking process administered by the Secretary of State's Office (SOS). In some cases regulations cleared by ORR are not filed with SOS.

The information in this table (except "Days Under Review" and "Clearance Date") is self-reported by regulatory agencies with their submissions, although ORR can suggest changes to agency's submissions. Please note that for any post-comment entries with empty cells, the agency was not required to resubmit this information because the regulation received no public comment and no changes were made to the proposed regulation. Emergency regulations might also have missing data because these submissions are exempt from some reporting requirements.

Preliminary Draft	Administration	PART 8 - CONTRACTS	Amendment	7	The Department of Administration has determined that the current rules did not provide adequate options and flexibility to attract potential qualified vendors to pursue construction projects for the State in light of new developments and methods of contracting, management, and project delivery in the construction industry. The Department of Administration believes that there will be a savings in light of the anticipated increased competition among vendors. The Department of Administration believes, further, that the amendment will promote competition, ensure the fair and equitable treatment of all persons who deal with the procurement process at the Department of Administration, and provide safeguards for the maintenance of the procurement process with quality, integrity, and the highest ethical standards.
