Small Business Impact Analysis

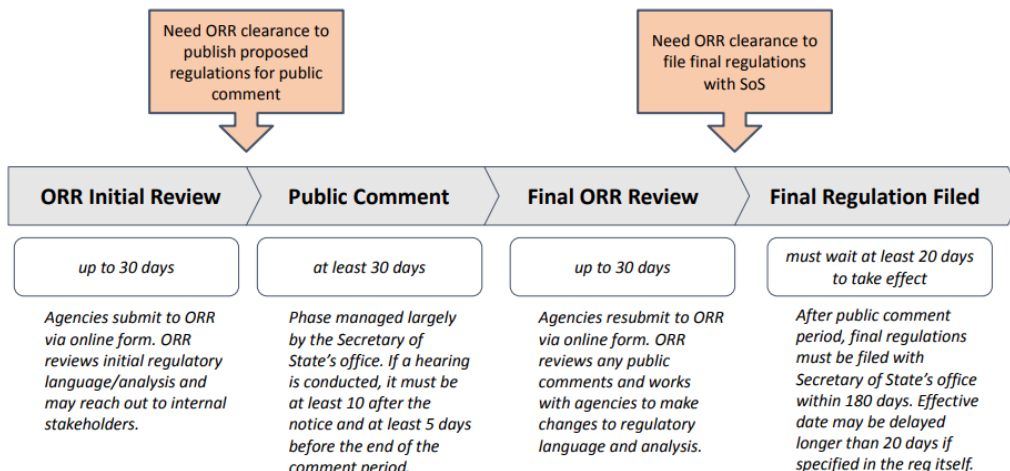

Regulatory Oversight

As part of the Office of Management and Budget, the Office of Regulatory Reform’s (ORR) mission is to review new and amended regulations with a focus on minimizing adverse impacts on Rhode Island businesses, large and small. Since February 2015, ORR has been operating under [Executive Order 15-07](#), which requires all Executive Branch regulations to be reviewed by ORR using a model similar to the federal regulatory model. EO 15-07 outlines a process to ensure regulations are not imposing unnecessary burdens on businesses and citizens.

Prior to EO 15-07 the Director of Regulatory Reform had the authority to intervene on any individual regulatory or permitting issue. With the new process dictated by Executive Order agencies must submit all of their proposed regulatory actions to ORR providing a systematic way to address regulatory issues. ORR reviews an agency’s regulatory package, and if approved, those proposed rules and impact statements go through a public comment process. Any input from that process goes directly back to ORR for final consideration. Below is an outline of the ORR’s role in the regulatory review process. The second round of review is primarily to ensure the agencies take into consideration public comments and amend the regulation as necessary.

Regular Rulemaking and ORR Review

While this is the official process outlined in Executive Order 15-07, ORR frequently works with agencies early by reviewing draft regulations and assisting with the development of regulatory analysis.

Regulatory Submissions Reviewed By ORR

The following regulatory submissions were cleared by ORR during the fiscal year quarter covered by this report. Regulations cleared by ORR are not immediately effective, regulations must go through the formal rulemaking process administered by the Secretary of State’s Office (SOS). In some cases regulations cleared by ORR are not filed with SOS.

The information in this table (except “Days Under Review” and “Clearance Date”) is self-reported by regulatory agencies with their submissions, although ORR can suggest changes to agency’s submissions. Please note that for any post-comment entries with empty cells, the agency was not required to resubmit this information because the regulation received no public comment and no changes were made to the proposed regulation. Emergency regulations might also have missing data because these submissions are exempt from some reporting requirements.

Post-Comment Draft	Environmental Management	PART 1 – Definitions and General Provisions	Amendment	0			2018-10-02
Direct Final	Administration	Management and Use of State Owned Motor Vehicles by State Agencies	Repeal	0	This repeal is taking place because the “Management and Use of State Owned Motor Vehicles by State Agencies” is an intergovernmental/interagency directive. Intergovernmental/interagency directives are excluded from the definition of “rule” pursuant to R.I. Gen. Laws § 42-35-19(ii). Since the content of the current rule is specifically excluded from the definition of “rule” in the Administrative Procedures Act, this repeal is noncontroversial. This intergovernmental/interagency directive will continue as an official Department of Administration policy.	NO, this regulation DOES NOT IMPACT small business	2018-10-03

					<p>which were based on provisions of state law (repealed in 2016) and guidance incorporated into RINR 2009, entitled "RI Healthy Schools Coalition Nutrition Guidelines for School Vending and a la Carte" as well as their understanding of best nutritional practices. The proposed regulation will bring RINR into alignment with current practices and the state-specific nutrition requirements that have consistently been enforced over the last several years. Since there is no change in the actual implementation of the current regulation, there is no fiscal impact that would result from adoption of the proposed regulation. The new proposed regulation now explicitly sets forth statespecific requirements. Taken together with the federallyimposed nutritional requirements and limitations on competitive foods and beverages, it will maintain high nutrition standards for school meals that are reimbursed by the USDA and all other food and beverages that are sold on the school campus in Rhode Island.</p>
